28	Cost per active assigned case				\$78.88	\$96.90	\$115.80	\$18.90
29								(19.5%)
30								
31	SALARIES AND WAGES: The increase of \$104,022 is accounted for primarily by the 34 new positions.							
32	1 Assistant supervisor, extramural care is required due to expanded social work staff and corresponding load in the							
33	headquarters office.							
34	4 Supervising psychiatric social workers are provided to continue supervision of case workers at the ratio of one to six.							
35	20 Senior psychiatric social workers are provided of whom two are required for case load increase and 18 to permit re-							
36	duction of the field workers active case load from 92.5 to 76 to improve the level of service.							
37	9 Intermediate typist-clerks to provide clerical service for the expanded staff at the current ratio of one to two-and-							
38	one-half social workers.							
39								
40	OPERATING EXPENSES: The increase of \$34,936 is accounted for as follows:							
41	Travel and automobile expense increase for new positions						\$16,475	
42	Rent increase to provide space for expanded staff						12,375	
43	In-service training travel expense for 20 professional internes from the universities to participate in social							
44	work						2,000	
45	The balance of increase is primarily increased supplies, postage, etc., for the expanded staff, and price increase.							
46								
47	EQUIPMENT: The amount of \$46,435 includes the following:							
48	Eight new automobiles for the expanded social worker staff at the ratio of one car per three social workers are pro-							
49	vided at a cost of \$12,800. Additional office equipment including dictating and transcribing equipment is provided							
50	for the authorized and expanded staff.

45	OTHER CURRENT EXPENSES				ACTUAL	ESTIMATED	PROPOSED	
46	DETAIL				1950-51	1951-52	1952-53	
47	TRANSPORTATION OF PATIENTS AND OTHER							
48	PERSONS COMMITTED TO STATE INSTITUTIONS							
49	Analysis							
50	This appropriation covers transportation costs, sheriffs' fees, and traveling expenses incident to delivery of patients from the counties							
51	to the institutions. This item has been decreased for the effects of Chapter 181, Statutes of 1951, which provides for payment of							
52	actual expenses only of sheriffs delivering persons committed to institutions.							
53	OPERATING EXPENSES

## GENERAL ANALYSIS

Effective in 1951-52, the Department of Mental Hygiene rather than the Department of Public Health has been named by the Federal Government as administrator of National Mental Health Act Funds for California. As such, it is responsible for the allocation of such funds to other state and local agencies and seeing that required standards of service are met and maintained.

32	<i>Number of positions</i> .....	63	79.2	84.9	5.7
33	A total of 17,557 interviews were held at the Los Angeles, Fresno, Chico, Sacramento, and San Diego clinics in 1950-51, with an average of six interviews per patient on record. Due to the shortage of psychiatric staff the clinics are forced to limit the amount of therapy per patient to the minimum necessary for obtaining some degrees of adjustment with much of the staff time devoted to general consultative and educational activities in the area. With no allowance for other activities the interview costs would amount to \$14.45 each.				
34	The Berkeley Clinic conducts an extensive training program for social workers, psychologists, and for psychiatrists. As a result, a large proportion of the total number of interviews are given by psychiatrists and average 15 interviews per patient on record, whereas in the remaining clinics most of the interviews are conducted by social workers under the psychiatrist in charge. The Berkeley Clinic held 7,538 interviews and the interview cost in terms of total clinic operations cost, averaged \$6.64 each.				
35	In view of the number of vacant positions in the various clinics which had such a direct bearing on the number of interviews, no estimated unit cost is projected for 1952-53.				
36	<b>SALARIES AND WAGES:</b> The increase of \$41,172 is due in part to increased cost of authorized positions and a reduction in salary savings to an approximate 10 percent vacancy level.				
37	Two reclassifications of senior psychiatric social worker positions to supervising level are provided at a cost of \$285 to head the social service staff in the Chico and Riverside Outpatient Clinics.				
38	<b>OPERATING EXPENSES:</b> An increase of \$14,993 is due in part to partial year operations of the Chico Outpatient Clinic in 1951-52, increased travel for regional meetings, in-service training allowance for rotation of social worker staff between clinics, hospital, and extramural work, and an allowance for a mental health institute from federal financing.				
39	<b>EQUIPMENT:</b> An amount of \$6,463 is provided for 1952-53 and includes the following significant items: a recorder-transcriber unit for use while interviewing patients and additional films and books.				
40	<sup>a</sup> Composed of savings in salaries and wages, \$94,114; operating expenses, \$12,823; equipment, \$9,713; and loss in reimbursements, \$2,705.				
41	<sup>b</sup> Composed of savings in salaries and wages, \$19,978; operating expenses, \$1,346; and loss in reimbursements, \$294.				
42	<sup>c</sup> Federal funds, neither receipts nor expenditures are included in the budget totals.

Total expenditures for support in 1952-53 amount to \$854,994, an increase of \$43,885 or 5.4 percent over 1951-52 estimates.

## SALARIES AND WAGES: The increase of \$27,446 is accounted for by the eight new positions:

- 2 Intermediate stenographer-clerks are required for the clerical pool of which one position is required for the authorized professional staff and one for the additional professional positions included in the 1952-53 Budget.
- 1 Junior research technician is required to gather statistical data from tests and medical records, to transcribe and tabulate this data, and to assist in preparing statistical reports in connection with psychological and psychiatric research conducted by staff members for the purpose of standardizing or evaluating methods of diagnosis, prognosis, and therapeutic procedures.
- 1 Senior account clerk is required in the accounting office to relieve the bookkeeper and perform the more difficult clerical and statistical assignments and exercise general supervision over the clerical staff.
- 1 Physician and surgeon III is provided for the reorganization of the medical staff to head the physician staff and reduce the number of persons reporting directly to the assistant medical superintendent. The assistant medical superintendent has under him the total medical staff, psychologists, outside consultants, psychiatric residents, social service and nursing service staffs. He is also responsible for the general development of hospital treatment and teaching program, and medical research.
- 1 Recreational therapist is required to furnish activity for the patients other than that provided in the occupational therapy shop. With the construction of the outdoor recreational area it is planned to provide indoor and outdoor activity.
- 2 Senior psychiatric social workers are required for the social work treatment program of Children's Service both inpatient and outpatient. The present staff is made up largely of trainees on a rotation basis and there is need for a strong social work administration on each service to give continuity and stability of program.

OPERATING EXPENSES: An increase of \$7,227 is primarily due to increased medical and neurosurgery supplies amounting to \$3,650, increased anesthetist service \$1,300, and an electroencephalographic laboratory engineering consultant \$2,000. The ration cost is reduced due to substitution of oleomargarine for butter for the full year as compared to six months in 1951-52. Other items of change are generally due to price changes.

EQUIPMENT: A total of \$19,525 includes \$6,041 for replacement and represents 3.1 percent of equipment investment and \$13,484 for additional equipment. The following are significant items of additional equipment: One carryall, \$2,075; electronic brain stimulator with oscilloscope, \$1,500; and a modified Horseley-Clark stereotaxic instrument for brain operations, \$1,940.

REIMBURSEMENTS: A total of \$9,720 is estimated for 1952-53, an increase of \$432 from increased meal sales to employees.

a Composed of savings in salaries and wages, \$43,632; operating expenses, \$2,310; equipment, \$2,692; and excess reimbursements, \$734.  
b Composed of savings in salaries and wages, \$35,976; operating expenses, \$885, due entirely to the substitution of oleomargarine for butter effective January 1, 1952.

c Represents average count Monday through Friday and excludes the weekend visits. Practically all active treatment and therapy is given during those five days. The feeding allotment is based upon the seven-day average for approximately 10 percent less inpatients than shown above.

d Represents the total number of interviews by the professional staff, some of which are performed by staff from the University of California. Case interviews average approximately one hour in duration and approximately 15 hours of treatment per patient on record.

e Costs have been allocated between inpatient and outpatient departments on the basis of estimated time distribution of all employees and a proportioned allocation of other expenses.

## GENERAL ANALYSIS

26	Number of positions -----	898.3	903.9	960.7	54.8
27					
28	<b>POPULATION AND UNIT COSTS</b>				
29	Average population -----	3,719	3,957	3,978	21
30	Per capita cost -----	\$948	\$1,088	\$1,138	\$50
31					(4.6%)
32	Total expenditures for support in 1952-53 amount to \$4,528,201, an increase of \$221,761, or 5.1 percent, over 1951-52. The increase in average population in 1952-53 is one-half percent over 1951-52.				

34 **SALARIES AND WAGES:** The increase of \$191,661 is accounted for entirely by 66 new positions. Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary. The 4 miscellaneous positions are individually explained below:

- 38 1 Assistant seamstress to repair the volume of clothing, bedding, linen, and other articles processed through the laundry prior to distribution to the wards to lengthen the life of the items.
- 39 1 Surgical nurse required to establish a central supply for dressings, medications, and supplies. This system provides for economy of supplies and facility of operations.
- 40 1 Building maintenance man to perform semiskilled mechanical work on structures and equipment and assist the journeyman tradesman in specialized work as required for the major increase in buildings at this hospital.
- 41 1 Stationary engineer to service the major pieces of mechanical equipment along with the general mechanical work required in the maintenance of boiler plant, steam heating services, refrigeration, and water supply services. With the major increase in buildings and facilities there in insufficient personnel to maintain all the equipment and services.

47 **OPERATING EXPENSES:** The increase of \$7,990 is accounted for as follows:  
 48 The net feeding cost for a larger population in 1952-53 is \$16,400 less than the 1951-52 cost as a result of the substitution of oleomargarine for butter for six months in 1951-52 as contrasted to the full year in 1952-53.  
 50 The increased drug and medical supply per capita allowance accounts for \$9,945 and population changes further increase medical care costs \$5,723.  
 51 The increased rehabilitation therapy supply per capita allowance accounts for \$8,752.

54 **EQUIPMENT:** The amount of \$145,264 provides \$76,482 for replacement which is 5.1 percent of equipment investment and \$68,782 for additional equipment. The following are significant additional items: Equipment for new positions, \$7,288; 3 trucks and bus, \$16,234; food conveyors, \$4,506; television sets, \$3,750.

58 **REIMBURSEMENTS:** A total of \$92,354 is estimated for 1952-53, an increase of \$1,766 from meal sales to employees.

22					(14.5%)
23	<b>GENERAL ANALYSIS</b>				
24	Number of positions-----	912.3	1,197.8	1,422.6	224.8
25	<b>POPULATION AND UNIT COSTS</b>				
26	Average population-----	5,136	5,900	6,290	390
27	Per capita cost-----	\$825	\$928	\$996	\$68
28					(7.3%)
29	Total expenditures for support in 1952-53 amount to \$6,267,143, an increase of \$792,625 or 14.5 percent over 1951-52. The increase in				
30	average population in 1952-53 is 6.6 percent over 1951-52.				
31	<b>SALARIES AND WAGES:</b> The increase of \$731,530 is accounted for as follows:				
32	Eighty new positions at a cost of \$278,697—Complement positions affecting all hospitals are explained under "State Hospitals and				
33	Homes for Mentally Deficient" following the departmental summary, and the 12 miscellaneous positions are individually explained				
34	below.				
35	One storekeeper I—Due to the increased volume of supplies required for the additional population one additional storekeeper position				
36	is required.				
37	One assistant seamstress—This position is necessary because of increased load attributable to growth of the institution to aid in				
38	fabricating new garments in the sewing room, and the mending of clothing and linens passing through the laundry.				
39	Two housekeepers and one janitor are proposed to provide cleaning and janitorial services in the new receiving and treatment build-				
40	ing and administration building, to be opened approximately March, 1952.				
41	Two surgical nurses are required in addition to the two authorized positions in order to provide the following coverage; two posts in				
42	the new receiving and treatment building plus one for relief for daily coverage, and one position for the central supply.				
43	One dental laboratory technician is necessary to staff the dental laboratory in the new receiving and treatment building.				
44	One building maintenance man is required to assist with the repair and maintenance of the 2,400 locked doors, an additional 600				
45	locked cabinets, hundreds of door closers, and several thousand geared window openers. The older cylinder locks require a con-				
46	tinuous program to keep them in operable condition.				
47	One carpenter is required for the maintenance of buildings for approximately 1,400 additional capacity.				
48	One plumber is required for the additional building capacity. The exceptionally hard water is very corrosive to pipe fixtures and				
49	approximately 70 percent to 93 percent of the full working crews' time is used in making emergency repairs to the present plant.				
50	One electrician is required to permit the electrical crew to maintain the institution. Existing maintenance records indicate that 80				
51	percent of the electrical crews' time has been used for emergency calls and with the occupancy of the new buildings the load				
52	will increase.				
53	The increased cost of authorized positions and reduction of salary savings resulting from the delayed opening of the new receiving				
54	and treatment building now scheduled to open on March 1, 1952, account for the balance of the increase in salaries in 1952-53.				
55	<b>OPERATING EXPENSES:</b> The increase of \$109,721 is accounted for as follows:				
56	The increased drug and medical supply per capita allowance for a greater population in 1952-53 accounts for \$19,859 of which \$4,134				
57	is attributed to population change. The augmented rehabilitation therapy allowance for a greater population accounts for \$14,618.				
58	Net feeding costs for the increased population account for \$39,342, after the substitution of oleomargarine for butter. Light, heat, and				
59	power costs to provide for full year occupancy of new buildings account for \$21,095. The increases in prices and population are				
60	primarily responsible for the balance of \$14,807 in other allotments.				
61	<b>EQUIPMENT:</b> An amount of \$116,101 is proposed, a decrease of \$41,166 from 1951-52. \$61,535 is for replacement and represents				
62	4.2 percent of equipment investment, and \$54,566 is for additional equipment and includes the following significant items: office				
63	equipment for new positions, \$8,946; automotive equipment, \$5,875; laundry washer, \$3,500; and chapel furnishings, \$4,500.				
64	<b>REIMBURSEMENTS:</b> A total of \$136,033 is estimated for 1952-53, an increase of \$7,460 over 1951-52, and is attributable to an				
65	estimated increase in meal sales to new employees.				
66					
67	a Composed of savings in salaries and wages, \$168,283; operating expenses, \$3,744; equipment, \$20,457; and excess reimbursements,				
68	\$605.				
69	b Composed of savings in salaries and wages, \$577,835; operating expenses, \$26,412, due entirely to the substitution of oleomargarine				
70	for butter effective January 1, 1952.

9	Total Available -----	\$2,842,504	\$3,218,708	\$3,279,136	\$60,428
10	Unexpended balance, estimated savings -----	—75,022 <sup>a</sup>	—49,677 <sup>b</sup>	—	49,677
11	<b>TOTAL EXPENDITURES FOR SUPPORT</b> -----	<b>\$2,767,482</b>	<b>\$3,169,031</b>	<b>\$3,279,136</b>	<b>\$110,105</b> (3.5%)

12	<b>GENERAL ANALYSIS</b>				
13	<i>Number of positions</i> -----	675.8	669.2	690.8	21.6

14	<b>POPULATION AND UNIT COSTS</b>				
15	Average population -----	2,965	3,021	3,024	3
16	Per capita costs -----	\$933	\$1,049	\$1,084	\$35 (3.3%)

Total expenditures for support in 1952-53 amount to \$3,279,136, an increase of \$110,105 or 3.5% over 1951-52. The increase in average population in 1952-53 is 0.1% over 1951-52.

**SALARIES AND WAGES:** The increase of \$85,177 is attributable to the 24 new complement positions. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary.

**OPERATING EXPENSES:** The increase of \$9,190 is accounted for as follows: The net feeding cost for a larger population in 1952-53 is less than the 1951-52 cost as a result of the substitution of oleomargarine for butter for six months in 1951-52 as contrasted to the full year in 1952-53. The increased drug and medical supply per capita allowance accounts for \$15,000. The increased rehabilitation therapy supply per capita allowance accounts for \$6,659. Other factors of change account for the balance of \$1,525.

**EQUIPMENT:** The amount of \$68,383 provides \$31,943 for replacement which is 3.8% of equipment investment and \$36,440 for additional equipment. The following are significant additional items: Equipment for new positions \$1,979, truck replacement \$2,080, additional passenger automobile \$2,075, dough troughs \$1,500, food chopper \$1,400, electroencephalograph \$3,500, television sets \$2,500.

**REIMBURSEMENTS:** A total of \$79,673 is estimated for 1952-53, an increase of \$1,860 from meal sales to employees.

12	Unexpended balance, estimated savings.....	-203,920 <sup>a</sup>	-173,353 <sup>b</sup>	-	173,353
13	TOTAL EXPENDITURES FOR SUPPORT.....	\$2,381,527	\$2,679,377	\$2,843,737	\$164,360 (6.1%)

## GENERAL ANALYSIS

21	Number of positions .....	560.2	558.9	609.3	50.1
----	---------------------------	-------	-------	-------	------

## POPULATION AND UNIT COSTS

24	Average population .....	2,717	2,644	2,518	-126
25	Per capita cost .....	\$877	\$1,013	\$1,129	\$116 (11.5%)

27 Expenditures for support in 1952-53 amount to \$2,843,737, an increase of \$164,360 or 6.1 percent over 1951-52. The average population in 1952-53 is 4.8 percent below 1951-52.

30 SALARIES AND WAGES: The increase of \$178,178 is accounted for as follows:

31 37 new positions at a cost of \$131,335. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient," following the departmental summary, and the two miscellaneous positions are explained below.

33 2 Transportation officers are required to provide close custody of sexual psychopathic and criminally insane patients being returned to the courts from which they were committed following their course of hospital treatment. Also, distant trips must be made with difficult patients to other hospitals and institutions which require trained personnel.

36 The balance of the increase amounting to \$46,843 is attributable to more intensive personnel and recruitment efforts to more fully utilize the authorized positions.

39 OPERATING EXPENSES: The decrease of \$26,125 is due to the following factors:

40 Net feeding costs are reduced \$35,351 below 1951-52 because of lower resident population, substitution of oleomargarine for butter for the full year as contrasted with six months in 1951-52, and reduction of feeding allotment for elimination of commissary sales to employees.

42 The medical supply and drug per capita increase accounts for a \$6,295 increase.

44 The augmented rehabilitation therapy supply allotment accounts for an additional \$5,288.

45 Reduced population and price changes are primarily responsible for the net difference of \$2,357 in other items.

47 EQUIPMENT: The amount of \$82,423 included \$43,470 for replacement which is 4.9 percent of equipment investment and \$38,953 for additional equipment. The following are significant additional items of equipment: Equipment for new positions, \$5,303; truck, \$1,350; coffee urns, \$1,600; bed pan sterilizers, \$2,700; syrupeur and briner, \$3,000.

51 REIMBURSEMENTS: A total of \$89,537 is estimated for 1952-53, a decrease of \$1,532 from 1951-52 primarily due to elimination of commissary sales only partially offset by increased meal sales to employees.

14					<b>(5.3%)</b>

15	<b>GENERAL ANALYSIS</b>				
16					
17	<i>Number of positions</i>	732.5	738.8	808.5	69.7
18					
19	<b>POPULATION AND UNIT COSTS</b>				
20	Average population	2,983	2,976	2,987	11
21	Per capita cost	\$988	\$1,155	\$1,212	\$57
22					<b>(4.9%)</b>

Total expenditures for support in 1952-53 amount to \$3,619,124, an increase of \$181,326 or 5.3 percent over 1951-52. The increase in average population in 1952-53 is 0.4 percent over 1951-52.

**SALARIES AND WAGES:** Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. Two miscellaneous positions are proposed for:

1 Information clerk is required to provide information to relatives visiting patients, to handle patients leave procedures, make arrangements for appointment of the patients and relatives with physicians, and direct visitors to the various wards and sections of the hospital.

1 Electroencephalographic technician. Electroencephalographic examinations have become an essential part of neuro-psychiatric work and the cases where organic brain disorders are suspected should have the benefit of this type of examination.

**OPERATING EXPENSES:** The increase of \$4,750 is accounted for as follows: The net feeding cost for a larger population in 1952-53 is less than the 1951-52 cost as a result of substitution of oleomargarine for butter for six months in 1951-52 as contrasted to the full year in 1952-53. The increased drug and medical supply allowance accounts for \$11,392. The increased rehabilitation therapy supply per capita allowance accounts for \$6,593. Other items of change are primarily due to price and population factors.

**EQUIPMENT:** The amount of \$116,987 provides \$46,782 for replacement which is 6.8 percent of equipment investment and \$70,205 for additional equipment. The following are significant additional items: equipment for new positions \$1,979, bus \$10,255, ward refrigerator \$3,058, shoe repair shop equipment \$3,232, ward dayroom chairs and settees \$5,030, floor polishers \$900, bed pan washer and sterilizer \$1,622, major operating table \$1,250, contrast arm and leg bath \$1,600, movie projectors \$1,029, maintenance shop blower \$2,525.

**REIMBURSEMENTS:** A total of \$87,414 is estimated for 1952-53, an increase of \$6,957 from meal sales to employees.

8	Allocations from Price Increase Fund .....	-	129,936	-	-129,936
9	Total Available .....	\$3,860,333	\$4,323,013	\$4,897,668	\$574,655
10	Unexpended balance, estimated savings .....	-190,293 <sup>a</sup>	-66,423 <sup>b</sup>	-	66,423
11	<b>TOTAL EXPENDITURES FOR SUPPORT</b> .....	<b>\$3,670,040</b>	<b>\$4,256,590</b>	<b>\$4,897,668</b>	<b>\$641,078</b> <b>(15.1%)</b>

12	<b>GENERAL ANALYSIS</b>				
13	Number of Positions .....	860.4	892.1	1,167.8	275.7

14	<b>POPULATION AND UNIT COSTS</b>				
15	Average population .....	4,392	4,458	4,692	234
16	Per capita costs .....	\$836	\$955	\$1,044	\$89 (9.3%)

Total expenditures for support in 1952-53 amount to \$4,897,668, an increase of \$641,078 or 15.1 percent over 1951-52. The increase in average population in 1952-53 is 5.2 percent over 1951-52.

**SALARIES AND WAGES:** The increase of \$541,050 is attributable to the 357 new positions. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient," following the departmental summary. The six miscellaneous positions are individually explained below:

- 1 Junior clerk to transport patients' confidential records, documents, dictaphone records, and other material from the administration building to the widely separated doctors' offices in the wards.
- 2 Surgical nurses are required in addition to the two authorized positions in order to provide the following coverage:
  - Two posts in the new Receiving and Treatment Building plus one for relief for daily coverage, and one position for the central supply.
  - 1 Pharmacist to cover the increased pharmacy work in the new Receiving and Treatment Building and provide relief for the present position. This will also permit the manufacture of pharmaceuticals now purchased at a higher cost.
  - 1 Building maintenance man will be required to continually check the intricate heating and ventilating system in the new Receiving and Treatment Building and perform preventive maintenance work.
  - 1 Electrician is necessary in addition to the two authorized positions to service the major number of new buildings now in operation and the new Receiving and Treatment Building which will be an additional load in order to keep the plant in operable condition.

**OPERATING EXPENSES:** The increase of \$100,843 is accounted for as follows:  
The full-year substitution of oleomargarine for butter in 1952-53 compared to six-month use in 1951-52 provided a saving which limited the increase to \$21,665 for a larger population in 1952-53.

The increased drug and medical supply per capita allowance accounts for \$14,170.

The increased rehabilitation therapy supply per capita allowance accounts for \$8,790.

The light, heat, and power requirements for the additional buildings account for \$24,714.

The increased dairy herd and poultry replacements for production requirements account for \$15,480.

Other factors of change are generally attributable to price and population.

**EQUIPMENT:** The amount of \$93,551 provides \$41,498 for replacement which is 3.3 percent of equipment investment and \$52,053 for additional equipment. The following are significant additional items: Centralized dictating installation, \$2,800; equipment for new positions, \$11,150; one automobile and three trucks, \$5,650; refrigerators for cottages, \$1,800.

**REIMBURSEMENTS:** A total of \$115,881 is estimated for 1952-53, an increase of \$10,342 from meal sales to employees.

## GENERAL ANALYSIS

Number of positions -----	598.1	598.9	629.2	30.3
---------------------------	-------	-------	-------	------

## POPULATION AND UNIT COSTS

Average population -----	2,508	2,253	1,991	-262
Per capita cost -----	\$983	\$1,259	\$1,453	\$194

(15.4%)

Expenditures for support in 1952-53 amount to \$2,892,099, an increase of \$55,418 or 2 percent over 1951-52. The average population in 1952-53 is 11.6 percent below 1951-52.

**SALARIES AND WAGES:** The increase of \$120,407 is accounted for entirely by the 36.1 new positions. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. The 6.1 miscellaneous positions are individually explained below:

- 1 Intermediate information clerk is necessary in the administration building to receive visitors and direct them to the wards in the hospital, arrange for visits to the patients, etc., as the telephone operator load at the switchboard does not allow sufficient time for this function.
- 1 Hospital industry supervisor under the general supervision of the business manager will have direct supervision of the laundry, tailor shop, seamstress, mattress maker and upholsterer, storekeepers, shoemaker, housekeeping functions and other miscellaneous industries. This position will make production and organization studies and relieve the business manager who must delegate some of his work to other supervisors.
- 1 Storekeeper I for central control of engineering and maintenance supplies to eliminate the loss of materials and supplies and increase the efficiency of maintenance personnel by proper stocking of required items.
- 0.1 Pharmacist to provide relief for vacation and days off in order to keep the pharmacy in operation.
- 1 Dental laboratory technician to provide the dentures and other laboratory work for Norwalk and Pacific Colony in lieu of having the work taken outside the institution.
- 1 Locksmith to maintain the 3,200 padlocks, 1,700 door locks and approximately 500 sets of keys for the personnel and permit the other tradesmen to do the maintenance work for which they are employed.
- 1 Electrician is required to maintain the increasing amount of electrical equipment and make replacement or repair of old wiring in the secondary circuit.

**OPERATING EXPENSES:** The decrease of \$60,051 is due to the following factors:

New feeding costs are reduced \$58,033 below 1951-52 because of lower resident population, substitution of oleomargarine for butter for the full year as contrasted with six months in 1951-52, and reduction of feeding allotment for elimination of commissary sales to employees.

The augmented medical supply and drug per capita allowance accounts for a \$4,978 increase.

The augmented rehabilitation therapy supply allotment accounts for a \$4,380 increase.

Reduced population and price variations are primarily responsible for the changes in other items.

**EQUIPMENT:** The amount of \$126,246 includes \$58,710 for replacement which represents 6.7 percent of equipment investment and \$67,536 for additional equipment. The following are significant additional items of equipment: Equipment for new positions, \$4,959; laundry equipment, \$21,385; television sets, \$3,000.

**REIMBURSEMENTS:** A total of \$79,506 is estimated for 1952-53, a decrease of \$14,908 from 1951-52. This is primarily due to the sale of dairy cows in 1951-52 to reduce herd to the needs of the institution and is considered a nonrecurring item.

<sup>a</sup> Composed of savings in salaries and wages, \$49,172; operating expenses, \$2; equipment, \$2,250; and excess reimbursements, \$4,960.

<sup>b</sup> Composed of savings in salaries and wages, \$47,805; operating expenses, \$10,598, due entirely to the substitution of oleomargarine for butter effective January 1, 1952.

## Department of Mental Hygiene

## PATTON STATE HOSPITAL

A hospital for mental patients, located at Patton, San Bernardino County.

LINE	EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
1	<b>SUMMARY AND RECONCILIATION WITH APPROPRIATIONS</b>				
2	<b>General Fund</b>				
3	<b>SUPPORT</b>				
4	Budget Act appropriation	\$3,361,010	\$3,875,203	\$4,448,272	\$573,069
5	Allocations from Salary Increase Fund	101,474	294,781	-	-294,781
6	Allocations from Emergency Fund	211,655	9,326	-	-9,326
7	Allocations from Price Increase Fund	-	163,047	-	-163,047
8	Total Available	\$3,674,139	\$4,342,357	\$4,448,272	\$105,915
9	Unexpended balance, estimated savings	-79,082 <sup>a</sup>	-18,717 <sup>b</sup>	-	18,717
10	<b>TOTAL EXPENDITURES FOR SUPPORT</b>	<b>\$3,595,057</b>	<b>\$4,323,640</b>	<b>\$4,448,272</b>	<b>\$124,632</b> <b>(2.9%)</b>
11	<b>GENERAL ANALYSIS</b>				
12	Number of positions	868.4	959.1	1,004.2	45.1
13	<b>POPULATION AND UNIT COSTS</b>				
14	Average population	4,107	4,034	3,792	-242
15	Per capita costs	\$875	\$1,072	\$1,173	\$101 (9.4%)
16	Total expenditures for support in 1952-53 amount to \$4,448,272, an increase of \$124,632, or 2.9 percent over 1951-52. The decrease in average population in 1952-53 is 6 percent below 1951-52.				
17	<b>SALARIES AND WAGES:</b> The increase of \$188,504 is accounted for entirely by the 52.2 new positions. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. The 3.2 miscellaneous positions are individually explained below:				
18	1 Surgical nurse is required to staff the recently opened tubercular building which includes a complete surgery for the care of the tubercular patients. At present the institution has three surgical nurses to care for the services of the hospital.				
19	1 Dental laboratory technician is required to perform the laboratory work in lieu of using the time of the dentist or sending work out to private laboratories. This position will enable the dental staff to give first consideration to acute operative cases.				
20	1 Stationary engineer is necessary for the maintenance of the new 520-bed-capacity tubercular building. This unit is a completely furnished hospital with kitchens, surgery, hot water heating, water cooling, heating and ventilating system.				
21	0.2 Chiropodist to increase the service to full time for the 4,000 patient load. In addition to performing required surgery work, he prescribes and fits corrective shoes as well as caring for large numbers of bed patients who need attention to their feet and toenails.				
22	<b>OPERATING EXPENSES:</b> The decrease of \$56,168 is accounted for as follows:				
23	Net feeding costs are reduced \$64,642 below 1951-52 because of lower resident population, substitution of oleomargarine for butter for the full year as contrasted with six months in 1951-52, and reduction of feeding allotment for the elimination of commissary sales to employees. The medical supply and drug per capita increase accounts for \$9,480. The augmented rehabilitation therapy supply allotment accounts for \$7,858. Price changes and reduced population are primarily responsible for other differences.				
24	<b>EQUIPMENT:</b> The amount of \$132,280 includes \$75,656 for replacement which is 5.8 percent of equipment investment and \$56,624 for additional equipment. The following are significant additional items: Equipment for new positions \$7,175, dishwashing equipment \$6,000, ward furnishings \$6,000, cannery conveyor belt \$1,500, and six television sets \$1,500.				
25	<b>REIMBURSEMENTS:</b> A total of \$71,185 is estimated for 1952-53, a decrease of \$642, primarily due to elimination of commissary sales only partially offset by increased meal sales to employees.

14					
15	<b>TOTAL EXPENDITURES FOR SUPPORT</b> -----	<b>\$4,175,043</b>	<b>\$4,734,501</b>	<b>\$4,899,369</b>	<b>\$164,868</b>
16					<b>(3.5%)</b>

## GENERAL ANALYSIS

21	Number of positions -----	1,070.4	1,093.3	1,135.9	42.6
22					
23	<b>POPULATION AND UNIT COSTS</b>				
24	Average population -----	4,574	4,500	4,596	96
25	Per capita costs -----	\$913	\$1,052	\$1,066	\$14
26					(1.3%)
27	Total expenditures for support in 1952-53 amount to \$4,899,369 an increase of \$164,868 or 3.5 percent over 1951-52. The average population in 1952-53 is 2.1 percent over 1951-52.				
28					
29					
30	<b>SALARIES AND WAGES:</b> The increase of \$87,522 is accounted for as follows: 159 new positions at a cost of \$289,348. Complement positions affecting all hospitals are explained under "State Hospitals and Homes For Mentally Deficient", following the department summary, and the one miscellaneous position is explained below.				
31	1 Psychiatric Nursing Education Director to establish an affiliate nurses training program at the Stockton State Hospital. Comparable programs are established at other mental hospitals as a means of aiding the recruitment of nurses to state service by providing psychiatric training and getting nurses interested in psychiatric service.				
32	The termination of the pilot study on December 31, 1951 (at an approximate salary cost of \$130,429 for six months in 1951-52) accounts for the significant decrease in the cost of authorized positions in 1952-53.				
33	Increased salary savings in view of the number of new positions subject to recruitment accounts for the balance of change in salary costs.				
34					
35					
36					
37					
38					
39					
40					
41	<b>OPERATING EXPENSES:</b> The increase of \$39,448 is accounted for as follows: The net feeding cost for a larger population in 1952-53 is less than the 1951-52 cost as a result of substitution of oleomargarine for butter for six months in 1951-52 as contrasted to the full year in 1952-53. The increased drug and medical supply per capita allowance accounts for \$11,490 plus an allowance of \$2,500 for a syphilitic program. The augmented rehabilitation therapy supply allowance accounts for \$10,111. The light, heat and power requirements for the new Receiving and Treatment Building and price changes account for \$14,655. Other items of change are due primarily to price and population factors.				
42					
43					
44					
45					
46					
47					
48	<b>EQUIPMENT:</b> The amount of \$141,804 provides \$73,918 for replacement which is 5.5 percent of equipment investment and \$67,886 for additional equipment. The following are significant additional items: Equipment for new positions \$6,096, bread slicer and wrapper \$6,000, dishwashing equipment \$3,600, diathermy \$800, dental x-ray \$1,550, ten television sets \$2,500, farm tractor with attachments \$2,583, pasteurizer \$2,500, bull \$1,000.				
49					
50					
51					
52					
53	<b>REIMBURSEMENTS:</b> A total of \$129,806 is estimated for 1952-53, a decrease of \$13,548 attributable to sale of surplus dairy herd in 1951-52.				
54					
55

## GENERAL ANALYSIS

Number of positions	527.6	554.1	586.1	32
<b>POPULATION AND UNIT COSTS</b>				
Average population	2,012	2,000	2,000	-
Per capita cost	\$1,058	\$1,263	\$1,322	\$59 (4.7%)

Expenditures for support in 1952-53 amount to \$2,644,185, an increase of \$119,172 or 4.7 percent over 1951-52. The average population remains unchanged in 1952-53.

**SALARIES AND WAGES:** The increase of \$126,485 is accounted for entirely by the 41.6 new positions. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary, and the 6.6 miscellaneous positions are explained below.

1 Intermediate typist-clerk is required for the teaching staff and educational internes. The provision of a clerk for record keeping, filing, cutting stencils, requisitioning and caring for school supplies and books, will permit the teachers to devote their full time to teaching work.

1 Intermediate information clerk is necessary in the reception lobby of the administration building, to provide information to relatives visiting patients. The telephone operator on duty is unable to perform the reception and information work and cover the switchboard as indicated by a survey made by the telephone company.

1 Surgical nurse is required in addition to the one now authorized to perform surgical nursing procedures together with the emergency work which arises. In addition the surgical nurses required would perform service to the clinic, would care for the surgical supplies and assist the doctors in special physical examinations and minor surgeries.

1 Physical therapist I is required to provide continuous treatment to approximately 300 cerebral palsied patients. The authorized physical therapist position cannot perform this work as giving treatments for skin infections, muscular strains, bed sores, infected wounds, etc., requires its full time.

1 Elementary teacher is required to establish a special class for the physically handicapped children where there is no schooling for this type of patient at present.

1 Elementary teacher is required for remedial teaching of retarded children who have particular individual learning difficulties, either because of speech handicap or emotional disturbances manifested by other symptoms.

0.6 Chiroprapist is required to provide full-time services and permit special care and fitting of orthopedic shoes for patients with deformed feet.

**OPERATING EXPENSES:** The increase of \$5,442 is accounted for as follows:

Net feeding costs are decreased \$10,744, primarily attributable to substitution of oleomargarine for butter for the full year in 1952-53 as contrasted to six months in 1951-52. The increased medical supply and drug allowance accounts for \$10,700. The augmented rehabilitation therapy supply allotment accounts for \$4,400. Other items of change are due primarily to price factors.

**EQUIPMENT:** The amount of \$81,899 includes \$35,648 for replacement which is 5.6 percent of equipment investment and \$47,126 for additional equipment. The following are significant items of additional equipment: Equipment for new positions \$6,405; transcribing and dictating equipment \$1,400; food conveyors \$3,600; tractor with tools \$1,600; and evaporative coolers \$1,254.

**REIMBURSEMENTS:** A total of \$53,815 is estimated for 1952-53 which is primarily services to employees. No significant change is estimated from 1951-52.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53

## GENERAL ANALYSIS

Number of positions	816.8	897.7	934.7	37
<b>POPULATION AND UNIT COSTS</b>				
Average population	3,286	3,200	3,200	-
Per capita cost	\$995	\$1,210	\$1,259	\$49
				(4%)

Total expenditures for support in 1952-53 amount to \$4,029,542, an increase of \$159,105 or 4.1 percent over 1951-52. No increase in average population in 1952-53 over 1951-52 is anticipated.

**SALARIES AND WAGES:** The increase of \$140,211 is entirely attributable to the new positions. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for the Mentally Deficient" following the departmental summary, and the 3.4 miscellaneous positions are explained below:

- 1 Surgical nurse is required in addition to the one now authorized to perform all surgical nursing procedures together with the emergency work which arises. At present graduate nurses who do not have experience in surgery must be drafted.
- 1 Elementary teacher is required to provide speech correction work for approximately 150 patients attending school. An important item in the rehabilitation of a patient is understandable speech. In addition there are approximately 500 nonschool patients who would benefit greatly by speech correction which in many cases is the main factor preventing them from being successfully placed in the community.
- 0.4 Chiropodist to increase the service to full time for this hospital. Many patients have malformed feet that require prescribing and working with the shoemaker to have the proper type of shoe constructed. In addition the chiropodist performs many surgical operations in the care of patients' feet and diseases of the skin and bones. Additional time would permit the chiropodist to have a shoe fitting room set up to instruct the attendants and prevent many of the present foot problems and diseases.
- 1 Electrician to assist the present crew with the additional electrical facilities which have increased in the last two years by an estimated 40 percent.

**OPERATING EXPENSES:** The decrease of \$1,809 is accounted for as follows:

Net feeding costs are decreased \$40,668 which is attributable to the following factors: Substitution of oleomargarine for butter for six months in 1951-52 as contrasted to the full year in 1952-53; increased local production in the dairy to the full institutional requirements in 1952-53; and the full year elimination of commissary privileges for employees in 1952-53 as contrasted to six months in 1951-52.

The medical supply and drug per capita increase accounts for \$24,000.

The augmented rehabilitation therapy supply allotment accounts for \$7,040.

Dairy costs are increased \$3,150 for planned increase in herd to supply full institutional milk requirements. Price changes are primarily responsible for the other items.

**EQUIPMENT:** The amount of \$118,330 includes \$57,235 for replacement which is 5.5 percent of equipment investment and \$61,095 for additional equipment. The following are significant additional items of equipment: Equipment for new positions, \$5,433; truck, \$2,080; bus, \$10,555; dishwashing equipment, \$1,384; eye examining equipment, \$1,102; carpenter shop equipment, \$5,796; engine generator, \$2,879.

**REIMBURSEMENTS:** A total of \$54,226 is estimated for 1952-53, a decrease of \$2,454 primarily due to elimination of commissary sales only partially offset by increased meal sales to employees.

<sup>a</sup> Composed of savings in salaries and wages, \$249,308; operating expenses, \$3; equipment, \$7,200; and excess reimbursements, \$2,286.

<sup>b</sup> Composed of savings in salaries and wages, \$130,502; operating expenses, \$14,272, due entirely to the substitution of oleomargarine for butter effective January 1, 1952.

58					
59	Provision is made for major California National Guard units in federal service to be returned to state service by 1952-53. Provision				
60	is also made for operation of the California National Guard Reserve on a full strength basis until guard units are returned to their				
61	original locations, after which the Reserve will be continued in that locality on a cadre basis. Provision for operation of both the				
62	National Guard and the National Guard Reserve is considered necessary due to the uncertainty brought about by the war emer-				
63	gency.				
64	The California Cadet Corps is continued on the basis of training approximately 6,600 cadets in approximately 114 schools.				
65					
66	<sup>a</sup> Composed of savings in salaries and wages, \$179,388; operating expenses, \$316,751; equipment, \$83,285; and excess reimbursements,				
67	\$4,455.				
68	<sup>b</sup> Composed of savings in salaries and wages, \$441,916; operating expenses, \$386,380; equipment, \$1,838; and loss in reimbursements,				
69	\$63,938.				
70	<sup>c</sup> Composed of savings in salaries and wages, \$5,114; operating expenses, \$33,720; equipment, \$3,399.				
71	<sup>d</sup> Composed of savings in salaries and wages, \$477; operating expenses, \$4,406.

23	Totals, Adjutant General's Office -----				\$28,377	\$30,627	\$33,472
24	HEADQUARTERS STAFF						
25	Analysis						
26	This function provides for the following sections: Executive, comptroller, personnel, supply, and operations and training. These sections						
27	administer the affairs of the National Guard, National Guard Reserve, and provide services for the Cadet Corps.						
28	An amount of \$10,000 is proposed as temporary help in the supply section at Camp San Luis Obispo to handle property upon the return						
29	of units, in lieu of previously authorized positions dropped when units went into federal service; \$8,000 is estimated for disability						
30	benefits under Chapter 408, Statutes of 1951, for personnel on active duty with the Office of the Adjutant General.						
31	One additional position of recruiting sergeant is proposed to assist in encouraging men to enlist in the National Guard and National						
32	Guard Reserve.						
33	One first lieutenant is proposed on a full-time basis to supervise the administrative activities of the National Guard Officer Candidate						
34	School in lieu of a part-time captain due to the increased emphasis on this school.						
35	SALARIES AND WAGES						
36	Executive:				SALARY RANGE

## OFFICE OF THE ADJUTANT GENERAL—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
		50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			
1	MAINTENANCE AND OPERATION OF INSTALLATIONS						
2							
3							
4	Analysis						
5							
6	This function provides for the maintenance and operation of state-owned and leased armories, air and ground installations licensed from						
7	the Federal Government, and the State's interest in Camp San Luis Obispo. Increases for the return of units from federal service are						
8	reflected by four authorized armory custodian I positions to be filled in 1952-53; and by increases in operating expenses for armory						
9	rentals, utilities, and maintenance expense. An additional janitor is proposed for Van Nuys, January 1, 1953, for additional facilities						
10	constructed with federal funds.						
11							
12	SALARIES AND WAGES						
13	Headquarters:

51	FIELD ORGANIZATION—NATIONAL GUARD						
52							
53	Analysis						
54							
55	This function is concerned with the expenses related to the field units of the California National Guard which are						
56	Federal Government. It includes administrative help for headquarters units, expenses for recruiting, medica-						
57	cers' uniforms, officer candidate schools, and week-end field exercises. Authorized positions for ground force						
58	units are increased due to the return of units from federal service; members of National Guard on active duty						
59	level existing prior to induction of units; and the officer candidate school is continued as the need for filling						
60	the National Guard continues. Operating expenses and equipment are increased in anticipation of the return						
61	service. The increased need for recruiting and medical examinations is due to the expiration of the enlistment						
62	the returning units.						
63

1	<b>CALIFORNIA NATIONAL GUARD RESERVE</b>						
2							
3							
4	<b>Analysis</b>						
5							
6	The California National Guard Reserve is organized under authority of Military and Veterans Code Section 550 which provides as follows: "Whenever any part of the National Guard of this State is in active federal service, or when Congress so consents thereto the Governor is authorized to organize and maintain within this State during such period, under such regulations as the Secretary of Defense of the United States may prescribe for discipline in training, such military forces as the Governor may deem necessary to defend and for the security of this State."						
7							
8	It is proposed that during the time that National Guard units are in federal service, where a reserve unit replaces a National Guard unit, the reserve unit may be organized at full strength. Where a reserve unit is in the same location as an existing National Guard unit the reserve unit will be organized as a cadre. A reduction in active duty pay for training schools results from reducing the schooling period from 10 to 8 days.						
9							
10	During 1951-52 it is proposed that uniforms be purchased to assist in recruiting, developing morale, and welding the California National Guard Reserve into a cohesive force. It was assumed that uniforms would be supplied by the Federal Government, but none are available to date. It is therefore proposed to purchase the major portion of the initial complement of uniforms during 1951-52 if the amounts proposed for 1952-53 are approved.

## CALIFORNIA CADET CORPS

## Analysis

The California Cadet Corps provides a military training program for schools of high school and junior college level in this State. The corps provides a program for those schools, not in the R.O.T.C. program, which believe military training as a school function is essential to male students in preparation for the responsibilities of citizenship. Periodical inspections of each school are made by supervisors from the Adjutant General's office. Equipment, including uniforms and rifles, for maintaining the corps is furnished by the State, and a field training encampment is provided each year.

One new supervisor of military cadet instruction is proposed on a basis of an increase in the number of schools participating in the program. It is proposed that the position be established when the number of schools participating increases from the 1951-52 estimated level of 105 to 114 schools.

## DEPARTMENT OF MOTOR VEHICLES

registers motor vehicles and maintains registration records, licenses operators of motor vehicles, enforces the provisions of the financial responsibility law relating to vehicle accidents and collects the "in lieu" tax on motor vehicles.  
 Motor Vehicle Fund finances the major portion of the activities of the department.  
 Motor Vehicle License Fee Fund finances in part those activities connected with the collection of the "in lieu" tax.

## GENERAL ANALYSIS

Number of positions -----	2,305.5	2,456.7	2,549.7	93
---------------------------	---------	---------	---------	----

The proposed budget of the department provides for no basic program change. Additional positions are recommended in the Division of Administration and the line divisions to meet anticipated increased work load. Other increases are two additional auditors to permit the more frequent auditing of field offices which recent experience indicates is necessary; costs of operating the new building in Sacramento; and continuation of work necessary to carry out the provisions of Chapter 1669, Statutes of 1951, relative to review of driver's records prior to issuance of driver's license.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
	50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			

## DIVISION OF ADMINISTRATION

## Analysis

This function includes the office of the director, the general administration, fiscal and personnel sections, and procedures and analyses. Two additional junior accountant-auditor positions are recommended to provide for semiannual audits of each of the field offices. The two existing auditors are able to audit on an annual basis only; experience has indicated that this audit should be made at least semiannually.

All other positions proposed are to take care of increased work load brought about by increased fiscal and personnel functions related to the work load increases of the operating divisions.

<sup>a</sup> Composed of savings in salaries and wages, \$360,490; operating expenses, \$240,847; equipment, \$4,791, and excess reimbursements, \$4,083.

<sup>b</sup> Composed of savings in salaries and wages, \$247,364; operating expenses, \$968.

1	DIVISION OF REGISTRATION							
2								
3								
4	Analysis							
5								
6	This function provides for the registration of all motor vehicles and for the processing of all transactions related to such registration							
7	Increases are due to provision for an increased work load brought about by estimated additional automobile registrations and							
8	related transactions.							
9	Eighteen new positions are included for the mechanical processing section, the cost of such positions being offset by reductions in tempo							
10	rary help, overtime, and contractual key punching services.							
11	Amounts budgeted for operating expenses are based upon the estimated volume of registrations and assumed price levels. These increase							
12	are more than offset by a reduction in license plates and tabs.							
13								
14	Comparative Work Load							
15					ACTUAL	ESTIMATED	ESTIMATED	CHANGE FROM

		50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			
1	DIVISION OF DRIVERS' LICENSES						
2	Analysis						
3							
4	This function contains provisions for licensing of drivers including: testing of applicants, issuance of licenses, and suspensions and						
5	revocations of licenses under the drivers' improvement program.						
6	Provision has been made for 17 additional positions, plus temporary help, to handle increased work load in headquarters office, brought						
7	about by changes in the vehicle code which provide for the purging of obsolete records, and the verification before issuance of						
8	drivers' licenses to check the records of the applicants for convictions of traffic violations, traffic accidents, and notices for failure						
9	to appear in court.						
10	Six additional positions are provided to strengthen the driver improvement program where the number of cases is in excess of the ca-						
11	pacity of the staff.						
12	Four addition positions have been provided to handle information requests received from law enforcement agencies and other govern-						
13	mental jurisdictions.						
14

## DIVISION OF FIELD OFFICE OPERATIONS

## Analysis

Includes the operation of branch offices and performs the following services: Registers motor vehicles, issues drivers' licenses, and furnishes information regarding the financial responsibility law.

Increases in this function are due primarily to the following:

1. Provision for an additional 30.5 positions for existing branch offices to meet anticipated increased work load in 13 locations as follows: Bakersfield, Compton, Culver City, Glendale, Hollywood, Indio, Long Beach, Paso Robles, San Fernando City, San Diego, Ukiah, and Los Angeles.
2. Operating expenses and equipment related to the above additional positions.

43	FINANCIAL RESPONSIBILITY						
44							
45	Analysis						
46							
47	This function contains provision for administration of the Financial Responsibility Law regarding motor vehicle accidents. The work						
48	load, based on reports handled, shows an increase of 12 percent over 1950-51. Because of an increased efficiency, to be derived from						
49	the installation of new filing equipment, only seven additional positions are required to handle this increased work load.						
50

38	Analysis						
39	Includes the maintenance, operation and repair of all office buildings either owned or leased by the Department of Motor Vehicles. The						
40	increases in this function are due to the following:						
41	1. Provision for necessary building maintenance at new Sacramento office, and moving expense.						
42	2. Interest on building funds.						
43	3. Physical separation of the Department of Motor Vehicles and the California Highway Patrol at Fresno, Hollywood, Santa						
44	Cruz, and Ukiah.

## GENERAL ANALYSIS

Number of positions ----- 682 728.6 729.6 1

The 1952-53 Fiscal Year Budget generally continues the existing operating level of the department based on the present bureau organization.

The Department of Fish and Game under the administration of a director was established by Chapter 715, Statutes of 1951. To assist the director with the organization and administration of the department additional administrative and clerical positions were established during the 1951-52 Fiscal Year. These positions are continued for the 1952-53 Fiscal Year.

As provided by Chapter 195, Statutes of 1951 (Senate Concurrent Resolution No. 84), it is contemplated that a plan for reorganization of the department on a regional basis will be presented to the Legislature at the 1952 Session. Any changes in 1952-53 Fiscal Year expenditure program due to this contemplated plan of reorganization will also be presented.

## ADMINISTRATION

## Analysis

The function of administration provides for the Fish and Game Commissioners, the Office of the Director and his staff, general office services, and the engineering staff. In order to provide the director with required assistance for administering the new department (created by Chapter 715, Statutes of 1951), additional positions were authorized during 1951-52 as follows: deputy director, administrative officer, training and public education officer, and related stenographic positions.

No further expansion of services is provided for in the 1952-53 Fiscal Year.

30	PATROL AND LAW ENFORCEMENT						
31							
32	Analysis						
33							
34	Enforcement of the hunting and fishing provisions of the Fish and Game Code is the responsibility of this function.						
35	The 1951-52 level of expenditures is continued with increases to provide for operation of two additional patrol boats and installation and						
36	maintenance of additional radio equipment.						
37	Major items of equipment include two 28-foot boats to patrol the Rio Vista and Santa Monica areas now closed to commercial fishing,						
38	radar for the new patrol boat Pompano, a spare airplane engine, three jeeps for patrolling the Sacramento and Fresno areas; and						
39	replacement of 51 automobiles for land patrolling, two 28-foot patrol boats, two depth recorders and two 400-horsepower diesel marine						
40	engines for marine patrolling.

48	MARINE FISHERIES						
50	Analysis						
52	This function regulates the commercial fishing and fish packing industry, prepares and publishes statistics on the commercial fish catch,						
53	operates research vessels, and makes research studies of marine life.						
54	Operations of this function are continued at the 1951-52 level with increases of \$20,000 for reprinting a three-year supply of a popular						
55	1948 publication "Common Marine Fishes," and \$10,000 for the repair and modernization of fish screens and ladders which was						
56	formerly budgeted as Capital Outlay.						
57	Additional equipment provided includes three automobiles for use on fisheries management projects reimbursed on a mileage basis						
58	from federal funds, an automatic pilot for the research vessel "Broadbill," and operating equipment for more efficient boat opera-						
59	tion and fish screen and ladder work.

1	<b>FISH CONSERVATION</b>						
2							
3							
4	<b>Analysis</b>						
5							
6	The management and propagation of fresh water fish, by the operation of hatcheries, fish planting programs, fish rescue and stream im-						
7	provement work and biological research, is the function of this bureau.						
8	In general, the operating level of the current year is projected into the 1952-53 Fiscal Year.						
9	Eighteen fish hatchery assistant positions established for the staffing of proposed new hatcheries in the 1951-52 Fiscal Year will not be						
10	required during the 1952-53 Fiscal Year due to the delay in the construction of hatcheries.						
11	Pollution studies reimbursed by the State Water Pollution Control Board are projected at \$24,541 as compared to \$33,071 for the cur-						
12	rent fiscal year.						
13

## Department of Fish and Game

## MARINE RESEARCH COMMITTEE

Research in the development of commercial fisheries of the Pacific Ocean and of marine products susceptible to being made available to the people of California, as authorized by Chapter 1276, Statutes of 1947. (Payable from additional privilege tax of 50 cents per ton on sardines to be levied until December 31, 1955, as authorized by Chapter 1108, Statutes of 1951.)

## GENERAL ANALYSIS

Number of positions ----- 4 - - -

The Marine Research Committee is composed of nine members of which at least five are members experienced in and actively engaged in the canning or reduction of California sardines.

The proposed budget for the 1952-53 Fiscal Year represents a reduction as compared to the current and prior fiscal years thereby reflecting an expenditure program related to estimated revenues. The revenue based upon a tonnage tax on sardines is reduced due to a reduction in the estimated sardine catch.

## WILDLIFE CONSERVATION BOARD

The Wildlife Conservation Board created by Chapter 1325, Statutes of 1947, is charged with administration of the Wildlife Restoration Fund in accordance with the Wildlife Conservation Act for the betterment of wild life and recreation in the State. The board is composed of the Director of Finance, the President of the Fish and Game Commission, and the Director of the Department of Fish and Game. In addition to the board, the act created a Joint Interim Investigating Advisory Committee consisting of three Members of the Senate, appointed by the Committee on Rules, and three Members of the Assembly appointed by the Speaker.

## Department of Natural Resources

## DEPARTMENTAL ADMINISTRATION

The Department of Natural Resources administers the conservation laws of the State and those relating to the development of its natural resources. Departmental administration provides for the office of the director, the accounting section, the property section, and the personnel section which serve all divisions of the department and coordinates the conservation education program.

46	<b>GENERAL ANALYSIS</b>				
47					
48	<b>Support</b>				
49					
50	Number of positions	91.9	94.6	80.3	—14.3
51					
52	Departmental administration activities are continued to provide the same level of service except for the Department of Fish and Game a				
53	currently budgeted plus \$3,600 for printing a conservation handbook.				
54	Effective July 1, 1952, personnel and accounting services are no longer to be performed for the Department of Fish and Game. Reduction				
55	of \$41,772 (14.9 positions) in salaries and wages and \$3,917 in operating expenses are reflected for positions to be transferred to th				
56	Department of Fish and Game. Reductions in expenditures equal to the pro rata administrative charges received in the current an				
57	prior years from the Department of Fish and Game cannot be made because of the inseparable services performed by department				
58	administrative and supervisory positions and other department-wide services. Therefore, the 1952-53 Fiscal Year administrativ				
59	charges reflects a redistribution between Special and General Fund divisions in proportion to the services provided to each division

## GENERAL ANALYSIS

Number of positions----- 362.2 369.2 378.6 9.4

In general, activities of the division are continued at the 1951-52 level with increases to provide for expert assistance in connection with restoration of historical sites and maintenance and operation of newly developed beach and park areas and existing areas where increased attendance requires additional personnel.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
	50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			

**ADMINISTRATION**

**Analysis**

Provision is made for expenses of the State Park Commission and administrative offices for business management and conservation education.

One additional position of historian with clerical assistance is proposed for planning, research, and interpretative work in connection with historical monuments and museums. The continuing acquisition, restoration, and interpretative work involved with the various historical sites and material makes it desirable that expert assistance be available.

An increase in temporary help is proposed for a six-month period to relieve an existing need for clerical assistance which should be alleviated when the division secures office space (estimated 1-1-53) closer to the Department of Natural Resources.

63	MAINTENANCE						
64							
65	Analysis						
66							
67	Provision is made in this function for maintenance and operation of beaches, parks, historical monuments, and riding and hiking trails in the State Park System.						
68	Additional positions with related operating expenses and equipment are proposed for the maintenance and operation of newly acquired or developed areas and for existing areas where increased attendance and public demand has made it necessary that additional manpower be made available. Position assignments are as follows:						
69	Highway equipment operator—laborer, one each, District III and District IV.						
70	Intermediate stenographer-clerk, Columbia Historic State Park.						
71	Senior engineering aid, District III.						
72	State park ranger I, one each, Huntington Beach State Park, Silver Strand Beach State Park, Will Rogers State Park, and San Diego County riding and hiking trails.						
73	State park ranger I (seasonal) at the following locations: Humboldt Redwoods State Park (3 man-months), Mac-						
74	Kerricker State Park (3 man-months), Portola State Park (3 man-months), Morro Bay State Park (6 man-months),						
75	and Palomar State Park (3 man-months).						
76	Beach lifeguards (seasonal) at the following locations: Carpinteria Beach State Park (8 man-months), Doheny Beach						
77	State Park (12 man-months), and San Clemente Beach State Park (12 man-months).						
78	Assistant beach lifeguard supervisor (seasonal), Huntington Beach State Park (4 man-months).						
79	An increase is proposed in the allowance for repairs and maintenance of structures and facilities to reflect price increases and for the						
80	units acquired from capital outlay constructions. The amount proposed for maintenance of roads and parking areas results from						
81	estimates provided by the Division of Highways.

17	ENGINEERING AND PLANNING						
18	Analysis						
19	This function surveys sites; prepares plans for construction projects, not exceeding \$20,000 in cost, for the development and maintenance of beaches, parks, historical monuments, and riding and hiking trails; inspects construction; surveys property boundaries; prepares landscaping studies; and provides engineering surveys for projects to be constructed by the Department of Public Works.						
20	Activities are continued at the existing level to provide engineering services at an estimated construction level of the prior and current years. Emphasis on boundary surveys in high value areas is recommended for continuation. Furtherance of the riding and hiking trails program is also projected which will require engineering assistance.

## Department of Natural Resources

## DIVISION OF FORESTRY

The Division of Forestry is responsible for the prevention and suppression of forest fires occurring on all state and private lands having state-wide interest values; for furnishing fire protection on a reimbursable basis to counties on request for local rural areas; for administration and enforcement of forest practice rules; for forestry advisory services; for range improvement programs; for production of nursery stock for public plantings, windbreak, soil erosion control, and reforestation purposes; for management of state forests; for control of white pine blister rust and forest insect infestations in cooperation with federal and private agencies; and for cooperation with the Federal Government on forest surveys.

## GENERAL ANALYSIS

## Number of Positions:

21	Regular-----	452.9	473	481	8
22	Seasonal—equivalent man-years-----	1,352.6	1,383.7	1,393.6	9.9
23	Totals-----	1,805.5	1,856.7	1,874.6	17.9

The 1951-52 Fiscal Year level of service is in general continued for the 1952-53 Fiscal Year except for the following:

District Headquarters: One additional mechanic at District III Headquarters and full-time engineering assistance on all six district staffs.

Field Services: Additional fire fighting personnel are provided in certain areas of increased population and lumbering activity where fire hazards have increased.

Forestry Work Camps: Additional personnel are proposed for more adequate supervision of inmate work crews.

Forest Management: Additional technical assistance is provided for an increased work load under the amended Forest Practices Act.

Other Current Expenses: Increased payments are proposed to counties and the U. S. Forest Service for protecting lands of state responsibility.

## ADMINISTRATION

## Analysis

The function of administration includes the Office of the State Forester, business management, fire control, engineering section, and the operation of the Davis warehouse and equipment repair shop.

Services provided by administration are continued at the 1951-52 level. Operating expense increases provide for price increases and radio maintenance service for additional radio equipment acquired during the current year. Major items of equipment are the replacement of two automobiles and for laundry equipment to wash blankets at the Davis warehouse and shop.

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
		50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			
1	FOREST PROTECTION						
2	FIELD OPERATIONS—DISTRICT HEADQUARTERS						
3	Analysis						
4	The Division of Forestry is divided into six administrative districts with activities in each district coordinated through district head-						
5	quarters. Personnel assigned full time to maintenance of Division of Forestry installations, also, operate on a district-wide basis						
6	from these headquarters.						
7	One additional heavy equipment mechanic is proposed to staff the district shop at Redding where facilities are available. The establish-						
8	ment of limited repair shops has reflected in more than a proportionate savings in vehicle repair costs.						
9	Six assistant civil engineer positions presently charged one-half to support and one-half to construction projects are proposed to be						
10	charged full time to support. The construction program of approximately five and one-half million dollars since 1946 has resulted in						
11	a greatly increased maintenance load and these positions have become an integral part of each district staff. This and the increasing						
12	importance of boundary location and rights of way has created a demand for technical engineering assistance.						
13	Major equipment items include replacement of radios and automobiles and the purchase of additional radios in accordance with the radio						
14	communications plan of the division.

24	FIELD OPERATIONS—FIELD SERVICES							
25	Analysis							
26	This function provides for the operation of fire suppression camps and forest fire lookout stations.							
27	Increases in this function result from the following:							
28	One forest fire fighter foreman to patrol the Hopland-Boonville area where growing population and lumbering activities have brought about an increasing fire hazard;							
29	One forest fire fighter foreman to supervise a four-man crew at Flynn Springs, San Diego County, to provide a fast initial attack. The fire fighters are to be transferred from La Mesa Fire Control Station which is 45 minutes travel time from this area;							
30	One seasonal forest fire lookout at Pilot Peak in the Folsom Dam area where construction activities and increased population have created an added fire hazard;							
31	Forest fire fighter foremen for the winter period have been reduced by 85 man-months as an offset to those added to the Forestry Work Camp function to provide supervision of inmate work crews.							
32	Operating expenses have been increased to provide air patrol for District V areas in lieu of forest fire lookout personnel at Mike's Peak. In areas such as this air patrol has proved to be very effective.							
33	Equipment items consist principally of replacement crew trucks, pickup pumper trucks, tractors, fire suppression and field items, and additional automotive and radio equipment to provide each district with the necessary complement.							
34	Also included are two additional transport trucks for the deployment of bulldozer tractors.							
35	SALARIES AND WAGES							
36	Regular Field Services:

16	FIELD OPERATIONS—FORESTRY WORK CAMPS						
17	Analysis						
18	Forestry Work Camps for forest protection and fire suppression work are provided for 285 inmates of the Youth Authority and 475 inmates from the Department of Corrections. Four permanent camps and six "spike" or temporary camps are provided for Youth Authority inmates; and eight permanent camps are provided for Department of Corrections inmates. In addition one permanent camp is planned for the Department of Corrections to be opened for 60 inmates on April 1, 1953.						
19	One additional forestry work project supervisor is proposed for the new Correctional Work Camp for supervision during the construction period. Work project foreman will be added when the camp is completed.						
20	To provide adequate supervision of inmate work crews additional foremen positions are proposed increasing the foremen from three to four in each permanent camp. During the winter period a proportionate number of foremen have been deleted from the Field Services function. Provision has also been made for the reclassification of all truck drivers to foremen as their duties are actually comparable to foreman in the supervision of inmates. In addition, to more adequately compensate for the responsibilities and duties of foremen in the work camps as compared to those in the Field Services function, a two salary step bonus is recommended.

40	<b>FOREST MANAGEMENT</b>						
41	<b>Analysis</b>						
42							
43	Forest management includes administration of the Forest Practices Act to promote sustained productivity of forest lands, consultation						
44	service on farm forestry, and management of state forests.						
45	In order to more effectively enforce the provisions of the Forest Practices Act (Chapter 85, Statutes of 1945, as amended by Chapter 720,						
46	Statutes of 1951), five additional forest technicians and one intermediate typist-clerk are proposed. The recent amendments to the						
47	Forest Practices Act and increasing timber operations in California have continued to increase the work load of inspection and						
48	enforcement.						
49	Reclassification of five forest technicians to senior forest technicians is proposed to provide supervision and coordination for the tech-						
50	nical activities of this function.						
51	Increased seasonal help for cruising, marking, scaling, and supervision of logging operations in state forests is also provided. Timber sales						
52	from state forests are estimated to increase during 1952-53.						
53

43							
44	This function provides for range improvement programs in cooperation with private landowners; for experimentation and studies in						
45	reseeding, erosion control, and related problems; and for special standby brush burning fire protection.						
46	Activities of this function are continued at the 1951-52 level of service including the additional standby brush burning fire protection						
47	crews authorized by Chapter 1503, Statutes of 1951.

20	STATE NURSERY						
21	Analysis						
22	This function provides for operation of a nursery located near Davis producing nursery stock for public plantings, windbreak, soil control, and reforestation purposes. Branch nurseries are also maintained on a limited scale at Forestry Work Camps.						
23	Nursery operations are continued at the 1951-52 level of expenditures. Under terms of the Federal Clark-McNary Act production of trees for reforestation purposes is eligible for partial federal reimbursement. Revenue from this source is estimated at \$5,428 during 1951-52 and \$9,500 during 1952-53.

## Department of Natural Resources

## DIVISION OF MINES

The Division of Mines encourages and makes special studies of the mineral industry and mineral resources of the State; publishes results of these studies for sale to the general public and distribution to the libraries; collects and displays typical geological and mineralogical specimens; maintains a library; and serves as a bureau of information to the mineral industries of the State.

31	SALARIES AND WAGES: One additional position of delineator is requested to prepare additional maps. Basic information is avail-				
32	able; however, additional assistance is required to place this information on maps for the use of field personnel and the industry.				
33					
34	OPERATING EXPENSES: The increase of \$14,248 reflects in addition to price increases primarily, \$2,168 for travel of field men who				
35	have been confined to the office during training, \$3,200 for printing of an accumulated backlog of bulletins and maps, and \$2,400 for				
36	laboratory analysis of materials required for the state-wide commodity studies.				
37					
38	EQUIPMENT: The \$7,889 recommended reflects a decrease of \$3,673 from 1951-52. Principal items of equipment include bookcases				
39	and files for technical reports and publications, laboratory equipment, and the replacement of one automobile.				
40					
41

## Department of Natural Resources

## DIVISION OF OIL AND GAS

The Division of Oil and Gas supervises the method of drilling and maintenance of oil wells to prevent waste and damage to the oil and gas deposits and to protect the surface and subsurface fresh water resources from contamination. The division is charged with enforcement of the law to prevent unreasonable waste of natural gas. The division is supported by an annual assessment against oil and gas producers. This assessment is made at a uniform rate for each barrel of oil produced and for each 10,000 cubic feet of gas produced and sold.

12	<b>GENERAL ANALYSIS</b>				
13	Number of positions	5	5	5	-
14	The activities of this agency are proposed to be continued at the same level of service. Increase in proposed expenditures is attributable to an increase in work load, to the proposed publication of the commission's biennial report, and to the addition of two new commissioners which increases traveling and related expenditures.

## Department of Professional and Vocational Standards

## DEPARTMENTAL ADMINISTRATION

forms all accounting, personnel, and fiscal work for the 29 boards and commissions under the Department of Professional and Vocational Standards. Acts as a liaison with all other governmental agencies, prepares the budgets and exercises budgetary control over all units within the department, and manages the Business and Professions Building and Annex.

## GENERAL ANALYSIS

Number of positions 20.3 20.8 20.8

The budget provides for a continuation of the service heretofore rendered with provision for the inclusion of the Board of Examiners of Shorthand Reporters and the Board of Vocational Nurse Examiners which were added by the 1951 Session of the Legislature. No adjustment has been made in the surplus account which is somewhat in excess of normal as funds have been left in this account for the purchase of equipment items for the centralization of the licensing and cashing functions of the various boards. When final determination as to the proper types of equipment, etc., is arrived at, the fund balance will adjust itself to a normal basis.

Cases heard --- 201	217	364	434	585	865	1,000	1,200	

The case load of this agency has shown a progressive yearly increase since its inception in 1945. The work load has increased to the point where it is necessary to add three more positions to the staff; namely, an additional hearing officer I, a hearing reporter, and an additional intermediate stenographer-clerk. Increases in the category of salaries and wages have been offset somewhat by reductions in intermittent hearing reporters and temporary help. Reimbursements for the 1952-53 Fiscal Year are estimated at 75 percent of the prorated share of Administration costs plus 75 percent of Hearing costs. Significant increases are as follows:

**SALARIES AND WAGES:** Net increase of \$11,123 due to the inclusion of three proposed new positions noted above which have been offset by reductions of \$4,500 in intermittent hearing reporter services and \$990 in temporary help.

**OPERATING EXPENSES:** Increase \$3,655. Items showing significant increases are printing, \$220, for the cost of the biennial report during 1952-53; rent, \$807, due to increase in rent charges; and pro rata departmental administration charges, \$1,413. All other items are in line with estimated 1951-52 expenditures with added provision for price increases.

**EQUIPMENT:** The total request of \$3,428 is made up as follows:

**ADMINISTRATION:** \$100 for small miscellaneous items, \$75 for additional book shelves, \$99 for a metal table, \$38 for a side chair, and \$240 for two 4-drawer legal files for expansion purposes. A total of \$1,070 is requested for the purchase of additional books for the law library and the replacement of obsolete issues, desks and chairs and typewriters for the proposed new positions amounting to \$1,489; and \$109 for a postal scale.

**CODIFICATION:** A total of \$208 is made up of \$108 for a 4-drawer legal file for expansion, \$50 for a code cabinet and file rack, and \$50 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions 8.6 9.7 10.6 0.9

The budget proposes an additional position of assistant secretary. The need for this position has been developing over the years and it is now incumbent upon the board to embark upon a program of evaluating the acceptability of the educational curricula of universities and colleges. The situation will become acute at the end of 1952 as the educational waivers for nonveterans provided for in Section 5093 of the Accountancy Act expire December 31, 1952, and waivers for veterans expire six months from the time of their discharge. There has been an increase in the number of complaints involving gross negligence requiring the professional audit services of the secretary. The new position will be used in carrying on the office supervision during the absence of the secretary on these investigations, also in gathering the statistical data necessary to enable the board to evaluate the educational curricula of the colleges and universities. The over-all increase in expenditures over those estimated for 1951-52 amounts to \$7,141, made up as follows:

**SALARIES AND WAGES:** Increase \$4,314 of which \$4,296 is for the proposed new position of the assistant secretary.

**OPERATING EXPENSES:** Increase \$2,607 caused mainly by an increase in the quantity and cost of printing and mailing the annual directory.

**EQUIPMENT:** The total of \$518 requested consists of \$278 for a desk, chair, and table for the new position of assistant secretary; \$40 for a small card file; and \$200 for miscellaneous items.

## GENERAL ANALYSIS

*Number of positions* ----- 3.6 4 4

The budget request of this agency for the 1952-53 fiscal year reflects a continuation of the same program as currently authorized. Only minor increases are requested for the budget year which occur in the categories of expenditures as follows:

**SALARIES AND WAGES:** Increase \$1,092. This increase is due primarily to an increase in moneys for commissioners in examination, due to an estimated increase in the number of persons expected to take the written examination.

**OPERATING EXPENSES:** A decrease of \$1,258, primarily due to the elimination of printing of the biennial directory and postage for mailing same. All other items are in line with 1951-52 expenditures.

**EQUIPMENT:** An increase of \$1,025. To replace automobile, which is estimated will have over 100,000 miles by June 30, 1953, and \$100 for small miscellaneous items.

Legislation increasing fees enacted by the 1951 legislature has balanced the budget and allows a substantial increase in surplus to accrue.

## GENERAL ANALYSIS

Number of positions 12 11.3 11.3 —

The work load of the State Athletic Commission is governed almost entirely by the number of boxing and wrestling shows held during the year in California. There were 2,312 shows in 1949-50, 1,876 in 1950-51, and it is estimated there will be 2,000 to 2,100 shows during the current and budget fiscal years. As work load is governed by the number of shows, the budget for the current and 1952-53 Fiscal Years has been predicated upon the anticipated increase in work load. Estimated expenditures for 1952-53 show an increase of \$538 over 1951-52, made up as follows:

**SALARIES AND WAGES:** Reduction of \$645, primarily due to elimination of a temporary increase in the salary of the secretary which expires on June 30, 1952.

**OPERATING EXPENSES:** Increase of \$1,467 due primarily to increased cost of printing and other minor price increases.

**EQUIPMENT:** The total of \$450 requested consists of two files for the San Francisco office, a utility storage cabinet for the Los Angeles office, and \$100 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions..... 15.5 15.1 15.1

The budget reflects an increased work load, especially in the number of persons to be examined. There will be a large increase in the number of apprentice examinations and certificates issued during 1951-52 due to large numbers enrolled in barber schools during the current year. This is expected to taper off in 1952-53 and be offset by an increase in journeymen examinations. In general, the same expenditure program is contemplated as currently authorized with allowances having been made for price increases. The budget as presented indicates that expenditures are expected to exceed revenues by approximately \$7,000 both for the current and budget fiscal years. The board will have a surplus of \$53,010 as of June 30, 1953; therefore, it is not urgent that fees be increased immediately. If current inflationary trends continue, it will be necessary in the future to increase some fees to once again present a balanced budget. The over-all increase over estimated 1951-52 expenditures amounts to \$733.

## Analysis

**SALARIES AND WAGES:** Increase \$918 due to an increase of \$450 in board member per diems by action of the 1951 Session of the Legislature and normal increases.

**OPERATING EXPENSES:** Increase \$505. Items showing significant changes are \$441 for increased pro rata administration charges, \$300 for additional examination expense due to work load, and \$500 for travel expenses due to illness of some of the employees during the current fiscal year. The item of printing shows a decrease as well as postage because of the inclusion in the current budget of funds to print revised laws, rules, and regulations made necessary by action of the 1951 Session of the Legislature. The item of hearing services—Division of Administrative Procedure—shows a decrease of \$500 due to the inclusion of sufficient moneys during the current fiscal year to handle the backlog of cases which are pending. All other items are in line with actual 1950-51 expenditures to which provisions have been made for increased prices.

**EQUIPMENT:** The sum of \$242 requested comprises \$142 for a five-drawer document file for expansion purposes, and \$100 for small miscellaneous items of equipment.

## GENERAL ANALYSIS

Number of positions..... 1.9                      2                      2

The year 1950-51 represented the first full year of operation of this new agency created by the 1949 Legislature. It is still a little early to judge the full import of the work load of the board. Substantial changes were made in the 1951 Session of the Legislature which increased broker requirements, increased fees, and enabled the board to charge an audit fee. It is the latter feature of the legislation which has increased expenditures for 1952-53, \$4,000 over the current year; however, this has been offset by a \$4,000 increase in revenues. A balanced budget is presented showing a gradual increase in surplus.

SALARIES AND WAGES: Increase \$428 due entirely to normal increase.

OPERATING EXPENSES: Increase \$4,739 of which \$4,000 is due to an increase in auditing services. The remainder of the increase is made up of a \$645 increase in travel for audit purposes and allowances for increased costs.

EQUIPMENT: A total of \$592 is requested, made up as follows: \$392 for files; \$100 for a storage cabinet; \$94 for a table to be used for examinations and other purposes; and \$100 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions ----- 4.3 4.3 4.3

The work load of this agency is increasing internally due to additional activities of the office force in connection with school credentials, due to the requirement that the schools file semester or quarterly reports for each student enrolled. This board keeps track of the student from the time he enters school until he graduates. This has resulted in an increase in the amount required for temporary help.

**SALARIES AND WAGES:** Increase \$2,019—all for additional temporary help of which \$1,500 represents moneys for the employment of an educator to evaluate and approve schools for the board. The remainder of the increase is due to additional funds for proctors.

**OPERATING EXPENSES:** Increase \$1,455 attributable mainly to an increase in printing of \$1,120 to enable the board to place a geographic section in its directory. An increase of \$1,015 in travel expense which includes provision for travel by the educator in his accreditation program. The remainder of the increase is due to price increases, offset by a reduction of \$1,549 representing a nonrecurring litigation expense for witnesses in the current year.

**EQUIPMENT:** The total of \$710 requested is made up as follows: \$120 for textbooks, \$95 for a storage cabinet, \$166 for the replacement of a 1925 adding machine, \$140 for the replacement of a 1931 typewriter, \$89 for the replacement of a table, and \$100 for small miscellaneous items.

## BOARD OF REGISTRATION FOR CIVIL AND PROFESSIONAL ENGINEERS

examines, licenses, and regulates civil engineers, land surveyors, structural engineers, chemical engineers, electrical engineers, mechanical engineers, and petroleum engineers. It is estimated that approximately 32,078 registrations will be in effect during 1952-53, about 2,738 more than in 1950-51.

## GENERAL ANALYSIS

Number of positions ----- 21.2 20.3 20.3 -

The work load for this agency shows a substantial increase in the number of anticipated registrations during 1952-53 over the number registered during 1950-51. The largest gain is expected to be in engineer-in-training due to the recent legislation which removed restrictions on applicants. Present trends show professional engineer registrations are accelerating as more learn the value of registration. The budget for 1952-53 has been predicated upon these work load increases and shows an increase of \$21,066 over 1951-52 expenditures broken down as follows:

**SALARIES AND WAGES:** The increase of \$10,630 is due to an increase in board member per diems of \$2,075; examination commissioners, \$4,800; examiners, \$2,000; and temporary help, \$1,734. These increases are primarily due to the increased work load in connection with examinations and estimated increases of registrations.

**OPERATING EXPENSES:** The increase of \$8,878 includes significant increases for printing, \$2,425; examination expense, \$600; postage, \$1,000; rent, \$1,415; and pro rata departmental administration, \$438. The increase in postage and printing is occasioned by increased costs in printing and directory due to a larger size and quantity and the attendant postage. The remainder of the increases are caused by provisions for increased costs.

**EQUIPMENT:** The \$2,421 requested is as follows: seven four-drawer legal files, \$756; three Kardex cabinets, \$765; one storage cabinet, \$71; all for expansion purposes due to increased work load. In addition, the sum of \$679 has been provided for an electric calculator for use in examination preparation and grading, and \$150 for miscellaneous items, including textbooks to be used in the preparation of examinations.

## GENERAL ANALYSIS

Number of positions ..... 81.5 81.8 81.8 -

Provision is made to continue the same program as authorized in the current year. Examination work load shows a drop of 29.5 percent between 1949-50 and 1950-51 actual, while the number of disciplinary actions in cases filed and pending shows an increase of 6.5 percent. A work load in connection with disputed applications increased 49 percent in 1950-51 as against 1949-50. These trends are expected to continue into the current and budget fiscal years. Legislation enacted by the 1949 session enables the board to charge up to a \$10 renewal fee. Revenues for the current and budget fiscal years are predicated on the charge of a \$7 renewal fee. It is estimated the board will have a surplus in excess of \$419,000 as of June 30, 1953. Total expenditures for the 1952-53 Fiscal Year show an increase of \$18,431 over 1951-52 made up as follows:

**SALARIES AND WAGES:** The increase of \$500 is due to the increase granted the Registrar by action of the 1951 Session of the Legislature.

**OPERATING EXPENSES:** The increase of \$12,139 includes increases for postage, \$1,000; printing, \$5,200, due to estimated increased printing costs, and increased quantities of miscellaneous forms and licenses, and the publication of a manual of procedure, a directory, and semiannual bulletins. Rent of \$2,001 is due to increased rental charges in the Business and Professions Building, and pro rata departmental administration services increased \$2,625.

**EQUIPMENT:** Total requested, \$9,666. The more significant items are: five files, \$656; executive desk, \$225; executive table, \$120; four side chairs, \$220; bookcase, \$98; three-drawer wooden file cabinet, \$125 (to replace registrar's furniture which is over 11 years old and will be assigned to the district supervisor now using a typist desk and borrowed chair); \$275 for the replacement of two typewriters; two desks, \$303; two chairs, \$149; \$150 for a typewriter (to replace borrowed equipment); \$672 for dictating equipment replacement; and \$5,150 for the replacement of six vehicles which will have in excess of 100,000 miles by June 30, 1953.

## GENERAL ANALYSIS

Number of positions ----- 22.7 22.3 22.8 0.5

The examination work load of this agency has leveled off from its peak year of 1948-49 and is now on what may be termed a normal basis. The total number of effective licenses are slowly increasing. Legislation enacted by the 1951 Session of the Legislature increasing fees shows its effect in the 1952-53 Fiscal Year when revenues for the first time in many years will exceed expenditures. In order to meet current expenses, it was necessary to liquidate the board's investment in the Business and Professions Building during the 1951-52 Fiscal Year and all that will remain invested will be the sum of \$74,338 invested in the Business and Professions Building Annex as of June 30, 1953.

**SALARIES AND WAGES:** Increase \$7,095. This is due primarily to an increase in board member per diems which were increased from \$10 to \$20 effective September 22, 1951. Temporary help has been reduced and a position of junior typist-clerk has been eliminated due to a drop in work load. Salary savings have been reduced to place them on a more realistic basis because of anticipated fuller employment.

**OPERATING EXPENSES:** Increase \$3,591, of which \$1,235 is attributable to an increase in rent, \$400 in printing, \$1,000 in travel, and \$405 in pro rata departmental administration charges. All other items are in line with estimated 1951-52 expenditures.

**EQUIPMENT:** Total requested, \$276, includes \$100 for small miscellaneous items of equipment; \$145 for the purchase of a standard typewriter with Old English characters for the purpose of typing original licenses, and \$131 for a five-drawer file for expansion purposes.

## BOARD OF DENTAL EXAMINERS

Licenses and regulates dentists and dental hygienists. Approximately 9,434 licenses are estimated to be in effect during 1952-53, an increase of 1,198 over the number licensed during 1950-51.

## GENERAL ANALYSIS

Number of positions..... 5.2 4.5 4.6 0.1

This budget request shows a decrease of \$2,996 over the amount requested for the 1951-52 Fiscal Year accounted for mainly by decreasing printing and postage as the board issues a biennial directory which will be printed in 1951-52. It does, however, reflect slight increases in some sub-functions due to increased work load in both examinations and the total number of persons to be licensed.

SALARIES AND WAGES: Decrease \$198 accounted for primarily by decrease in temporary help required to process the biennial directory during 1951-52, offset in part by an increase in board member per diems for the additional cost of preparing and grading more examination papers.

OPERATING EXPENSES: Decrease \$3,483 primarily due to a decrease in printing and postage. All other expenditures are in line with actual 1950-51 expenditures to which have been added allowances for price increases.

EQUIPMENT: The total requested \$1,245 comprises: \$1,025 for the replacement of a vehicle which will have traveled in excess of 100,000 miles by the end of 1952-53 Fiscal Year, and the remainder composed of \$120 for a legal filing cabinet with lock and \$100 for miscellaneous small equipment.

## BOARD OF DRY CLEANERS

This agency establishes rules and regulations for the conduct of the dry cleaning industry, examines applicants for licenses and registration certificates, licenses and inspects dry cleaning and dyeing plants and establishes minimum price schedules. It is estimated there will be 21,750 licenses in effect during 1952-53 as against 20,870 actually in effect as of June 30, 1951.

## GENERAL ANALYSIS

Number of positions 20.5 19.7 19.7 -

The work load of the board relating to licensees, change of status, and general inspections have increased steadily since the creation of the board in 1945. Examinations have fluctuated from year to year. However, the present trend seems to indicate a downward movement in the number of persons applying for examination. The constitutionality of minimum price provisions of the law will be heard by the California Supreme Court. Pending such determination and based upon a decision from the District Court of Appeals adversely affecting these provisions, the board has suspended all minimum price activities for the remainder of the current fiscal year and has made no budgetary provision for their enforcement during the 1952-53 Fiscal Year. The overall decrease for 1952-53 from 1951-52 is \$1,857. However, both the current and budget fiscal years show a decrease in expenditures over the amount actually spent during 1950-51, because of non-recurring minimum price surveys.

**SALARIES AND WAGES:** Decrease \$585 due to the elimination of the position of semi-senior accountant, and an increase of estimated salary savings.

**OPERATING EXPENSES:** Decrease \$646. Significant changes are an increase in rent and pro rata departmental administration expenses. These increases are offset by reductions in examination expense, printing, and pro rata Attorney General's service.

**EQUIPMENT:** A total of \$474 is requested, made up of items as follows: \$324 for additional four-drawer legal files needed for expansion due to work load increases; and \$150 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions 3.6 3.6 3.6 —

This budget does not propose any change in program for the 1952-53 Fiscal Year. Expenditures are beginning to show a slight increase over revenues. However, the board will still have a surplus of approximately \$61,950 as of June 30, 1953, which is sufficient to carry them for several years before an increase in fees would become necessary. Furthermore, the board is not presently charging the maximum fees allowed by law and can increase fees during any year. The overall increase over 1951-52 amounts to \$1,051 which is made up as follows:

**OPERATING EXPENSES:** The decrease of \$392 is primarily due to a reduction in printing and postage offset by some increases in other subobjects of operating expenses where provisions have been made for anticipated increased costs.

**EQUIPMENT:** Total requested is \$1,233, of which \$1,025 is for the replacement of a motor vehicle which will have traveled over 100,000 miles prior to June 30, 1953, and \$208 composed of \$108 for an additional filing cabinet and \$100 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions----- 31.6 33.1 33.1

The budget provides for continuation of the existing program. A slight decrease is expected in the number of licenses to be effective during the 1952-53 Fiscal Year as against the number in force as of June 30, 1951. As a result of a 20% reduction in license fees, expenditures in the 1951-52 and 1952-53 fiscal years will exceed revenues by approximately \$27,000 and \$30,000, respectively. The budget provides for an increase of \$2,524 over the amounts requested for the 1951-52 Fiscal Year. This increase is made up as follows:

**SALARIES AND WAGES:** The increase of \$1,435 is primarily due to the return of a junior chemist from military service.

**OPERATING EXPENSES:** The increase of \$1,207 is primarily attributable to increases in rent, travel, and pro rata departmental administration charges. Printing and postage show a decrease because the biennial bulletin will be published during the 1951-52 Fiscal Year.

**EQUIPMENT:** The \$400 is made up of miscellaneous items.

GENERAL ANALYSIS

Expenditures are to be maintained at the 1951-52 level. The functions of this agency are performed by the departmental administrative staff since the board is not large enough to have a staff of its own. Expenditures are entirely under "operating expenses" with no increases over 1951-52.

## GENERAL ANALYSIS

Number of positions 16.8 16.1 16.1

The work load continues to increase in proportion to the expanding population of the State. Expenditures exceed revenues because of drop off in the number of reciprocity certificates issued. This trend commenced with the 1950-51 Fiscal Year and is expected to continue. Estimated surplus of \$440,718 as of June 30, 1953, is sufficient to obviate necessity for increase in the fee for license.

**SALARIES AND WAGES:** The increase of \$240 is accounted for by an increase in temporary help for an anticipated increase in and clinical examinations.

**OPERATING EXPENSES:** The increase of \$6,107 is primarily caused by an increase in printing of \$2,550 and \$515 in postage due to the increased size and cost of the annual directory. An increase of \$500 in travel expense, an increase of \$1,055 in rent, and \$965 departmental pro rata charges, as well as other minor general price increases.

**EQUIPMENT:** The total of \$2,434 requested includes a Kardex cabinet and a 5-drawer, legal file for expansion; \$317 to replace obsolete adding machine; and \$1,600 for the purchase of an additional automobile for one of the investigators presently driving their own car on a mileage basis estimated to be 15,600 miles per year, and \$100 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions ----- 16.5 16 17 1

The trend in the number of persons to be examined shows a marked increase. The budget proposes the addition of one special investigator. The board presently has only one such authorized position. The situation in regards to investigations has become critical. The board has had to drop the investigation of complaints because the backlog was so great the statutes of limitations had run against them. This position is needed to alleviate the backlog of complaints. Expenditures will exceed revenues by approximately \$30,000 in the budget year. An increase in fees will be needed eventually. At present the cost of examinations per nurse exceeds the \$5.00 examination fee charged. However, as of June 30, 1953, it is estimated there will still be a surplus in excess of \$333,000 which will serve to carry the board under present inadequate fees for several years. The budget for 1952-53 represents an over-all increase of \$14,803 over estimated expenditures for 1951-52. This increase is made up as follows:

**SALARIES AND WAGES:** Increase \$4,622 of which \$3,900 is for the proposed new position of special investigator, and an increase of \$722 for temporary help to be used in addressing survey cards for the National Security Resources Board.

**OPERATING EXPENSES:** Increase \$8,304. This increase is made up of an additional \$485 in printing due to increased costs; \$1,800 in travel due to an allowance for the proposed new position of investigator and increased travel expected on the part of the educational consultants; increases in rent, departmental administration, and examination expense due to the increased number of candidates and the increased costs of examination papers.

**EQUIPMENT:** A total of \$2,823 proposed is made up of \$1,600 for an additional vehicle for the proposed new position of special investigator, and \$1,223 for additional office equipment consisting of \$507 for two Acme Visible cabinets; a 12-drawer, 2-section file for 3 x 5 cards for expansion purposes at a cost of \$250; a desk and chair for use of the special investigator and one of the junior typist-clerks who does not have a desk or chair, and \$150 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions 3 3 3

The budget for the 1952-53 Fiscal Year shows an over-all increase of \$792 over estimated 1951-52 expenditures. The work load statistics show the 1951-52 Fiscal Year as having a peak in the number of applicants examined. This is due to schools of optometry having had a year added to their curriculums with the graduates being examined during the current year. A balanced budget is presented and estimated surplus is slowly increasing.

**SALARIES AND WAGES:** A reduction of \$492 due to decreases in board member per diems and temporary help.

**OPERATING EXPENSES:** Increase \$403 due primarily to anticipated price increases. These increases have been partially offset by a reduction in automobile operation expense as provision has been made during the current year for the overhauling of the vehicle owned by the board.

**EQUIPMENT:** Total requested \$1,128 is accounted for by the inclusion of \$1,025 for replacing a vehicle which will have traveled in excess of 100,000 miles during 1952-53, and \$103 for small miscellaneous items.

## GENERAL ANALYSIS

Number of positions ..... 19.9                      20.5                      20.5

The reduction in the estimated number of effective licenses between 1950-51 and 1952-53 is due to an anticipated decline in the number of hypnotic licenses that will be in effect due to changes made at the 1951 session of the Legislature, wherein certain physicians no longer require a license. Expenditures are less than estimated revenues for both the current and budget years. It is estimated there will be a surplus of \$92,667 as of June 30, 1953.

**SALARIES AND WAGES:** The increase of \$1,640 is due to an increase in board member per diems by action of the 1951 session of the Legislature which became effective on September 22, 1951.

**OPERATING EXPENSES:** The total increase of \$278 is composed of an increase of \$4,150 in travel, offset by a decrease of \$4,000 in printing and \$175 in postage. This is accounted for by not having to print again during the budget year many of the laws which have been changed by action of the 1951 session of the Legislature, and postage for mailing same. Other items show increases due to anticipated price changes.

**EQUIPMENT:** A total of \$2,250 is proposed and is made up as follows: \$2,050 for the replacement of two vehicles which will have traveled in excess of 100,000 miles during 1952-53, and \$200 for small miscellaneous items of equipment.

## GENERAL ANALYSIS

Number of positions 3.5 3.5 3.5

The budget continues the same level of activity with no increase in work load anticipated in the 1952-53 Fiscal Year. An overall decrease of \$352 from estimated 1951-52 expenditures is indicated.

SALARIES AND WAGES: No change.

OPERATING EXPENSES: The item of printing and postage for the 1951-52 Fiscal Year includes provisions for laws, rules, and regulations, new licenses and certificates due to the changes made by the 1951 session of the Legislature. The item of travel expense for the 1951-52 and 1952-53 Fiscal Years includes provisions for an out of state trip for the assistant director or director, while the item of legal advertising, hearings, and evidence for the 1951-52 Fiscal Year contains provisions for the publication of rules and regulations in newspapers.

EQUIPMENT: The sum of \$100 for small miscellaneous items is the only requirement.

19						
20	Since the act creating this board was not effective until September 22, 1951, budget requirements are estimated without benefit of operating experience.					
21	Revenue has been computed on an estimated 750 shorthand reporters qualifying for certification in 1951-52.					
22	The 1952-53 proposal represents a full year operation which has been budgeted to remain within current revenue. The largest single item of operating expense is traveling. This provides for travel of the secretary and of board members to meetings in accordance with the limitations in the act.

## GENERAL ANALYSIS

Number of positions----- 2 2 2

The estimated registrations during 1952-53, of 3,855, are substantially the same as during 1951-52. Although the board issues between 165 and 180 new certificates each year, the rate of turnover is such that there is very little over-all increase in the total number of effective registrations. This trend is expected to continue as long as the law is kept on a permissive basis.

The revenue is continuing to exceed expenditures and a good protective balance is accruing in the surplus account. Changes are reflected in the expenditure categories as follows:

**SALARIES AND WAGES:** Decrease of \$97 is due to a reduction in temporary help.

**OPERATING EXPENSES:** Shows an over-all decrease of \$890 due to the elimination of the biennial report and research pamphlet not required again during the 1952-53 Fiscal Year, as well as postage for mailing same. All other sub-objects of operating expenses are in line with actual 1950-51 Fiscal Year expenditures to which have been added anticipated price increases.

**EQUIPMENT:** Total requested is the sum of \$178, consisting of \$75 for miscellaneous equipment and books and \$103 for the replacement of a typewriter.

## GENERAL ANALYSIS

Number of positions ----- 1.2 1.2 1.2

The budget continues the same program. Revenues exceed expenditures and a substantial balance has accrued in the surplus account.

**SALARIES AND WAGES:** Increase \$241 includes an increase in board member per diems due to additional grading of examinations.

**OPERATING EXPENSES:** Decrease \$29. All expenditures are in line with those of 1951-52.

**EQUIPMENT:** An allotment of \$50 for miscellaneous small equipment is requested.

11	<b>GENERAL ANALYSIS</b>				
12	<i>Number of positions</i> -----				
13		-	3	3	-
14	Since the act (Chapter 1689, Statutes 1951), creating this board was not effective until September 22, 1951, budget requirements are estimated without benefit of operating experience. The proposed expenditures have been estimated conservatively. It should be noted that present estimates indicate the annual renewal fee will not be sufficient to make this board self-supporting after the initial surplus created by the application fee is exhausted.

## GENERAL ANALYSIS

Number of positions----- 2 2 2

The operations of this agency are fairly constant in nature. A balanced budget is presented and the unbudgeted surplus is slowly increasing. An over-all increase of \$57 over estimated expenditures for 1951-52 is indicated made up as follows:

**OPERATING EXPENSES:** Increase \$75 due to an increase in pro rata departmental administration charges which has been partially offset by a reduction in printing. All other items are in line with estimated 1951-52 expenditures to which have been added allowances for price increases.

**EQUIPMENT:** Total requested \$208 comprises \$108 for a 4-drawer legal file for expansion purposes. The remaining \$100 is for the purchase of small miscellaneous items of equipment.

## GENERAL ANALYSIS

Number of positions ----- 4.8 4.8 4.8

The budget request for 1952-53 carries the same level of service as currently authorized. Revenues are exceeding the expenditures and a substantial balance is reflected in the surplus account. Changes in the various expenditure categories are set forth and explained as follows:

**SALARIES AND WAGES:** The decrease of \$51 results from minor adjustments.

**OPERATING EXPENSES:** The total increase of \$495 provides for normal increase in prices and estimated increase of \$250 for accounting services for the entire 1952-53 year.

**EQUIPMENT:** Total request of \$1,075 represents office decrease, \$495; increase automobile, \$1,025, to replace present car used by investigator.

## GENERAL ANALYSIS

The proposed expenditures for the 1952-53 Fiscal Year continues the authorized program of the current year. The expenditures for the various sub-objects show minor changes, the total increase amounting to \$120. Revenues are estimated to exceed expenditures, which will permit transfers to the General Fund of \$16,973 in the current year and \$18,550 in the 1952-53 Fiscal Year in accordance with Section 1159 of the Harbors and Navigation Code.

## GENERAL ANALYSIS

Number of positions -----	16.2	16.5	18.8	2.3
The budget is based on a total of 472 days of racing of which 342 are to be at major tracks, 100 days at fair tracks and 30 days for quarter horse racing.				
The increase of \$33,115 is attributable to the increased work load resulting from the increased number of racing days as shown below:				
Number of racing days -----	370	423	472	

Changes in the various categories of expenditures are as follows:

**SALARIES AND WAGES:** Increase \$13,268 for 1 intermediate typist-clerk, \$2,520; 1 race track investigator, \$4,512; 1.5 intermittent racing license clerks, \$4,058; and increased temporary help, \$1,650 for the increased work and to eliminate the use of track paid employees.

**OPERATING EXPENSES:** The increase of \$16,315 consists of price increases plus an \$11,746 increase in traveling items due to the increased number of racing days and requirements of the new positions.

**EQUIPMENT:** The amount of \$2,940 includes a panel delivery truck, \$1,825, for hauling files, typewriters, records, photographic and other equipment from track to track; \$585 for photographic equipment; \$227 to replace a typewriter; and \$203 for files, storage trunks and small miscellaneous items.

## DEPARTMENT OF PUBLIC HEALTH

The Department of Public Health is responsible for a broad preventive medical and dental health program, for the provision of sanitary environment, and for the registration of vital statistics. Service is primarily through the local health departments which are assisted through consultations and subventions, although in a number of cases licensure, inspection, or other direct service is provided.

## GENERAL ANALYSIS

	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
Number of positions	824.8	875.1	808.3	
Positions Transferred to Local Assistance Budget:				
Occupational therapist	—12.7	—18	—	
Physical therapist	—42.7	—50	—	
Occupational therapist I	—5.2	—4	—	
Physical therapist I	—3.2	—2	—	
Comparable Totals	761.0	801.1	808.3	7.2

Two major organizational changes occurred in the latter part of 1950-51 which were not shown in the 1951-52 budget. In the 1951-52 budget four functions were included in the Bureau of Disease Control, embodying four basic health programs: Control of Tuberculosis; Control of Venereal Disease; Control of Acute Communicable Diseases; and Control of Chronic Diseases. The Bureau of Special Services likewise included four component parts: Public Health Nursing, Medical Social Services, Nutrition Service and Mental Health Service. In the 1952-53 Budget these functions will be shown in separate bureaus in conformity with the reorganization that took place during the 1950-51 Fiscal Year.

The principal changes in this budget are the addition of one clerk in the Bureau of Health Education, and the addition of two professional positions in the Nutrition Service. Further explanation of these changes is shown in the budget for the function. Otherwise, this budget proposes a continuation of the 1951-52 authorized level of services.

<sup>e</sup> Effective July 1, 1951, retirement contributions are paid from the fixed appropriation made by Section 20751 of the Government Code or from the Public Health Federal Fund in accordance with Chapter 1261, Statutes of 1951.

<sup>†</sup> Grants from the Federal Government and private trusts and the expenditures therefrom are not included in the over-all budget totals. See Schedule 11 for summary of federal aid revenues and expenditures.

2	<b>CURRENT MORBIDITY PROJECT</b>						
3							
4	<b>Analysis</b>						
5							
6							
7	This is a federal research project for the study of measurements of morbidity, aimed at the evaluation of methods of securing current data,						
8	development and refinement of methods, and the development of a plan for establishing a current morbidity service which would be						
9	applicable to other states.						
10	This project was planned and approved as a three-year project, commencing in May, 1950, and should terminate in 1952-53. No state						
11	funds are used in this project.

38	<b>BUREAU OF RECORDS AND STATISTICS—</b>						
39	<b>VITAL RECORDS</b>						
40							
41	<b>Analysis</b>						
42							
43	The function of this section of the Bureau of Records and Statistics is the registration of births, deaths, and marriages, and the provi-						
44	sion of services to the department and the public with respect to these records. The project for the rehabilitation of vital records has						
45	been completed and the microfilm project will be essentially completed by the end of 1951-52. Included in this budget is an amount of						
46	\$10,500 for temporary help to meet an increased demand for certified copies of birth certificates. It is estimated that increased rev-						
47	enues in the budget year should equal this proposed amount. The expenditure of these funds will be directly geared to the increased						
48	number of requests as reflected by increased revenues. No program or other work load changes are provided for in this budget.						
49

32							
33	Analysis						
34							
35							
36	The function of this bureau is to provide health educational services and consultation to the department and to local health departments,						
37	including maintenance of a film library, the departmental library, and the preparation and dissemination of all materials for public						
38	information. The replacement value of the film library at the close of 1951-52 is estimated at \$51,125. This budget includes \$7,700						
39	for additional and replacement films. An additional clerk is proposed for the work load increase which has resulted from the						
40	growth in local health departments and the state department and increased requests for films and other library materials.

24	<b>BUREAU OF CRIPPLED CHILDREN SERVICES</b>						
25	<b>Analysis</b>						
26	The function of this bureau is the administration of a program for the care of handicapped children. The program includes the administration of a general crippled children program as well as cerebral palsy and hearing programs, and the rheumatic fever program added by the Legislature in 1949. These programs are accomplished by:						
27	A. Maintenance of a state file of all children reported with handicapping conditions.						
28	B. Establishment of standards for care and consultation in the maintenance of such standards.						
29	C. Provision of funds for expert diagnostic services and care.						
30	D. Planning for necessary treatment and consultation in the provision of treatment services.						
31	E. Maintenance of statistical records of children receiving services.						
32	An organizational change was approved in 1950-51 wherein nonmedical administrative officers will administer the crippled childrens program at the district level. This plan will be in operation before the end of 1951-52. No further work load or major program changes are provided for in this budget.						
33	Diagnostic services for children suffering from rheumatic fever are to be provided from the support appropriation instead of local assistance. This will provide uniform treatment of all diagnostic services.						
34	Services to cerebral palsied children consisting mainly of orthopedic appliances are provided in the local assistance appropriation instead of support as there is no difference in principle from other services to handicapped children.						
35	Salaries of all occupational and physical therapists working in local schools have been provided in local assistance instead of support as in the past, inasmuch as these expenditures are of local benefit, although some of the salaries are still paid directly by the State due to local organizational difficulties.

41							
42	<b>NUTRITION SERVICE</b>						
43							
44	<b>Analysis</b>						
45							
46	The major functions of the nutrition service unit is to provide consultation to the professional staff of the State and local health depart-						
47	ments on the nutritional aspects of public health programs. (These services are also extended to local health departments, school						
48	administrators, nurses and teachers.) In areas where there is no organized health program, services are provided to local public						
49	health workers in carrying out their nutrition activities. Limited nutrition service is provided to the Bureau of Hospitals for the						
50	review of architects' plans for the dietary departments.						
51	Two new professional positions are proposed. This represents the only increase in this staff since 1943; yet during this period, additional						
52	responsibilities have been placed upon this service by the passage of the Hospital Licensing Act and new developments in the field						
53	of chronic disease. This budget will make possible further development of dietary services to institutions participating in the state						
54	tuberculosis subsidy program and will give additional impetus to the development of nutritional programs in local health depart-						
55	ments.

1	<b>MENTAL HEALTH SERVICE</b>						
2							
3							
4	<b>Analysis</b>						
5							
6	The Mental Health Service unit provides an educational, consultative and advisory service to the staff of the department and to local						
7	health agencies to train them to meet the mental health problems associated with public health practice; advisory services for de-						
8	velopment of mental health programs, particularly in relation to training and long-range planning, and assisting many local						
9	health departments and agencies in the most effective use of federal and local funds.						
10	During 1950-51 and prior years, the Department of Public Health was the Federal Mental Health Authority. For 1951-52 and 1952-						
11	53, this service is completely supported by a reimbursement contract with the Department of Mental Hygiene, which now receives						
12	the federal grant as the Mental Health Authority. No state funds are expended in this program.						
13	No program or work load changes are reflected in this budget.						
14

56	<b>BUREAU OF HOSPITALS</b>						
57							
58	<b>Analysis</b>						
59							
60	The Bureau of Hospitals is responsible for administration of provisions of the Health and Safety Code which relate to minimum facil-						
61	ities for hospitals, clinics and establishments for handicapped persons, and for the administration of state and federal hospital survey						
62	and construction acts which provide grants for the assistance in the construction of hospitals and health facilities.						
63	The bureau has recently undertaken the task of administering the National Production Authority priority system for hospital construc-						
64	tion. One clerk has been provided for this activity during the current year. No other work load or program increases are budgeted.						
65							
66							
67	<b>SALARIES AND WAGES</b>

37							
38							
39	DIVISION OF LABORATORIES						
40							
41	Analysis						
42							
43	This division provides the laboratory services of the department, including :						
44	1. Water and sewage						
45	2. Food and drug						
46	3. Virus and rickettsial						
47	4. Bacteriological						
48	5. Serological						
49	Diagnostic services are provided to rural areas of the State in viral and rickettsial diseases and consultation is provided for clinical and						
50	hospital laboratories and local health departments.						
51	The 1951 Session of the Legislature added to this division the licensure of establishments using animals for experimental purposes, and						
52	expanded the licensing of clinical laboratories technicians. Services to the Bureau of Food and Drug were increased in connection						
53	with the legislative addition to the department of licensure of frozen food locker plants and egg cracking establishments.						
54	Under a reimbursement contract with the State Water Pollution Control Board services in the water and sewage laboratory were expanded.						
55	A special grant from the Federal Government added a study of the pathogenesis of Q-Fever which will continue through 1951-52. Under						
56	contract with the Army, the influenza program has been expanded and an additional research program into airborne rickettsiae was						
57	added.						
58	No work load or program increases over the current year are reflected in this budget.

9	DIVISION OF DENTAL HEALTH						
10	Analysis						
11	This division has responsibility for the administration of a program to protect and improve the dental health of the people. The program						
12	is implemented by advisory and consultative services to local health departments, community groups, agencies and educational insti-						
13	tutions; promotion of training and studies of dental manpower, clinical facilities, and fluoride content of water supplies.						
14	Provision of dental services in rural areas has not proven satisfactory and all of the dental trailers have therefore been disposed of						
15	except one, which will be retained for making surveys. In this connection, the senior dentist and dental assistant positions previously						
16	budgeted have been dropped.						
17	This budget provides only for a continuation of this reduced program.

47	DIVISION OF LOCAL HEALTH SERVICES						
48	Analysis						
49	This division has the responsibility of integrating the program objectives of the State Department of Public Health with those of the						
50	local health departments of the State. The functions of the division involve serving as a two-way line of flow through which the						
51	needs of the local health departments may be channeled to the proper bureau or service of the department, and the programs and						
52	services of the operating units of the department are directed to the various local health departments.						
53	No program or work load changes are budgeted for 1952-53.

28	<b>PUBLIC HEALTH TRAINING</b>						
29	<b>Analysis</b>						
30	There are two distinct activities under this general heading. One is the operation and maintenance of field training stations—staff and expenses, the other is the granting of stipends, tuition and travel to trainees. The trainees may be sent to university and post-graduate schools, other training institutions and to field training stations.						
31	No program changes are contained in this budget, and the same level of expenditure is requested for 1952-53 as authorized for the current and past years.						
32	The positions formerly shown in this budget have been transferred to the bureaus in which the personnel are employed, thus presenting a truer budgetary picture. The transfers were as follows:						
33	POSITION						TRANSFERRED TO
34	Senior sanitary engineer						Bureau of Sanitary Engineering
35	Health education consultant						Bureau of Health Education
36	Public health nursing consultant (reclassified to clerk)						Division of Local Health Service
37	Assistant public health analyst						Bureau of Records and Statistics
38	Senior bacteriologist						Division of Laboratories
39	Intermediate stenographer-clerk						Division of Local Health Service

# **WATER POLLUTION CONTROL BOARD**

The State Water Pollution Control Board formulates general state-wide policy for the control of water pollution, gathers, compiles, and disseminates data, and administers a program of financial assistance for water pollution control. The Regional Water Pollution Control Boards coordinate programs of abatement and prevention of water pollution in local areas, recommend projects for financial assistance, and prescribe requirements for waste and sewage disposal systems.

## **GENERAL ANALYSIS**

Number of positions .....	36.3	42.2	43.4	1.2
---------------------------	------	------	------	-----

Following the initial organization period in 1949 and 1950, the state and regional boards have now attained a relatively stable permanent organization at a level somewhat below that originally envisioned. The increase in expenditures for support is due almost entirely to the need for a second assistant to the executive officer of the state board. In other current expenses there is an increase due to the need for further research in technical phases of water pollution control. However, a reduction is reflected in the requirements for special studies by other state agencies.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
	50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			

## **STATE BOARD**

### **Analysis**

The State Water Pollution Control Board consists of the following membership: the State Engineer, the Directors of the Departments of Public Health, Agriculture, and Natural Resources, and nine appointees representative of the regions of the State and of various interests concerned with water pollution problems.

One additional assistant executive officer is recommended for increased work load of the state board. This agency was established during 1950-51 and during the formation period required one assistant to the executive officer. The program has now developed and actual duties and functions indicate another assistant is necessary. Such duties include: preparation of administrative budgets; developing and contracting for research projects; preparing and contracting for special investigations on technical phases of water pollution control; assisting the board in the preparation of reports on policy matters; working with legislative committees; assisting in self-policing waste disposal programs for industry where there is an overlap in more than one region; assisting in coordinating activities of regional boards with those of other agencies; reviewing research contracts in progress; formulating a state-wide policy for water pollution; reviewing Chapter 1551, Statutes of 1949, construction loan applications; and attending regional board meetings.

<sup>a</sup> Previously appropriated to agency rendering services. See budgets of Department of Public Health and Division of Water Resources.

<sup>b</sup> Appropriation not scheduled as to category.

<sup>c</sup> Composed of savings in salaries and wages, \$39,832; and operating expenses, \$17,235.

45	REGIONAL BOARDS						
46							
47	Analysis						
48							
49	The State is divided into nine water pollution control regions. The governing and policy-forming board of each region consists of five mem-						
50	bers appointed from within the region by the Governor.						
51	The various regional boards have stabilized their personnel requirements for the current and coming fiscal years at the level of 39 fu-						
52	time permanent positions as against 45 anticipated a year ago. A part time janitor is proposed for the Ukiah office.						
53

RESEARCH IN TECHNICAL PHASES OF  
WATER POLLUTION CONTROL

## General Fund

## Analysis

To provide basic technical data necessary to discharge properly the responsibilities of the boards the continuation of several technical research projects is recommended. These projects will be completed in 1952-53.

## DETAIL BY PROJECT

Investigation and evaluation of water qualities standards and their applications .....	\$9,425	\$15,195	—
Investigation of relationship of pollution of ground waters to rates of percolation .....	—	25,566	\$25,000
Investigation of pollution by leaching .....	10,000	9,000	28,000
Investigation of travel of pollution with ground water movement .....	13,300	17,380	27,900
Totals, Research in Technical Phases of Water Pollution Control .....	\$32,725	\$67,141	\$80,900

## PUBLIC UTILITIES COMMISSION

Supervises and regulates intrastate public utilities and carriers engaged in the transportation of property. Fixes maximum and minimum rates to provide a reasonable return on capital; regulates service in the interest of public safety and convenience; and controls the issuance of securities and other transactions relating to the capital structure of public utilities.

Headquarters Office at San Francisco

## PUBLIC UTILITIES COMMISSION—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
		50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			
1							
2	ADMINISTRATION						
3							
4	Analysis						
5							
6	This function includes the commissioners, their secretaries, accounting, personnel, public information and other general administrative						
7	and ministerial activities.						
8							
9	SALARIES AND WAGES: The increase of \$5,130 is due primarily to the change in salary of the commissioners made by Chapter						
10	1613, Statutes of 1951, which became effective October 1, 1951; and the transfer of one administrative aid position from the						
11	Control and Regulation function on January 1, 1952.						
12							
13	OPERATING EXPENSES: The decrease of \$994 is the net result of price increases, plus additional traveling expenses for the						
14	administrative aid, less nonrepetitive printing costs.						
15							
16	EQUIPMENT: The amount of \$22,000 provides \$2,853 for replacement of worn out furniture and office machines, the major items of						
17	which include chairs for the president's conference room, and a calculator for the Los Angeles office; \$8,675 for replacement of						
18	nine automobiles; \$9,853 for additional equipment, including furniture, drapes, files, and office machines.						
19

28	Analysis							
29	This function provides the legal and hearing examiner staffs with their stenographic personnel.							
30	SALARIES AND WAGES: Provision is made for extension to June 30, 1953, of three legal examiner and one stenographic position							
31	which had been authorized to June 30, 1952. These positions are required because of the continuing high volume of work load. There							
32	is no increase in cost reflected.							
33	OPERATING EXPENSES: The increase of \$410 is due to price increases.							
34	EQUIPMENT: The amount of \$2,413 provides for replacement of worn out furniture, additional files for normal expansion, legal and							
35	technical books, and small miscellaneous items.							
36	SALARIES AND WAGES

REPORTING						
Analysis						
This function provides the hearing reporters and transcribers. Receipts from transcripts of proceedings made for litigants are credited as a reimbursement to the appropriation for this function.						
OPERATING EXPENSES: The increase of \$602 is due to price increases.						
EQUIPMENT: The amount of \$2,381 provides for replacement of worn out furniture, dictating machines, and obsolete wooden files; also provides for additional furniture for employees not now equipped and miscellaneous items.

19								
20	<b>TRANSPORTATION RATE FUND ACTIVITIES</b>							
21	<b>Analysis</b>							
22								
23	Activities supported by the Transportation Rate Fund are largely regulatory upon rail, truck and water carriers engaged in the transportation of property. The Transportation Rate Fund revenue is derived from a fee of one-fourth of one percent of the gross operating revenue earned by carriers from the transportation of property and other related fees.							
24	A plan of financial adjustment between the General Fund activities and the Transportation Rate Fund allocates the cost of certain functions which relate to either fund the details of which are reflected in the General Fund activities budget and offset by estimate reimbursements from the Transportation Rate Fund. The portion of charges to be borne by the Transportation Rate Fund are shown herein as operating expenses. Functions which pertain entirely to the Transportation Rate Fund are budgeted entirely in the portion of the budget.							
25								
26	SALARIES AND WAGES: The net decrease of \$1,061 is due to a reduction in temporary help which was required in 1951-52 to process legislative changes; less the cost of one additional informal examiner position to June 30, 1953. This additional position is provided for extending the current program of informal conferences with license applicants, as required by law, to include conferences with license applicants applying for radial highway common carriers and highway contract carriers.							
27								
28	OPERATING EXPENSES: The increase of \$10,388 is due to price increases and additional repayments to the General Fund as a result of general increases in the General Fund activities budget. These increases are offset in part by reductions in nonrepetitive printing items and the elimination of moving expenses.							
29								
30	EQUIPMENT: The amount of \$7,758 provides for replacement of worn out wooden furniture, old typewriters, and two automobiles; additional items include furniture for the new position, files for normal expansion, dictating equipment and small miscellaneous items.							
31								
32								
33								
34	<b>ADMINISTRATION</b>

<sup>a</sup> The expenditures for the 1950-51 Fiscal Year were paid from the Emergency Fund which is to be repaid from future excess revenue of the Itinerant Merchants Fund. Expenditures for the 1951-52 Fiscal Year are being paid from the Itinerant Merchants Fund.

## Department of Public Works

## DEPARTMENTAL ADMINISTRATION

directs and coordinates the activities of the Division of Architecture, the Division of Highways, and the Division of Water Resources; and provides accounting service for the Division of Architecture and the Division of Water Resources. The General Fund finances the entire cost of the accounting office and a proportionate share of administration. The State Highway Fund is charged with that portion of the cost of administration attributable to the Division of Highways.

## ADMINISTRATION

## Analysis

Administration includes the office of the director, staff officers, and assistants; and provides the over-all direction, coordination, and other staff services for the department.

Administration expenditures are charged to the State Highway Fund, except for one-twelfth of salaries and wages which is charged to the General Fund.

This method of prorating the administrative charges between the Highway Fund and the General Fund has been used for several years. It is considered desirable to reappraise the relationship of this office to the entire Department of Public Works function to determine a more equitable distribution of costs. Therefore, pending further study which will be undertaken, the same formula as used in prior years is continued for the 1952-53 Fiscal Year.

## SALARIES AND WAGES

SUPERVISION OF PUBLIC SCHOOL  
BUILDING CONSTRUCTION

## Division of Architecture Public Building Fund

## Analysis

This unit checks and approves plans and specifications for all new public school building construction and all alterations or remodeling exceeding \$4,000 in estimated cost, and inspects such buildings periodically during the course of construction to assure compliance with approved plans and specifications, as required by the Education Code. It is estimated that the work load of public school building construction will be maintained at the same level for 1952-53 as for 1951-52 when the volume was estimated at \$185,000,000.

Based upon relationship of personnel to work load the division believes a larger staff is necessary to properly discharge its responsibilities. However, technical personnel with the required qualifications are extremely difficult to recruit and it is doubtful if the present authorized positions can be filled and therefore substantial salary savings are estimated. Under circumstances more favorable to securing qualified engineers additional positions would be recommended. Printing is increased by \$6,000 for the reprinting a handbook on school construction regulations.

## GENERAL ANALYSIS

Number of positions ----- 19 38 51 13

Completion of the investigations and preparation of plans and specifications necessary for bond financing for a highway crossing across San Francisco Bay between Marin County and Contra Costa County is anticipated in 1952-53. It is estimated that the work prerequisite to the sale of bonds may be completed from available funds and no new appropriation is necessary. The contingent restriction in Chapter 1473, Statutes of 1951, with respect to securing a Department of Army permit for such structure has been met and, world conditions permitting, it is expected that construction can be started early in 1953.

<sup>a</sup> Appropriations for this division represent advances from the General Fund and State Highway Fund and all amounts expended therefrom are to be repaid to the respective funds together with interest at one and one-half percent (1½%) per annum out of proceeds from the first sale of revenue bonds issued for construction of an additional highway crossing across San Francisco Bay.

<sup>b</sup> Availability of Budget Act of 1950, Item 245.1, extended to June 30, 1952, by Budget Act of 1951, Section 24.

<sup>c</sup> Funds under Chapter 1473, Statutes of 1951, were not available until September 23, 1951, thus funds were advanced from Emergency Fund as a loan to provide interim financing from July 1, 1951, pending reimbursement from proposed deficiency appropriation.

## Department of Public Works

## DIVISION OF WATER RESOURCES

The major portion of the State's activities pertaining to the investigation of water resources, and to the conservation, control, and utilization of such water resources, is conducted by the Division of Water Resources. Specifically, the division has responsibility under various statutes for the administration and supervision of the appropriation of water and the adjudication of water rights; for supervision of safety of dams; for maintenance and operation of the Sacramento River flood control and reclamation works; for administration of the State mapping program, including preparation of a state base map; for administration of state water quality investigations; and for storm and flood damage rehabilitation. In addition, the Division of Water Resources is responsible for stream gaging and collection of hydrologic data on the Sacramento and San Joaquin Rivers for the purpose of determining water supply and best means of utilizing these water resources. Also, reviews are made of various federal reports on proposed flood control and reclamation projects, and recommendations are made on such proposed projects to the Federal Government. Other activities of the division include the providing of engineering and legal assistance to the Water Project Authority concerning the Central Valley Project and the furnishing of engineering services to the State Water Resources Board. Lastly, the Division of Water Resources cooperates in many ways with the Federal Government, other state agencies, and with local governments in the pursuance of such activities as topographic mapping, stream gaging, salinity sampling, snow surveys, the making of special hydraulic engineering studies, and in supervision of the construction of a wide variety of projects.

14					
15	<b>GENERAL ADMINISTRATION</b>				
16	<b>Analysis</b>				
17					
18	This function consists of the Office of the State Engineer and other administrative functions of the division. The legal, stenographic,				
19	library, files, equipment, purchasing, automotive, budget and fiscal control, and reports control sections are also in this function.				
20	Two additional positions are proposed: One junior counsel to provide assistance to the present legal staff and to provide further train-				
21	ing in the select field of water law, and one junior intermediate typist-clerk in lieu of an equivalent amount of seasonal help.				
22	The increase in operating expenses is primarily attributable to higher rental rates and the overhaul of a greater number of the vehicles				
23	of the division's automotive pool.

34	Totals, Federal-State Cooperative Activities -----				\$93,245	-	-
35	STATE MAPS AND SURVEYS						
36	Analysis						
37	Under the provisions of Chapter 1581, Statutes of 1949, the Division of Water Resources is preparing a state base map consisting of complementary planimetric, topographic and mosaic maps and doing other related work. The supervision of topographic mapping is also included under this function.						
38	The activities are projected at the current level except for a proposed increase in travel expenses to permit a review of maps available within the State so that an inventory of useable maps may be compiled and duplication of mapping effort avoided.

29	WATER QUALITY INVESTIGATION AND SURVEY						
30							
31	Analysis						
32							
33	The activities of this unit include: (1) investigation of the quality of all water, including saline water (coastal and inland), and a						
34	related to all sources of pollution, together with recommendations as to improvement or protection of the quality of such waters;						
35	(2) surveys, investigations, and formulation of plans for the reclamation of waste waters for beneficial purposes; (3) investigation						
36	of damage to ground water by reason of abandoned or defective wells, together with recommendations for minimum standards for						
37	well construction. In addition, well log forms are made available to all water well drillers who are required to file such well logs						
38	with the appropriate regional water pollution control board.						
39	This function also supervises the work being done for the State and regional water pollution control boards.						
40	The program is extended at basically the same level as the current year but with provision for the analysis of water samples in excess						
41	of the division's present laboratory facilities and the proposed purchase of equipment found necessary as a result of the first two						
42	years experience in this function.

## SACRAMENTO-SAN JOAQUIN WATER SUPERVISION

## Analysis

The primary activity of this function is to perform stream gaging activities and to collect hydrological data on the Sacramento and San Joaquin rivers to provide basic information on water supply and utilization.

This function is carrying on similar activities under contract for the U. S. Bureau of Reclamation for which reimbursement is received, and in addition supervises two wholly reimbursable projects; the assembly of factual data on diversions in the Sacramento and San Joaquin valleys and salinity conditions.

No change in the existing level of service is proposed.

25	REGULATION OF SAFETY OF DAMS						
26	Analysis						
27	This function is charged with responsibility for the safe condition of all dams in California except those federally owned. This duty is						
28	discharged by means of approving plans and specifications for all proposed new dam construction or for the repair of existing dams						
29	and by maintaining a periodic safety check of the 727 dams now under the State's supervision. No change from the present pro-						
30	gram is proposed.

8	FLOOD CONTROL PROJECT MAINTENANCE						
9	Analysis						
10	Activities of this function include maintenance of the Sacramento-San Joaquin Flood Control Project.						
11	Chapter 1152, Statutes of 1951, added about 32 miles of levees and 17 miles of channels to the Sacramento River Flood Control Project.						
12	No expansion of activity is proposed other than providing for the continuation of additional works added by the above legislation.

1	REVIEW OF FEDERAL REPORTS						
2	Analysis						
3	Federal law provides that the various states be given an opportunity to review federal reports on proposed reclamation, flood control						
4	and water conservation projects within their boundaries.						
5	Analysis of and recommendations on such projects are prepared by the Division of Water Resources.						
6	Since the work load is dependent upon projects referred to the State, the budget is based upon the average level of activity for the past

## GENERAL FUND

WORK IN COOPERATION WITH THE  
FEDERAL GOVERNMENT

## Analysis

The Division of Water Resources cooperates with the appropriate federal agency in the accomplishment of projects of mutual interest. Those projects for which provision is made during the 1952-53 Fiscal Years are:

1. Yuba River Debris Control: Provides for restraining, impounding, and controlling debris along the Yuba River in cooperation with the U. S. Army Engineers.
2. Irrigation Investigations: Investigations conducted by the Soil Conservation Service of the U. S. Department of Agriculture, including the use, transportations, and loss by exaporation and percolation of irrigation water.
3. Stream gaging in cooperation with the U. S. Geological Survey: Provides data on water supply and utilization of streams in California not otherwise covered by the Division of Water Resources.
4. Topographic Mapping: For the continuation of the preparation of topographic maps of California in cooperation with the U. S. Geological Survey.

## EXPENDITURES BY PROJECT

38	Yuba River debris control .....	\$15,000	\$45,000	\$30,000	
39	Irrigations investigations .....	—	7,500	7,500	
40	Stream gaging .....	— <sup>a</sup>	111,575	127,350	
41	Topographic mapping .....	300,000	300,000	300,000	
42	Establishment of gaging stations .....	54,000	7,500	—	
43	Cooperative bulletin with U. S. Geological Survey on floods of 1950 .....	12,500	—	—	
44	Totals, Work in Cooperation with the Federal Government .....	\$381,500	\$471,575	\$464,850	

<sup>a</sup> 1950-51 expenditures reported in the Support Budget.

## AERONAUTICS COMMISSION

The Aeronautics Commission provides planning, engineering, and advisory services for public agencies on airport and aeronautical matters; investigates new airport sites for safety requirements and issues State Airport Permits; maintains airport records; coordinates and develops agricultural aviation; promotes safety in aeronautics; plans a state-wide system of airports and air transportation; coordinates civil aviation facilities for civil defense, and performs other authorized functions as required.

## GENERAL ANALYSIS

Number of positions ----- 13.3 13.5 13.4 -0.1

In 1951-52 and projected into 1952-53 provision for travel allowance is increased for the commission members to provide for more regular meetings, plus special meetings in various locations of the State to encourage local participation. During the past year several vacancies existed on the commission. Airplane operation is reduced on the basis that one of the present three airplanes will be disposed of during the current year.

## COLORADO RIVER BOARD

The Colorado River Board was created under Chapter 838, Statutes of 1937 for the purpose of protecting California's rights pertaining to the Colorado River. The board, and its staff, collects, compiles, and analyzes engineering and legal data on the existing and proposed utilization of the Colorado River water supply, appears before congressional committees and interested federal agencies, and confers with representatives of other Colorado River Basin states regarding legislation and developments affecting California's rights and interests.

## RECLAMATION BOARD

operates with the U. S. Engineers in construction of flood control projects through the acquisition of rights of way for such projects; acts as governing body for the Sacramento and San Joaquin Drainage District (over 1,500,000 acres); approves construction on levee systems and flood channels; and fulfills such construction obligations as have been assumed by the State in its agreement with the Federal Government.

Office at Sacramento

## GENERAL ANALYSIS

Number of positions ----- 25.1 28 29 1

One additional position of senior engineering aid in order to complete the survey crew is recommended for the 1952-53 Fiscal Year. An increased work load of field surveying on rights of way has been creating a backlog of work in progress.

## INTERIM SAN FRANCISCO BAY PORTS COMMISSION

The Interim San Francisco Bay Ports Commission, consisting of nine commissioners, was created by Chapter 737, Statutes of 1951, to be in effect until the ninety-first day after the adjournment of the Legislature in 1953. The commission is required to report to the 1953 Session of the Legislature the results of its investigation and study and its conclusions and recommendations, regarding the needs for a cooperative Bay Area Ports program.

## GENERAL ANALYSIS

Preliminary studies of ports organizations, harbor administration, shipping, traffic and ports development and legislation in the Bay area and in other major United States harbor areas by Senate fact-finding committee indicated a need for a cooperative Bay Area Ports program.

It is proposed that the availability of the 1951-52 appropriation be extended for the 1952-53 Fiscal Year as it does not appear the current year projected program will be accomplished by June 30, 1952.

# **SAN FRANCISCO BAY AREA RAPID TRANSIT COMMISSION**

The San Francisco Bay Area Rapid Transit Commission, consisting of 26 members, was created by Chapter 1760, Statutes of 1951 to study and investigate the rapid transit problems in the San Francisco Bay area. The commission is directed by statute within 15 days after the commencement of the 1953 Regular Session, to report to the Legislature its conclusions and recommendations.

------	--------------	-------------------	----------------------	---------------------	------------------------

## **SUMMARY AND RECONCILIATION WITH APPROPRIATIONS**

### **General Fund**

#### **STUDY AND INVESTIGATION OF RAPID TRANSIT PROBLEMS IN THE SAN FRANCISCO BAY AREA**

Special appropriation, Chapter 1760, Statutes of 1951	-	\$50,000	-
Prior year balance available	-	-	\$30,000
Total Available	-	\$50,000	\$30,000
Balance available in subsequent year	-	30,000	-
Total Expenditures	-	\$20,000	\$30,000

### **GENERAL ANALYSIS**

The need for rapid and effective transportation of persons between the various portions of the metropolitan area surrounding San Francisco Bay was recognized in the creation of this commission.

It is estimated that the study and investigation program will extend into 1952-53.

## WATER RESOURCES BOARD

The State Water Resources Board is the agency designated to study and make recommendations to the Legislature on water conservation and flood control matters; to investigate and recommend allocations from the Flood Control Fund of 1946 to local agencies to cover the cost of cooperation in flood control works constructed by the Federal Government; and to represent the State and local agencies in matters pertaining to federal authorizations and appropriations for flood control projects. In addition, the board, under the provisions of Chapters 1500 and 1596, Statutes of 1951 is responsible for formulating plans and design criteria for the correction or prevention of damage to the underground waters of the State by sea water intrusion; and for conducting research relative to the production and control of rainfall by artificial means.

23	Analysis						
24	The State Water Resources Board conducts comprehensive investigations in areas where the urgency and acuteness of water supply prob-						
25	lems require more intensive study than that provided by the state-wide water resources investigation. The cost of these studies is						
26	shared equally by the State and the participating unit of local government.						
27	The program for the 1952-53 Fiscal Year includes \$10,000 for continuation of the investigation in Ventura County; \$10,000 for new						
28	studies in areas not yet covered; and \$8,250 for the continued compilation of depths to ground water and stream flow measure-						
29	ments in areas in which the original project has been completed. In the latter instance, the further accumulation of data is neces-						
30	sary to verify the findings based upon comparatively short term experience.						
31	Mokelumne River Investigation -----				-	\$1,250	-
32	Placer County Investigation -----				\$17,500	-	-

43	Totals, Cooperative Minor Water Resources Investigations -----				\$54,500	\$54,500	\$28,250
44							
45							
46							
47							
48	STATE-WIDE WATER RESOURCES INVESTIGATION						
49	Analysis						
50	This project is to provide a state-wide water plan, including: An inventory of the water resources of California; the present and potential						
51	water requirements of the various areas of the State; and the necessary conservation and diversion measures required to meet these						
52	needs.						
53	The inventory of the water resources of California has been completed and published.						
54	Field work for the estimates of present water utilization and ultimate water requirements in the seven major hydrographic areas of the						
55	State has been completed, general office work by the engineering staff is now about 75 percent complete, and the drafting of plates						
56	for the report is about 10 percent complete. The final editing and printing will be done in Fiscal Year 1952-53.						
57	Field work for the plan for the development of the water resources of the State is about 60 percent complete. Present plans call for the						
58	completion of this work during 1952 and it is anticipated that office studies will be completed in the Fiscal Year 1952-53. Preparation						
59	of the report will be started in Fiscal Year 1952-53 but may require a portion of Fiscal Year 1953-54 to complete.						
60	It is planned to draft and publish a summary of the state water plan during the Fiscal Year 1953-54.						
61	It is proposed that funds for the cooperative geologic investigation of ground water basins be increased from \$25,000 to \$50,000 in the						
62	Fiscal Year 1952-53 so that the results will be available for the formulation of the California Water Plan studies.

## DEPARTMENT OF SOCIAL WELFARE

The Department of Social Welfare supervises the county administration of old age security, aid to needy blind, aid to partially self supporting blind, aid to needy children and child welfare services; administers the prevention of blindness program; investigate independent adoptions; licenses private agencies placing children for adoption and/or temporary care; licenses and supervise county adoption agencies; inspects and licenses boarding homes, institutions and other facilities for the care of aged and children supervises the licensing of boarding homes for aged and children by local agencies; and grants certificates authorizing the execution of contracts for life care.

Headquarters Office at Sacramento

The summary of expenditures from state, federal, and county funds for social welfare programs administered by the department appears in the Local Assistance Budget, "Subventions for Social Welfare."

57	<sup>g</sup> For transportation of needy children for 1952-53, see Local Assistance Budget, "Subventions for Social Welfare."				
58	<sup>h</sup> Effective July 1, 1951, retirement contributions are paid from the fixed appropriation made by Section 20751 of the Government Code or from the Social Welfare Federal Fund in accordance with Chapter 1262, Statutes of 1951.				

DEPARTMENT OF SOCIAL WELFARE—Continued

LINE	EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
1	GENERAL ANALYSIS				
2					
3					
4	Number of positions -----	500.8	517.9	529.2	11.3
5					
6	The Department of Social Welfare was reorganized during the 1950-51 Fiscal Year. This reorganization is reflected as being in force				
7	the full year in order that all three years can be shown on a comparable basis. The purpose of the reorganization was to decentral-				
8	ize and establish smaller units to more closely cooperate with and advise local agencies. This was done by establishing three area offices				
9	in the State directed by area deputies under the supervision of the director of the department.				
10	Chapter 1262, Statutes of 1951, abolished the Social Welfare Fund, established the Social Welfare Federal Fund and provided that support				
11	disbursements should be made from the General Fund budget act item.

31	DIVISION OF PERSONNEL						
32	Analysis						
33	This unit administers a merit system for counties not having a civil service system; supervises the operations of the 10 county civil						
34	service systems covering personnel engaged in the administration of public assistance and child welfare programs; and does personnel						
35	work for the state department. The increase is due to the county merit system program, including a proposal for a survey to evalu-						
36	ate and revise as necessary the present system.

28							
29	AREA OPERATIONS						
30							
31	Analysis						
32							
33	This unit is responsible for the supervision of local agencies and the execution of departmental policies throughout the State. The State is divided in three areas, with area offices located at Los Angeles, San Francisco, and Sacramento. Each area office is headed by an area deputy who has full responsibility for all operations within the area, and who directs a staff of professional, technical and clerical personnel. Increase is due to work load, revision of the clerical yardstick and approximately 5 percent increase in travel due to changes in the Board of Control Rules.

33	Program Services Unit						
34	Analysis						
35	This unit gives technical services to the various public assistance programs; child welfare programs, and area offices, in the fields of medi-						
36	cal social work, home economics, staff development and training, appeals processing, and field review evaluation and planning. The						
37	increase is due to: (a) the proposed establishment of a staff development and training program; (b) the establishment of a pro-						
38	gram to develop the employment opportunities and rehabilitation of recipients; and (c) the proposed establishment of a unit super-						
39	visor for the Program Services Unit.

40	DIVISION FOR THE BLIND						
41	Analysis						
42	This unit is responsible for the formulation and interpretation of standards, policies, rules, and regulations governing the administration of the Aid to the Blind Programs; reviews reports of eye examinations, provides consultant services on medical phases, and administers the Prevention of Blindness Program. The Prevention of Blindness Program provides treatment or surgery to prevent blindness or restore vision to persons applying for or receiving aid to the blind. The increase is due to the proposed new clerical position to meet increased work load; and the increased cost of hospitalization, surgery and medical services in the Prevention of Blindness Program.

k Effective July 1, 1951, retirement contributions are paid from the fixed appropriation made by Section 20751 of the Government Code or from the Social Welfare Federal Fund in accordance with Chapter 1262, Statutes of 1951.

l Budgeted as revenue for 1951-52 and 1952-53.

m Budgeted as reimbursements for 1950-51.

# RECREATION COMMISSION

Recreation Commission aids in the development of recreation facilities and programs in communities; investigates and reports on facilities and services which are needed or exist; assists state agencies and organizations in establishing recreation programs; renders technical services on request to cities, counties, recreation districts, voluntary agencies, universities and colleges, and state agencies.

## GENERAL ANALYSIS

Number of positions ----- 11 9 10.7 1.7

It is proposed to reclassify one recreation specialist to chief recreation specialist as that position is required to handle state-wide problems and those affecting the Federal Government. One additional position of recreation specialist is required in order that the State may be increased from three to four areas. Additional clerical help is required with the additional proposed positions.

## DEPARTMENT OF VETERANS AFFAIRS

The Department of Veterans Affairs has had four functions: The administration of the Veterans' Farm and Home Purchase Act; extension of financial assistance to veterans and dependents of veterans in securing an education; coordination of all state veterans' programs and provision of informational and advisory service to agencies in contact with the individual veterans for assistance to veterans in presenting claims against the United States arising out of war service; administration of the Veterans' Home of California and the Woman's Relief Corps Home. A fifth function, assistance to local communities in the development of facilities to meet the problems brought about by defense mobilization, has been added in 1951-52.

GENERAL ANALYSIS

Number of positions----- 57.3 59.5 59.5

Analysis

The proposed 1952-53 program is a continuation of the previous program with the exception of the following:  
 The Defense Mobilization Service Committee was activated in 1951-52 by executive order to assist local governments to develop programs to meet the problems created by increases in population as a result of expanded military and defense production activities in the various communities. The scope of the operations is state-wide, and a staff of four positions is required to coordinate the program.  
 The contracts with veterans organizations for assistance to veterans in pursuing claims against the United States arising out of war service have been increased \$16,000 in total in 1952-53. This is the result of the AMVETS (American Veterans of World War II) having become eligible to participate under Section 699.5 of the Military and Veterans Code.  
 Educational assistance to veterans is expected to have reached a peak enrollment in 1950-51 and 1951-52 with a tapering off anticipated in 1952-53.  
 Educational assistance to veterans' dependents has tapered off, principally for two reasons; in the case of orphans the current international situation is holding down enrollment increases. In the case of widows a substantial decrease in enrollments is being experienced by the improved employment market.

DIVISION OF ADMINISTRATION

Analysis

This division carries on the activities of the general direction of the homes and special programs. The headquarters office is located in Sacramento.  
 The decrease in total expenditures amounts to \$222. The only significant change from 1951-52 is an increase in contractual food consultant services with the Youth Authority from one to two months service per year.

42	DEFENSE MOBILIZATION SERVICES COMMITTEE <sup>c</sup>						
43	Analysis						
44	This committee was appointed by the Governor in 1951-52 to assist local governments in developing programs for needed housing,						
45	schools, recreational facilities, etc., to meet the population increases brought about by military and production development as						
46	a result of the defense effort. A staff of two coordinators and two stenographers assists the committee on a state-wide basis. The						
47	total increase of \$2,378 is largely the result of full-year operation of a new activity started in September, 1951.

<b>GENERAL FUND</b>							
<b>For Educational Assistance to Veterans, to Be Expended Under the Provisions of Article 2 of Chapter 6 of Division 4 of the Military and Veterans Code</b>							
<b>Analysis</b>							
The assistance is limited to a total payment of \$1,000 per California veteran. The subsistence payment is limited to \$40 per month based on actual attendance in school, and tuition and other items of school books and supplies as are necessary, or not to exceed \$50 per month for subsistence including school books and supplies. Duration of eligibility is for the life of the veteran.							
The amount proposed will provide assistance for 3,100 summer session students, 5,150 fall semester students, 900 fall quarter, 970 winter quarter, 1,050 spring quarter students and 5,450 spring semester students.							
This program is estimated to cost approximately \$288,930 less than in 1951-52, or an 8.1 percent decrease.							
A deficiency appropriation is required in the amount of \$225,715 in 1951-52 to finance the cost of increased veteran enrollments.							
<b>OPERATING EXPENSES</b>

<b>For Veterans Claims and Rights Service, to Be Expended Under the Provisions of Section 699.5 of the Military and Veterans Code</b>							
<b>Analysis</b>							
Veterans' claims and rights service ----- \$566,000							
Under the provisions of Section 699.5 of the Military and Veterans Code, the Department of Veterans Affairs contracts with the American Legion, Veterans of Foreign Wars, and the Disabled American Veterans to assist the veterans of any war of the United States in presenting and pursuing such claims as the veteran may have against the United States, arising out of war service and in establishing the veteran's right to any privilege, preference, care or compensation provided for by the laws of the United States of this State.							
The amount of \$566,000 represents the cost necessary to subsidize the four veterans' organizations that are eligible for state aid under Section 699.5 of the Military and Veterans Code to finance their operations on a 75 percent state share basis in the 1952-53 Fiscal year. The AMVETS (American Veterans of World War II), having rendered five years of similar service, under Section 699.5 of the Military and Veterans Code become eligible to participate in 1952-53. \$16,000 additional is proposed for this purpose.							
<b>Contract Payments:</b>

		50-51 (Filled)	51-52 (Auth.)	52-53 (Auth.)			
1	VETERANS' DEPENDENTS EDUCATION FUND						
2	Analysis						
3	The educational aid to veterans' dependents, widows or orphans, has no limit as to total amount of expenditure for each eligible. How-						
4	ever, subsistence payments shall not exceed \$480 per year on the basis of school attendance throughout the full year. Payments are						
5	limited to \$40 per month for college students and \$20 per month for high school students. The proposed allotment based on the						
6	policy of the Department of Veterans Affairs represents only amounts for subsistence. Dependents over 18 years but not over 21						
7	years of age may file for assistance and receive same until the course is completed or until 27 years of age is attained, whichever						
8	first occurs. Assistance to widows is limited to not more than four years duration.						
9	While the enrollment of widows is beginning to decrease, a constant increase in the enrollment of orphans can be expected.						
10	The amount proposed will provide assistance to 165 summer session students, 623 fall semester students, and 662 spring semester stu-						
11	dents.						
12	This program is estimated to cost \$21,360 more than in 1951-52 or a 13.7 percent increase. It should be noted that the needs of the pro-						
13	gram exceed the annual recurring \$150,000 appropriation from the State Lands Act Fund.

18	<b>GENERAL ANALYSIS</b>				
19	<b>Number of Positions:</b>				
20	Civilian -----	463.5	492.6	495.6	3
21	Member -----	100.4	107.9	110.9	3
22	<b>POPULATION AND UNIT COSTS</b>				
23	Average number population -----	1,440	1,655	1,770	115
24	Cost per member -----	\$1,425	\$1,478	\$1,426	-\$52
25	Total expenditures proposed for 1952-53 represent an increase of \$77,483 or 3.2 percent over 1951-52 estimates. Estimated average population for 1952-53 represents an increase of 115 or 6.9 percent over 1951-52. Payments from the Federal Government are estimated to continue at \$500 per year per member and account for an estimated reimbursement of \$852,526 in 1952-53 or an increase of \$67,380 over the 1951-52 estimate, thus partially offsetting the cost to the General Fund.				
26	The 1952-53 program reflects increased population and capacity as a result of full year operation of one 198-bed domiciliary barracks and a 56-bed women veterans' building to be opened in 1951-52 and another 198-bed domiciliary barracks to be opened in 1952-53 and increased expenditures related thereto. A new modern laundry and dry cleaning plant will be in operation. Burials at the National Cemetery at San Bruno have superseded burials at the home and farming activities will generally be eliminated.				
27	<b>SALARIES AND WAGES:</b> The increase of \$31,890 is largely the result of 8.3 new civil service and member positions and replacement of two members by civil service personnel as follows:				
28	1 Storekeeper I (replacing one storekeeper, member) -----				\$1,344
29	Increased work load and heavy lifting in the storeroom, resulting from the increased number of facilities and increased population, together with the advancing age and physical disabilities of the members, require the replacement of a working member with civil service help. One member storekeeper must be retained to man the other storerooms.				
30	1 Institution food administrator I -----				3,900
31	This position is proposed to act as head dietician and to be in charge of the hospital feeding program. Special diets are prepared and served 16 hours per day, seven days per week. An increase from two to three in dieticians is required in order that one be on duty during all preparation and serving periods.				
32	1 Laundress -----				2,520
33	The addition of one domiciliary barracks and the women veterans' building in 1951-52 and another domiciliary barracks in 1952-53 will add 452 beds to the home. This, together with a revision in the type of clothing, substituting more cotton for woolen trousers, will increase the laundry and decrease dry cleaning in the new new laundry building operations and will require this additional position.				
34	1 Seamstress -----				3,060
35	A dry cleaning plant is to be included in the new laundry building, thereby eliminating the previous contract for this service. The cleaning and pressing operations will be handled by the present staff; however, an additional seamstress will be required for alterations, repairs, sewing and belt loops, button sets, etc., previously included under contract.				
36	1 Company commander, member, effective January 1, 1953 -----				762
37	1 First sergeant, member, effective January 1, 1953 -----				570
38	These two positions are proposed in accordance with the established dormitory staffing pattern for the new 198 bed domiciliary barracks anticipated to be occupied January 1, 1953.				
39	1 Member of the guard, member -----				1,140
40	The guard positions require six posts plus four relief for 365 day operations. There are now nine established positions. The six posts to be covered are: (3) 24 hour traffic control at main intersection within the home, (1) night patrol of grounds, (1) day guard at guard house, and (1) evening shift at main gate.				
41	<sup>a</sup> Composed of savings in salaries and wages, \$16,150; operating expenses, \$44,011; and loss in reimbursements, \$5,620.				
42	<sup>b</sup> Composed of savings in operating expenses, \$4,714; equipment, \$1,625; and excess reimbursements, \$1,616. Operating expense savings are entirely due to substitution of oleomargarine for butter, effective January 1, 1952.				
43	<sup>c</sup> Contributions from the Federal Government are not included in the over-all budget totals, either as revenues or expenditures. For summary of federal aid funds, see Schedule II.

------	--------------	-------------------	----------------------	---------------------	------------------------

GENERAL ANALYSIS—Continued

SALARIES AND WAGES—Continued

1	Intermediate stenographer-clerk				\$2,640
2	This position is required to provide adequate clerical assistance to the recreation and welfare officer who is				
3	responsible for the educational, recreational, and occupational program for the members. Many contacts with				
4	outside organizations and extensive correspondence is required. The present clerk shared by this officer and				
5	the chaplain is inadequate.				
6	1 Gynecologist (part time)				1,200
7	1 Pathologist (part time)				2,400
8	Two days per month in the former and four days per month in the latter are proposed. The gynecologist				
9	is required in connection with the new women's veteran's unit. The pathologist has been found necessary in				
10	the medical program of the hospital and the clinical laboratory. Medical specialist services have been found				
11	necessary in the hospitals of the Department of Mental Hygiene.				
12	1 Assistant fatigue sergeant, member				1,140
13	The present fatigue sergeant assigns an average of 190 men a day. This will increase to 250 men a day in				
14	1952-53 with the increased capacity. Assignments should be covered at least twice per day. About 20 fatigue				
15	details are assigned to the main dining room, kitchens, bakery, butcher shop, laundry, greenhouse, and ground				
16	crews. Additional details will be assigned as ground crews for 15 additional acres of lawns and shrubs in				
17	1952-53. Additional supervision of assignments is required.				
18	1 Institution mechanic (laundry)				3,720
19	The new laundry and dry cleaning plant with extensive modern equipment will require daily servicing,				
20	adjustments, and repairs by a qualified mechanic. Similar service has been provided in the Department				
21	of Mental Hygiene.				
22	1 Assistant institution automobile mechanic (replacing one automobile mechanic, member)				956
23	Twenty-four trucks, tractors, and automobiles, as well as power mowers, compressors, etc., must be con-				
24	stantly maintained. It has recently been necessary to contract out auto repair work because of difficulty in				
25	the use of the member position. Two civil service positions should eliminate this costly procedure.				

OPERATING EXPENSES: The increase of \$48,336 is generally due to expanded population and plant. Also, feeding costs have been adjusted downward to reflect the number of members regularly eating at the home rather than the daily population. Initial clothing complements for the new women's veterans' unit in 1951-52 and the new domiciliary barracks in 1952-53 have been provided. Both clothing and laundry reflect the use of more cotton trousers in lieu of wool and the operation of the new laundry and dry cleaning plant. Burials include transportation for burials at the National Cemetery at San Bruno which have superseded burials at the home. Farming activities will be limited to grain hay and an orchard in 1952-53 which also are reflected in surplus products sales.

EQUIPMENT: A total of \$41,297 is proposed, a decrease of \$12,772 under the 1951-52 estimate. Additional equipment includes such significant items as special medical equipment, mechanized equipment for grounds maintenance, sewer and pipe pump and cleaner, and one 1½ ton truck.

## WOMAN'S RELIEF CORPS HOME

The Home is for the custodial, medical and nursing care of the widows, destitute unmarried daughters and sisters of Union Veterans of the Civil War and for nurses who served in that war. Admissions to the Home have been closed since 1947 and the present population is 22.

The Home is located near San Jose in Santa Clara County.

20	Number of positions -----	18.5	18	18	-
21	<b>POPULATION AND UNIT COSTS</b>				
22	Average member population -----	24	20	17	-3
23	Cost per member -----	\$3,159	\$3,739	\$4,387	(\$648)
24					(17.3%)
25	Although the total membership has been decreasing approximately 15 percent per year since 1947-48 the number of bedridden cases is increasing with the increased age of the membership. On the basis of this trend the present minimal staff could not be reduced further until 1954-55 when the total membership would decrease to 12. It is evident therefore that the State may look forward to increasing per capita costs unless the remaining membership could be placed in nursing homes near the relatives and/or placed in groups in other facilities for the aged where larger populations should reduce the per capita cost.				
26	SALARIES AND WAGES: The increase of \$309 is due to the increased cost of merit adjustments which is largely offset by the increased salary savings estimate.				
27	OPERATING EXPENSES: The decrease of \$811 is generally due to the decreasing membership. Medical care is increased \$600 to provide for additional medications for the aging membership.				
28	EQUIPMENT: No change from the current year is anticipated. Small miscellaneous items only are requested.

Special appropriations—Chapter 1569, Statutes of 1951, Old Age and				
Survivors Insurance Revolving Fund	-	\$10,000	-	
TOTAL EXPENDITURES	-	\$10,000	\$2,000,000	\$1,990,000

## GENERAL ANALYSIS

Provision is made for working capital and revolving fund augmentation to meet increased costs and changing programs as they develop. Such augmentation is for the Ballot Paper Revolving Fund to meet the increased cost of paper, the Correctional Industries Revolving Fund to establish a cotton processing plant at San Quentin State Prison for the manufacture of cloth to be used in making sheets, towels, white uniforms, and other cotton goods, the Purchasing Revolving Fund to meet increased costs and increased needs of this operation, and the Workshops for the Blind Manufacturing Fund to finance the costs of an enlarged operation based on the Federal Department of Defense contracts. The appropriation provided herein is to be allocated in such amounts and for such periods as the Director of Finance may authorize.

<sup>a</sup> The expenditures of these funds are not included in the over-all budget totals.

## GENERAL ANALYSIS

By the Budget Act of 1951 a Salary Increase Fund was appropriated to make funds available to cover the 1951-52 Fiscal Year costs for the general salary increase of approximately 5 percent, effective January 1, 1951, and to cover the costs of additional increases averaging 5 percent of salaries for the fiscal year beginning July 1, 1951. Also included was an amount for special adjustments of inequalities in salaries in certain classes.

A limitation was placed in the appropriation to the effect that increases in salaries made by any administrative salary fixing authority during the 1951-52 Fiscal Year may not exceed an annual cost to the General Fund of \$8,000,000.

There are included in the expenditures in each agency budget the amounts allocated from the Salary Increase Fund for all salary increases granted to November 3, 1951. The amounts so included total \$12,197,208 in the 1951-52 Fiscal Year for General Fund agencies. It is estimated that to June 30, 1951, there will be additional allocations in the amount of \$1,630,261 which amount is included as a lump sum expenditure from the Salary Increase Fund and not included in the expenditures of the agency budgets.

The actual and estimated allocations totaling \$13,827,469 (consisting of \$12,197,208 in agency budgets and \$1,630,261 lump-sum additional allocations estimated to June 30, 1951), is divided into \$7,009,411 applicable to increases made during the 1950-51 Fiscal Year and \$6,818,058 applicable to increases made in the 1951-52 Fiscal Year.

The cost of the actual and estimated increases granted during 1951-52 represent an annual cost of \$7,781,288, as compared to the \$8,000,000 limitation provided in the appropriation for the Salary Increase Fund.

For the 1952-53 Fiscal Year it is necessary to provide in a Salary Increase Fund funds to be available for those increases granted subsequent to November 3, 1951, for which funds are not provided in the agency budgets. This amount is estimated at \$2,523,998 for General Fund employees. In addition an amount of \$9,542,267 is proposed in order to grant general increases of approximately 5 percent as recommended by the State Personnel Board, and for other special increases for equalization of salary inequities.

a Savings due largely to use of excess salary savings in agency appropriations in lieu of the salary increase appropriations.

b Composed of the following approximate amounts: \$210,000 because the \$8,000,000 annual cost limitation would be exceeded; \$335,000 because academic salary increases at state colleges and the University of California were not effective until October 1, 1951; \$310,000 because University of California over-all salary increase program less than estimated; \$80,000 applicable to budgeted positions eliminated by the Legislature; and \$693,000 due largely to use of excess salary savings in agency appropriations of which \$460,000 resulted from savings in the number of teachers at state colleges and excess federal reimbursements for the education of veterans.

61	Interest	202,500	185,625	168,750	
62	Redemption	375,000	375,000	375,000	

<sup>a</sup> Of the \$250,000,000 authorized bonds, \$175,000,000 have been issued to January 9, 1952. It is estimated that the balance of \$75,000,000 will be issued during the 1952-53 Fiscal Year.

<sup>b</sup> The Public School Building Bonds were issued to provide funds to be loaned to the local school districts, therefore, the expenditure for debt service on these bonds is considered as assistance to local governments and is shown under the Local Assistance Budget, Subventions for Education.

<sup>c</sup> The various bond acts provide for payment from the General Fund, but as the General Fund is reimbursed from the Bond Sinking Fund of 1943, as provided by Chapter 611, Statutes of 1943, these amounts are shown as expenditures of the Bond Sinking Fund of 1943.

<sup>d</sup> Donated funds. Neither receipts nor expenditures are included in the budget totals. These bonds are obligations of the General Fund, but are currently financed by donated funds accepted under the provisions of Chapter 366, Statutes of 1933.

<sup>e</sup> A bond fund, neither receipts nor expenditures are included in budget totals. This fund was abolished by Chapter 220, Statutes of 1951, and the balance remaining was transferred to the Interest and Sinking Fund and was available for payment of interest that would otherwise be payable from the Bond Sinking Fund of 1943.

<sup>f</sup> Does not include San Francisco Harbor Bonds nor Veterans Farm and Home Building Bonds which are general obligation bonds, but are primarily obligations of the respective utility funds.

<sup>g</sup> Interest, principal, and Sinking Fund payments on these issues to their final maturities are covered by transfers from the Bond Sinking Fund of 1943.

<sup>h</sup> Donated funds have been set aside in the Olympic Bond Fund for payment of interest and redemption on these bonds.

<sup>i</sup> Interest and redemption on these bonds are covered by motor vehicle license fee revenues transferred to the General Fund.

53	Unbudgeted Surplus, June 30 .....	\$519,080	\$492,842	\$466,729
54				
55				
56	<sup>i</sup> Interest and redemption on these bonds are covered by motor vehicle license fee revenues transferred to the General Fund.			
57	<sup>j</sup> Estimated sale of \$75,000,000 during the 1952-53 Fiscal Year.			
58	<sup>k</sup> With the exception of the Sinking Fund payment on the Sacramento State Buildings Bonds of 1913, the debt service expenditure			
59	for each fiscal year include interest and redemption payments due on July 2d of the succeeding fiscal years, which are disbursed			
60	from the Treasury on May 30th for transmittal to the State's fiscal agent in New York City.			
61	<sup>l</sup> Includes \$5,000,000 transferred to the Highway Fund as a loan for the Golden Gate Bridge and Highway District, to be repaid out			
62	of toll revenues after the bonded indebtedness of the district has been retired.

## DEPARTMENT OF AGRICULTURE

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2	<b>REAL PROPERTY ACQUISITION</b>			
3				
4	Analysis			
5				
6	Acquisition of a site for the Banning-Beaumont fruit and vegetable highway inspection station is recommended as present facilities are inadequate.			
7				
8	Acquisition of site for Banning-Beaumont fruit and vegetable standardization inspection station-----	-	-	\$9,000
9	Acquisition of site for Petaluma animal and poultry disease diagnostic laboratory-----	\$8,146	-	-
10				
11	<b>TOTAL EXPENDITURES (Real Property)-----</b>	<b>\$8,146</b>	<b>-</b>	<b>\$9,000</b>
12	<i>Capital Outlay and Savings Fund (COSF)-----</i>	<i>-</i>	<i>-</i>	<i>9,000</i>
13	<i>Fair and Exposition Fund (FEF)-----</i>	<i>8,146</i>	<i>-</i>	<i>-</i>
14				
15	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT</b>			
16				
17	Analysis			
18				
19	The replacement of inspection stations which are inadequate and outmoded for handling present day traffic is recommended for the 1952-53 Fiscal Year.			
20				
21	Plant Quarantine Inspection Stations:			
22	Tulelake (COSF) (Replacing Item 254, Budget Act of 1945, \$81,575, deferred by Section 3.4, Budget Act of 1951)-----	-	-	\$76,270
23	Peavine (COSF) (Replacing Item 254, Budget Act of 1945, \$81,575, deferred by Section 3.4, Budget Act of 1951)-----	-	-	76,270
24	Yermo (COSF) (Replacing Item 283, Budget Act of 1950, \$132,384, deferred by Section 3.3, Budget Act of 1951)-----	-	-	155,061
25	Coleville (COSF)-----	-	-	76,270
26	Alturas (COSF)-----	-	-	85,450
27	Benton (COSF)-----	-	-	85,450
28	Fruit and Vegetable Standardization Inspection Stations:			
29	Banning-Beaumont (COSF)-----	-	-	22,560
30	Plant Quarantine Inspection Stations:			
31	Daggett (COSF)-----	\$135,308	\$35,527	-
32	Meyers (COSF)-----	43,284	31,259	-
33	Truckee Wye (COSF)-----	86,594	1,200	-
34	Yermo (COSF)-----	124,765	-	-
35	Hornbrook (COSF)-----	659	1,200	-
36	Animal and Poultry Disease Diagnostic Laboratories:			
37	San Gabriel (COSF)-----	381	221	-
38	Fresno (COSF)-----	25,263	4,737	-
39	Petaluma (COSF)-----	-	59,850	-
40	Petaluma (FEF)-----	10,000	216,854	-
41	Unexpended Balances Transferred From Architecture Revolving Fund:			
42	Deferred Projects:			
43	Plant quarantine inspection station at Yermo-----	-	-120,641	-
44				
45	<b>TOTAL EXPENDITURES (Major Construction)-----</b>	<b>\$426,254</b>	<b>\$230,207</b>	<b>\$577,331</b>
46	<i>Capital Outlay and Savings Fund (COSF)-----</i>	<i>416,254</i>	<i>13,353</i>	<i>577,331</i>
47	<i>Fair and Exposition Fund (FEF)-----</i>	<i>10,000</i>	<i>216,854</i>	<i>-</i>
48				
49	<b>MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT</b>			
50				
51	Analysis			
52				
53	Provision is made for minor improvement and repair of facilities at various inspection stations to improve service and minimize inconvenience to those undergoing inspection; and for office space and grounds improvements at the Fresno laboratory.			
54				
55	Fruit and Vegetable Standardization Stations:			
56	Inspection platform and shelter-----	\$300	-	\$12,170
57	Fresno Animal Pathology Laboratory:			
58	Fencing and grounds improvements-----	-	-	6,000
59	Office-----	-	-	13,750
60	Plant Quarantine Stations:			
61	Inspection shelter-----	-	-	10,230
62	Relocation of buildings-----	-	-	2,985
63	Driveway improvements-----	2,282	\$3,665	-
64	Water and refrigeration facilities-----	4,826	2,450	-
65	Fencing and grounds improvements-----	-	1,895	-
66	Miscellaneous improvements-----	1,137	-	-
67				
68	<b>TOTAL EXPENDITURES (Minor Construction)-----</b>	<b>\$8,545</b>	<b>\$8,010</b>	<b>\$45,135</b>
69				
70	<b>TOTAL EXPENDITURES, CAPITAL OUTLAY-----</b>	<b>\$442,945</b>	<b>\$238,217</b>	<b>\$631,466</b>
71	<i>General Fund (GF)-----</i>	<i>8,545</i>	<i>-</i>	<i>-</i>
72	<i>Capital Outlay and Savings Fund (COSF)-----</i>	<i>416,254</i>	<i>21,363</i>	<i>631,466</i>

## DEPARTMENT OF CORRECTIONS

LINE	SUMMARY	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1	<b>GENERAL ANALYSIS</b>			
2				
3				
4	The capital outlay program for the Department of Corrections is designed to reduce the number of inmates housed in temporary structures and to reduce overcrowded conditions.			
5	As of June 30, 1951, the capacity of all permanent and semipermanent facilities was 5,478, temporary facilities housed 3,164 and the remainder of the 11,715 population, 3,073, accounted for the 35.6 percent overcrowding.			
6	The program, including the preparation of plans, reflected in the 1952-53 Governor's Budget, should reduce the overcrowding to 849 or 6.2 percent in 1958, if necessary construction funds are allowed in future budgets.			
7	Provision is made for construction of the permanent Medical Facility at Vacaville to a capacity of 1,400 (an increase of 800) and the preparation of preliminary plans for the final 400 capacity in the guidance center to bring the total bed capacity to 1,800.			
8	At the Institution for Men, provision is made for two new cell buildings with a capacity of 500 inmates to relieve temporary housing and overcrowding. In addition, a vocational shop building and an addition to the furniture factory are also provided.			
9	No additional capacity is provided for the State Prison at Folsom and the program calls for a new metal stamping building; the completion of an incinerator; and the completion of the installation of showers in the cell blocks. Overcrowding will be reduced by additional capacity at other institutions.			
10	No additional capacity is provided for the State Prison at San Quentin, but the addition of capacity at other locations will relieve the overcrowded conditions at San Quentin. Projects included in the 1952-53 Governor's Budget are for the completion of the following: mess hall renovation; an equipment shed and garage; and a fresh water reservoir. In addition, provision is made for the paving of the industrial and water-front areas.			
11	An industries building for the manufacture of tubular furniture is the only major project included for the Deuel Vocational Institution.			
12	A cottage of 100 capacity is provided for the Institution for Women to keep pace with the estimated growth of population.			
13	Minor construction projects are included to make necessary repairs in order to partially renovate and properly maintain existing facilities.

## Medical Facility

## Analysis

The present temporary institution was opened in 1950 using leased facilities in Los Angeles County on the south end of Terminal Island at San Pedro. These were formerly used as naval disciplinary barracks. The main buildings are made of reinforced concrete, and auxiliary and industrial buildings are built of wood, stucco, and prefabricated steel. The inmate capacity is 1,000.

The new permanent institution will provide special custody of inmates who are mentally defective, chronically ill, narcotic addicts, sex offenders, or otherwise physically or mentally abnormal. Close custody will be provided in the reception center unit for observation and study of new commitments, prior to assignment to other institutions. Due to the nature of the institution there will be a limited training program and the emphasis will be on treatment. Reinforced concrete housing will be provided for approximately 600 inmates initially with ultimate expansion to 1,800 capacity. The site for the institution is located in Solano County about two miles south of Vacaville and consists of 903 acres of land, of which approximately 100 acres are to be used for inmate and employee building areas. The completion of the initial 600-capacity unit will be in the 1954-55 Fiscal Years. An increase in capacity to 1,400 is included in this budget.

## MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

## Expenditures From Budget Act Appropriation (COSF):

Construct Units No. 2 and 3 to provide additional capacity for 800 inmates (replacing Item 273, Budget Act of 1951, \$1,060,411, deferred by Section 3.3)	—	—	\$4,909,500
Construct Unit No. 1 of permanent medical facility	—	\$5,655,500	—
Equip Unit No. 1 of permanent medical facility	\$32,972	27,028	390,000
Reservoir	95,000	—	—
Sewage treatment plant	150,000	—	—
Wells and pumping equipment	30,000	—	—
<b>TOTAL EXPENDITURES (Major Construction)</b>	<b>\$307,972</b>	<b>\$5,682,528</b>	<b>\$5,299,500</b>

## MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Miscellaneous projects and original complements of supplies	—	—	\$25,000
Miscellaneous projects to provide for minor alterations and repairs	—	\$25,000	—
Miscellaneous projects and original complements of equipment	\$23,533	1,467	—
<b>TOTAL EXPENDITURES (Minor Construction)</b>	<b>\$23,533</b>	<b>\$26,467</b>	<b>\$25,000</b>

3				
4				
5	Analysis			
6				
7	This is primarily a minimum security prison with an extensive agricultural and industrial program. About half of the 1,500 inmates are			
8	housed in permanent facilities. The institution is located in San Bernardino County about two miles south of Chino on 2,566 acre			
9	of land. It was opened in 1941 and consists of reinforced concrete permanent main buildings, semi-permanent steel industrial build			
10	ings, frame farm buildings, and temporary steel barracks buildings for dormitories and classrooms. The construction program unde			
11	way is principally for the replacement of obsolete temporary facilities and for completion of the institution.			
12	The southern reception center is located on a 15 acre portion of the Chino site. The clinic is of reinforced concrete construction with			
13	capacity of 400 inmates. Construction of this unit was completed in the 1951-52 Fiscal Year. Major items for 1952-53 include re			
14	placement of outside temporary barracks, a vocational building, and a furniture factory addition.			
15

1	<b>State Prison at San Quentin</b>			
2				
3				
4				
5	Analysis			
6				
7	This is a general purpose prison with an extensive industrial program. The permanent facilities are constructed of reinforced concrete			
8	and have a normal capacity of 2,750 inmates. The institution is located in Marin County three miles southeast of San Rafael on			
9	a 404-acre site with a very limited area suitable for buildings. The prison was opened in 1852. At the present time a major rehabil-			
10	itation program is under way to replace obsolete buildings and service facilities.			
11				
12				
13	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
14	<b>AND EQUIPMENT</b>			
15				
16	<b>Expenditures From Budget Act Appropriation (COSF):</b>			
17				
18	Modernize inmate mess hall, including new floor, new tables and			
19	serving tables, repairs to tile wainscot, and complete repaint-			
20	ing of the interior (Replacing Item 278, Budget Act of 1951,			
21	\$223,200, deferred by Section 3.3)	-	-	\$241,000
22	Construct and equip equipment shed and garage to protect heavy			
23	equipment and motor vehicles (partial cost)	-	-	16,655
24	Convert old fresh water reservoir to salt water use (partial cost)	-	-	29,560
25	Surface and pave roads in industrial area	-	-	30,000
26	Preliminary plans for commissary, laundry, and maintenance shops			
27	buildings to further develop the over-all rehabilitation pro-			
28	gram	-	\$26,200	-
29	Replace boiler room stack	\$27,550	-	-
30	New foundry	48,000	-	-
31	Sewage disposal plant	335,375	-	-

1				
2				
3	<b>State Prison at Soledad</b>			
4				
5	<b>Analysis</b>			
6				
7	This is a medium custody institution with an agricultural and vocational training program. Construction of permanent facilities of rein-			
8	forced concrete was completed in December, 1951 to house 1,500 inmates. The temporary unit houses 400 inmate farm workers in			
9	prefabricated steel buildings. The institution is located in Monterey County about four miles north of Soledad on 936 acres of land			
0	of which approximately 100 acres are used for inmate and employee buildings areas. The remainder of the site is used for an extensive			
1	agricultural program. One major project, construct and equip an industries building to activate an industrial program, is proposed			
2	for 1952-53.			
3				
4				
5	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
6	<b>AND EQUIPMENT</b>			
7				
8	<b>Expenditures From Budget Act Appropriation (COSF):</b>			
9				
0	Construct and equip industries building to provide facilities to			
1	activate an industrial program-----	-	\$592,000	\$613,500
2				
3	<b>Expenditures From Special Appropriations (COSF):</b>			
4				
5	Construct permanent main prison buildings-----	\$6,869	-	-
6	Original complement of equipment for permanent prison-----	846,112	135,524	-
7	Purchase and erect temporary steel buildings-----	5,679	-	-
8	Replace wood floor with cement floor in Dormitory No. 1-----	333	-	-
9	Building and equipment for vocational education-----	2,489	-	-
0	Erect addition to hospital for clinic, X-ray room, laboratory, and			
1	storage space-----	3	-	-
2	Install electric outlets and replace wiring in temporary buildings	-	696	-
3	Equipment for postwar construction-----	2,760	1,864	-
4	Unexpended Balance Transferred From Architecture Revolving			
5	Fund:			
6	Completed Projects:			
7	Purchase and erect 26 quonset-type buildings for employees'			
8	residences and farm buildings-----	-14,792	-	-
9				
0	<b>TOTAL EXPENDITURES (Major Construction)-----</b>	<b>\$849,453</b>	<b>\$730,084</b>	<b>\$613,500</b>
1				
2				
3	<b>MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
4	<b>AND EQUIPMENT</b>			
5				
6	Replace plastic windows and lightweight window frames in the tem-			
7	porary barracks buildings-----	-	-	\$6,500
8	Resurface with black top, roads oiled in 1948 within the temporary			
9	barracks area-----	-	-	7,000
0	Construct an additional poultry laying house of 1,000-hen capacity to			
1	increase egg production so as to supply the needs of San Quentin			
2	Relocate irrigation lines because of construction of permanent facil-			
3	ities-----	-	-	2,500
4	Provide service porches for quonset residences-----	\$11,166	\$2,199	-
5	Install natural gas lines from meter point to boilers and kitchens to			
6	discontinue the use of fuel oil and provide for more economical			
7	operation-----	-	5,100	-
8	Convert present facilities to farm unit to relieve overcrowded con-			
9	dition-----	-	9,200	-
0	Replace hot water heaters and space heaters in residences to provide			
1	for more economy and safety-----	-	4,025	-
2	Alter existing employee housing units and convert other units to			
3	provide additional and more comfortable facilities-----	-	8,800	-
4	Construct waiting room at bus stop to provide facilities for visitors---			
5	Construct recreational facilities at present institution to provide			
6	more adequate and satisfactory recreation area-----	-	500	-
7	Shelters for official automobiles-----	21	-	-
8	Purchase original complement of poultry-----	510	-	-
9	Provide steam lines at present facilities for heating (GF)-----	11,816	-	-
0	Provide piping for central gas supply to residences (GF)-----	2,100	-	-

3				
4	Analysis			
5				
6	The new institution will be primarily a medium custody prison with an agricultural-vocational training and treatment program. It will			
7	house 1,200 inmates in reinforced concrete facilities. The site for the new institution is located in San Joaquin County about four			
8	miles east of Tracy and consists of 783 acres of land of which approximately 80 acres are to be used for inmate and employee			
9	housing areas. The remainder of the site will be used for farming activities. The new institution will be completed in the 1952-53			
10	Fiscal Year. The present institution at Lancaster is located in temporarily leased facilities and houses 550 inmates.

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1	<b>Institution for Women</b>			
2				
3				
4				
5	Analysis			
6				
7	The present institution is located near Tehachapi, Kern County. Due to its isolated location it has been almost impossible to obtain a			
8	working staff. A minimum of construction and improvement projects is being undertaken at the present time.			
9	The new institution for women includes all types of custody and is also the reception center for new commitments. It will have an			
10	industrial-vocational training and treatment program. Reinforced concrete housing will be provided for approximately 400 inmates			
11	initially with ultimate expansion to 600 inmates capacity. Additional housing for 100 inmates is included in the 1952-53 Fiscal Year.			
12	The site for the institution is located in San Bernardino County about seven miles northwest of Corona and consists of 120 acres of			
13	land. The completion date is estimated at November 1, 1952.			
14

## Department of Corrections

## YOUTH AUTHORITY

LINE	SUMMARY	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2				
3	<b>GENERAL ANALYSIS</b>			
4				
5	Although, under existing law, the Youth Authority may refuse commitments if facilities are not available, the backlog of boys and girls			
6	in county jails remains high. The program of the Youth Authority is to increase the capacity of its facilities from 2,071 in 1951 to			
7	3,556 in 1957, an increase of 1,485 or 71.7 percent, assuming release of site and plans funds and appropriation of construction funds			
8	for the California Youth Training School in future budgets.			
9	In addition to building additional capacity, many existing facilities are to be remodeled or replaced to provide more adequate and more			
10	modern accommodations.			
11	Fricot Ranch School for Boys will be completed to ultimate capacity of 162 during the 1951-52 Fiscal Year. Projects included in the			
12	1952-53 Governor's Budget provide for an improvement of the water supply and the construction of a maintenance shop building.			
13	No new capacity is contemplated for Fred C. Nelles School for Boys, but inferior existing structures are to be repaired or replaced.			
14	During the period from 1951 to 1955 the capacity of Paso Robles School for Boys will be increased from 150 boys housed in temporary			
15	tar paper covered buildings to 380 in modern permanent buildings. Plans for 1952-53 call for the commencement of construction of			
16	one additional 50-boy dormitory and necessary educational, recreational and administrative facilities.			
17	The capacity of the Preston School of Industry is scheduled to be decreased from 762 as at present to a more reasonable size of 600 in			
18	1955. This will be accomplished by the completion of two reception centers in 1955 and by the utilization of increased capacity else			
19	where. All construction at Preston is to be for the replacement of the older condemned buildings with modern permanent facilities.			
20	The program for 1952-53 calls for the replacement of three dormitories and a cottage to house boys assigned to the farm.			
21	Los Guilucos School for Girls is scheduled to increase to a capacity of 250 by 1954 by the addition of two 40-girl dormitories in the			
22	1952-53 Fiscal Year.			
23	The Ventura School for Girls is to be moved to a new location and increased to a total capacity of 340. The first unit, with a capacity			
24	of 250 girls, is provided for in 1952-53 Governor's Budget.			
25	An additional 50-boy dormitory for the Southern California Reception Center is provided for in 1952-53. This will complete the ulti-			
26	mate capacity of 350 to be attained in 1956. The Northern California Reception Center was previously financed to 150 capacity.

<sup>a</sup> Sections 1731.5 and 1736 of the Welfare and Institutions Code provides that the Youth Authority may accept commitments if facilities are available. Because of these sections of the code, the Youth Authority does not have resident population in excess of designed or temporary capacity. The above estimates are based on the assumption that there will be no change in the code. Population is estimated at approximately 95 percent of total capacity to allow for turnover.

<sup>b</sup> Inmates housed in permanent buildings within rated capacity.

<sup>c</sup> Housing capacity in temporary buildings.

<sup>d</sup> Includes clinic operated at Preston up to June 30, 1955, when separate clinics will be in operation.

<sup>e</sup> These wards will come from the counties and Preston and not as transfers from the Vocational Institution at Tracy.

<sup>f</sup> Capacity in existing dormitories will be reduced as new facilities are placed in operation.

## Youth Training School

## Analysis

Chapter 303, Statutes of 1949, added Section 1250 to the Welfare and Institutions Code which provides for "an institution for the confinement of males to be known as the Youth Training School." It is contemplated that it will be located in the Southern California area. It is planned that this school will ultimately house 600 wards of the age group 16 to 21, and will have a vocational and educational type of program with a limited scope farming program. Appropriations for real property acquisition and preliminary plans and specifications were deferred by the Budget Act of 1951.

1	<b>Northern California Reception Center and Clinic</b>			
2				
3				
4				
5	Analysis			
6				
7	This institution will be located east of Sacramento near Perkins approximately seven miles from Sacramento. This facility will receive			
8	all wards committed from Northern California. New wards will receive psychological, psychiatric, educational, medical, and dental			
9	examinations and then will be assigned to one of the Youth Authority facilities. The units will be one-story and of reinforced concrete			
10	construction with radiant heating. Sleeping quarters will all be single rooms. The clinic site is approximately 17 acres. Initial			
11	construction will house 150 wards with an ultimate planned capacity of 250. It is expected that construction will be completed in			
12	the 1953-54 Fiscal Year. The buildings included are administration, admission, medical unit, clinic unit, kitchen, dining rooms, cottages,			
13	commissary, recreation, education, laundry, maintenance, and staff housing.

## Southern California Reception Center and Clinic

## Analysis

This facility will be the same as the Northern Reception Center and Clinic with the exception that the site is approximately 34 acres. The initial buildings will have a capacity of 300 with an ultimate capacity of 350. All wards committed from Southern California will be received at this facility.

The first unit for which financing has been made available will provide bed space for 300. It is expected that construction will be completed in the 1954-55 Fiscal Year. The buildings included are administration, admission, medical unit, clinic unit, kitchen, dining rooms, cottages, commissary, recreation, education, laundry, maintenance and staff housing. The second portion of the construction program will increase the bed capacity to 350 and plans call for occupancy in the 1955-56 Fiscal Year.

## REAL PROPERTY ACQUISITION

Purchase of a site in Southern California for use as a reception center and clinic -----

\$7,120

-

-

## MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

## Fricot Ranch School for Boys

## Analysis

Fricot Ranch School for Boys is located in the foothills, 11 miles from San Andreas, California, at an elevation of approximately 1,700 feet. The general terrain of the country is mountainous. The new construction is of concrete floor slab with radiant heating, frame walls and ceilings. The type of architecture is modern. Of the total of 1,090 acres, buildings are located on approximately 50 acres. The present capacity is 150 wards consisting of three dormitories housing 50 boys each. At the completion of the present building program, the capacity will be 162 boys, including hospital and detention units. The hospital and receiving dormitory, school, and gymnasium buildings will be completed by July, 1952.

## MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

## Expenditures From Budget Act Appropriation (COSF):

Construct and equip maintenance shop building to house carpentry shop, plumbing shop, building maintenance shop, paint shop, and auto shop	-	-	\$72,500
Seal two reservoirs to prevent leakage	-	-	25,000
Install pipeline to replace earthen ditch carrying water to the institution (second year of five year program)	-	-	25,000
Replace earthen water ditch with pipeline (first year of five year program)	-	\$25,000	-
Construct five residences to replace three substandard houses and provide two additional units for staff members	-	63,000	-

## Expenditures From Special Appropriations (COSF):

Equip dormitories, storeroom, commissary, kitchen, and dining room	\$21,944	18,053	-
Infirmery and receiving dormitory	-	15,000	-
Repair water ditch and water storage tanks	2,306	-	-
Fire fighting equipment	1,045	-	-
Labor to clean out earthen sections of flumes, probe for and seal leaks and renew flume sections	170	-	-
Alterations to administration building	1,730	-	-
Seven classrooms, library, and administration building (partial cost)	-	15,000	-
Construct school building infirmery and an assembly and gymnasium building (partial cost)	121,878	6,804	-
Unexpended Balances Transferred From Architecture Revolving Fund:			
Completed Projects:			
Two residences	-1,312	-	-

TOTAL EXPENDITURES (Major Construction) \$147,761 \$142,857 \$122,500

## MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Pave one mile of main road and one thousand yards of access roads	-	-	\$14,300
Construct service porches on residences three and four	-	-	1,000
Replace worn out chlorinator to provide adequate domestic water supply	-	\$1,500	-
Provide all weather access road to new dumping area	-	4,000	-
Alter administration boiler room to isolate from basement by fire-proof partition and metal self-closing door	-	250	-
Replace pipe line to farm and residence (GF)	\$3,800	-	-
Improve existing telephone line to Angels Camp (GF)	2,500	-	-
Extend pipe line from penstock to upper reservoir	16,000	-	-
TOTAL EXPENDITURES (Minor Construction)	\$22,300	\$5,750	\$15,300

3	<b>Fred C. Nelles School for Boys</b>			
4	<b>Analysis</b>			
5				
6	Fred C. Nelles School for Boys was constructed in 1890 at Whittier, California. School buildings are of brick construction with a normal capacity of 306 excluding the hospital and detention units. The buildings are in good condition, excluding some cracks in the walls caused by an earthquake in the thirties. The program calls for the construction of an admission unit and a detention and restriction building to augment existing facilities.

6	<b>Paso Robles School for Boys</b>			
7	<b>Analysis</b>			
8	The Paso Robles School for Boys is located approximately six miles northeast of the town of Paso Robles. The school now occupies			
9	the former site of the Estrella Army Air Base. The school site covers 203 acres and the new institution will occupy an area of approx-			
10	imately 40 acres. The present capacity of this school is 150 boys. When the present army barracks are completely replaced by perma-			
11	nent facilities the ultimate capacity will be increased to 380, as requested in the 1952-53 Budget. All buildings at this institution			
12	will be of single-story construction and will be of reinforced brick construction with radiant heating. Each dormitory will house 50			
13	boys and will be of dual type: single rooms and dormitories.			
14	The buildings for which funds have been made available will provide bed capacity for 330. These buildings are: administration, hospital,			
15	receiving, five cottages, kitchen, dining room, commissary, firehouse, school, gymnasium, vocational shops, and laundry. New			
16	facilities will be completed in the 1953-54 Fiscal Year.			
17	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>

2				
3	<b>Preston School of Industry</b>			
4	<b>Analysis</b>			
5				
6	Preston School of Industry was constructed in 1894 at Ione, California. The dormitories are of brick construction and have a normal			
7	capacity of 544, excluding the Youth Authority Clinic.			
8	The present condition of the buildings is fair to poor, with the exception of three dormitories, the administration building, and the gym-			
9	nasium which have been condemned by either the State Fire Marshal or the Division of Architecture. Replacement of the three			
10	dormitories is included in this budget.			
11				
12				
13	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>

1				
2				
3				
4				
5	Analysis			
6				
7	Los Guilucos School for Girls is located in the Santa Rosa Valley near Santa Rosa.			
8	The school property includes 420 acres. The building area will occupy approximately 40 acres. The capacity of the present institution			
9	is 132. At the completion of the postwar building program the total capacity will be 250 wards. The new school will be of reinforced			
10	concrete construction with radiant heating either in floor slabs or in the walls. All buildings will be of one-story construction.			
11	The first unit, consisting of the administration, hospital, receiving, detention units, two dormitories, kitchen, dining room and com-			
12	missary buildings, and mechanical and electrical services to house a total of 170 wards, will be completed in February, 1952. One			
13	additional dormitory will be completed in August, 1952, increasing the capacity to 210. The two dormitories included in this budget			
14	increase the capacity to 290 wards. At the time the new dormitories are placed in operation the capacity in existing dormitories			
15	will be reduced.			
16				
17				
18	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
19	AND EQUIPMENT			
20				
21	Expenditures From Budget Act Appropriation (COSF):			
22				
23	Construct and equip two 40-girl dormitories-----	-	-	\$360,400
24	Complete and equip academic school building to provide facilities			
25	for ultimate capacity (partial cost)-----	-	-	127,550
26	Construct and equip 400 capacity auditorium-----	-	-	177,800
27	Complete site development for new buildings-----	-	-	93,500
28	Alter existing culinary building to provide domestic science			
29	classrooms and provide equipment-----	-	-	24,215
30	Construct one 40-girl dormitory to provide additional capacity-----	-	\$143,400	6,600
31	Partial site development including part of cost to provide			
32	electrical, mechanical and sanitary services, and grading----	-	10,000	-
33				
34	Expenditures From Special Appropriations (COSF):			
35				
36	Construct and equip two 40-girl dormitories (partial cost)-----	\$243,600	30,000	-
37	Construct and equip six classrooms (partial cost)-----	81,000	9,000	-
38	Construct and equip gymnasium (partial cost)-----	96,800	7,500	-
39	Additional cost to construct two dormitories, six classrooms, and			
40	gymnasium-----	112,312	-	-
41	Construct and equip administration, detention and restricted			
42	buildings (partial cost)-----	-	31,000	-
43	Construct and equip kitchen, dining room, commissary and fire-			
44	house (partial cost)-----	-	18,000	-
45	Construct and equip maintenance building-----	-	2,500	-
46	Repairs to roofs, dormitories and kitchen (partial cost)-----	153	-	-
47	Construct and equip hospital and receiving buildings-----	-	45,000	-
48	Relandscaping and grounds improvements-----	124	-	-
49	Repair employees' cottages and water lines-----	264	-	-
50	Equipment for postwar construction-----	127	-	-
51				
52	TOTAL EXPENDITURES (Major Construction)-----	\$534,380	\$296,400	\$790,065
53				
54				
55	MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
56	AND EQUIPMENT			
57				
58	Raze old winery building to eliminate a hazard and nuisance-----	-	-	\$4,500
59	Miscellaneous maintenance projects in accordance with survey made			
60	by maintenance engineering staff of the Division of Architecture			
61	Renovate administration building including termite and bat control			
62	and repair of roof and skylights-----	-	\$7,185	-
63	Replace worn hot water heater in Casa Primera cottage-----	-	780	-
64	Fence openings into abandoned winery building to prevent entry----	-	470	-
65	Trim tops of trees which might be blown over-----	-	1,300	-

1	<b>Ventura School for Girls</b>			
2				
3				
4				
5	<b>Analysis</b>			
6				
7	The Ventura School for Girls is located in Ventura County. The present school was constructed in 1916 on hillside terrain. Present			
8	facilities are of cottage type, each cottage containing its own kitchen, dining room and living area. Dormitories are located on			
9	second story and consist of two 15-girl dormitories per cottage that are separated, making supervision difficult and expensive.			
10	The present plan is to construct a new institution on a new site on more level terrain, and replace the cottage-type facilities with regu-			
11	lar dormitories and central kitchen and dining area. This can effect considerable savings in maintenance and other operating			
12	costs as well as provide better training for the wards. The site will be acquired in the 1951-52 year. The first unit of the institu-			
13	tion is requested in 1952-53 and will include central facilities for the ultimate capacity of 340 as well as housing for 250 wards. The			
14	first unit will be completed in the 1954-55 Fiscal Year.

## Department of Education

## STATE COLLEGES, TECHNICAL COLLEGES AND SPECIAL SCHOOLS

## GENERAL CONDITION OF EXISTING FACILITIES

There are, at present, nine established state colleges, six of which are operating in permanent quarters which have been built to handle enrollments anticipated prior to World War II, and which have long since been exceeded. The California State Polytechnic College, located at San Luis Obispo, with branches at San Dimas, and the California Maritime Academy at Vallejo, also have been operating on permanent sites. Three new colleges have been established during the past four years, one of which is still operating in rented facilities in Los Angeles, while two are in the process of moving to permanent new campuses in Long Beach and Sacramento.

Present permanent buildings are completely inadequate to care for existing enrollments, and have been supplemented by certain temporary buildings which were provided immediately after the war by utilizing more surplus buildings of the temporary barracks type. Some of these were constructed of sheet metal and some of plywood. The floors of these buildings are made of three-quarter inch plywood on metal stringers set on temporary footings; consequently, they are inadequate and will shortly have to be abandoned as unsafe. The cost of heating and general maintenance of these temporary buildings is constantly increasing. In order to maintain the educational program in the state colleges, it is imperative that the present program of replacing these temporary buildings with permanent structures be continued, so as to provide sufficient instructional space for anticipated enrollments.

For the 1952-53 Fiscal Year, sufficient funds for real property acquisition are proposed to complete the purchase of two city blocks adjacent to the present campus at San Jose State College for master plan expansion, to complete the purchase of an access area to the physical education facilities at Humboldt State College, and to provide sufficient area adjacent to the dormitories at Humboldt for parking purposes and future campus growth. Site development and construction funds are also included to permit a complete move of the general and professional departments at Fresno State College and the entire enrollment at Sacramento State College to new campus sites, with minimum facilities for existing enrollments. Completion of certain buildings originally budgeted in prior fiscal years is also provided at San Diego, while initial complements of equipment are contained for the three new state colleges, as well as a much needed special purpose Science Building for Long Beach. The temporary farm-type instructional buildings at the San Luis Obispo campus of California Polytechnic College are also implemented by a permanent science and classroom building, while development of the Kellogg campus is initiated with provision for the first unit of a science building. At the California Maritime Academy, the second and third units of the permanent shore facilities are included to replace temporary kitchen and mess hall building and classroom building which are inadequate to fill the needs of the 1952-53 enrollment of 200 midshipmen at the academy.

At present, resident schools for the deaf and blind exist at Berkeley, both housed in recently expanded and modernized facilities. A new school for the deaf in Riverside is budgeted to begin operations during the 1952-53 Fiscal Year, with an initial enrollment of 50 students. Residential schools for cerebral palsied children have been established in temporary rented quarters in both Northern and Southern California. In addition, one residential orientation center for the blind and three non-residential sheltered workshops are operated in permanent quarters in Oakland, Los Angeles, and San Diego. The shops in Oakland and San Diego are old structures in need of repairs and renovation, while the workshop in Los Angeles is housed in rented quarters.

During the 1952-53 Fiscal Year, the only significant plant additions to the special schools and workshops appear at the California School for the Deaf at Berkeley, where a bakery addition is necessary to meet a 33 percent increase in student population, and a gymnasium and swimming pool are provided to supplant the inadequate physical recreation facilities now existing for this resident school.

GRAND TOTAL	22,649	26,398	26,005	25,720	27,732	29,789	31,389	33,569

The present permanent buildings and the buildings under construction or financed by current appropriations will not adequately house the above enrollments. The following table indicates by percentage the extent to which present and financed buildings fill the need for the 1954-55 enrollment for instructional and noninstructional facilities.

STATE COLLEGE	Percent of permanent classroom needs for 1954-55 enrollment financed or completed as of:		Percent of total permanent plant requirements per 1954-55 enrollment financed or completed as of:

4	<b>Departmental Administration</b>			
5	<b>Analysis</b>			
6	During 1952-53 the Department of Education plans to move its offices into the new Education Building in Sacramento. Funds are requested to provide office equipment and storage facilities where existing equipment and facilities cannot be moved, or where insufficient equipment exists in present quarters. Additional shelving is also provided to permit the State Library to occupy quarters in the Library and Courts Building which will be vacated upon completion of the Education Building.			
7	\$150,000 is requested for preparation of preliminary drawings for a department-wide construction program for the determination of scope and cost estimates prior to requests for appropriations for working drawings and construction in the future.

## GENERAL ANALYSIS

Authorization for student dormitories at state colleges was originally provided by Chapter 155, Statutes of 1946, which appropriated \$4,000,000 for this purpose. This amount, augmented by Chapter 145, Statutes of 1946, for price increases, has been partially allocated to Fresno, San Diego, San Francisco, and San Jose State Colleges for 400-unit dormitories, where surveys indicate a definite ability to meet financing requirements. Allocations for the construction are based on two-thirds of total dormitory construction cost to be financed from the Postwar Employment Reserve Fund, and one-third from the State College Dormitory Construction Fund (see Education Code Sections 20541-20607). All further expenditures from these items, except for acquisition of real property sites under active negotiation, have been deferred by Sections 3.3 and 3.4, Budget Act of 1951. Amounts actually expended are shown in the capital outlay budgets for the individual colleges.

<sup>a</sup> Formerly Postwar Employment Reserve.

3	<b>Humboldt State College</b>			
4				
5	<b>Analysis</b>			
6				
7	This four-year liberal arts college, established in 1914, is located on a 57-acre campus, with facilities sufficient for the contemplated			
8	500 full-time equivalent students in 1952-53. Present plant consists of a permanent classroom and administration building, a			
9	gymnasium, a new industrial arts building, and already-financed library, science and classroom building, and corporation yard.			
10	All other facilities are temporary, including housing for the wildlife management curriculum. Ultimate capacity of 1,666 students			
11	is planned for 1965.			
12				
13				
14	<b>REAL PROPERTY ACQUISITION</b>

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
<b>Long Beach State College</b>			
<b>Analysis</b>			
This upper-division liberal arts college, established in 1948 in rented facilities, moved to a new campus during the fall of 1951, on a 320-acre site which was given to the college by the City of Long Beach in 1950. During 1950-51, construction of first permanent units of the following buildings were undertaken: library, classroom, fine arts, and physical education facilities. Several temporary buildings have also been constructed to accommodate enrollment of 1,650 full-time equivalent students in 1952-53, with total classroom requirements financed for 2,000 students by 1954-55.			
<b>REAL PROPERTY ACQUISITION</b>			
Site investigation costs-----	\$1,109	-	-
<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT</b>			
<b>Expenditures From Budget Act Appropriation (COSF):</b>			
Construct science building-----	-	-	\$1,370,500
To provide classroom and laboratory facilities sufficient to meet accreditation requirements. Present facilities are completely inadequate for the teaching of science subjects.			
Site development (partial cost)-----	-	-	489,700
Provide for necessary site clearance, roads, utilities, and landscaping of area surrounding the new science building and other projects previously financed.			
Initial complement of equipment-----	\$73,509	\$130,623	105,000
To provide instructional equipment for proper operation of classrooms, laboratories, and library during 1952-53			
Construct and equip heating and maintenance plant-----	279,619	-	-
Site development and temporary facilities-----	1,048,581	50,281	-
Construct and equip library, 1st unit-----	-	13,400	-
Construct and equip classroom building, 1st unit-----	-	26,500	-
Construct and equip fine arts building, 1st unit-----	-	24,900	-
Construct and equip physical education facilities, men and women, 1st unit-----	-	7,000	-
<b>Expenditures From Special Appropriations (COSF):</b>			
Construct and equip heating and maintenance plant-----	28,381	-	-
Construct and equip library, 1st unit-----	316,600	-	-

CAPITAL OUTLAY EXPENDITURES		ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
Sacramento State College				
Analysis				
This two-year upper division liberal arts college established in 1947 in rented facilities at the Sacramento Junior College campus is scheduled to move in 1952-53 to its new 265-acre campus. Under construction at the present time are the first units, including administration, science, library, general classrooms, cafeteria, and boiler plant buildings.				
An enrollment of 1,200 full-time student equivalents is estimated for 1952-53. Ultimate plant capacity will provide facilities for 2,500 full-time students by 1965, as established by the Strayer Report on Higher Education Needs.				
REAL PROPERTY ACQUISITION				
Purchase of a 265-acre site for the construction of the permanent college (additional cost)-----	\$574	-	-	
Purchase of 5-acre site for access roadway to Folsom Boulevard-----	-	\$25,000	-	
TOTAL EXPENDITURES (Real Property)-----	\$574	\$25,000	-	
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT				
Expenditures From Budget Act Appropriation (COSF):				
General site development-----	\$779,200	-	\$351,000

21	<b>San Francisco State College</b>			
22	<b>Analysis</b>			
23	This college was established in 1899. In 1939 a new campus site was acquired at 19th Avenue and Lake Merced Boulevard. Additional			
24	purchases have increased the new campus until it now covers 97.5 acres. Courses in general education and teacher training are			
25	offered.			
26	The new campus has the following completed facilities: gymnasium and natatorium, boiler plant, maintenance shops, veterans housing			
27	unit, science building, and some temporary buildings for classrooms. It is estimated that presently planned projects for the new			
28	campus will be completed by 1954-55. The old campus will be partially operated until all facilities have been completed at the new			
29	campus.			
30	<b>REAL PROPERTY ACQUISITION</b>			
31	Development of site in exchange for acquisition of site-----	-	\$387,291	-
32	TOTAL EXPENDITURES (Real Property)-----	-	\$387,291	-
33	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
34	<b>AND EQUIPMENT</b>			
35	<b>Expenditures From Budget Act Appropriation (COSF):</b>			
36	Site development to provide for completion of roads, walks, and			
37	landscape for new buildings currently financed at new campus-----	-	-	\$390,000

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2				
3	<b>California State Polytechnic College</b>			
4				
5	<b>Analysis</b>			
6				
7	Established in 1901, this school, located on 2,226 acres at San Luis Obispo, provides agricultural and vocational education. Enrollment			
8	of 3,060 full-time equivalent students will utilize present capacity of the college, but ultimate plant capacity will provide teaching			
9	facilities for 4,080 students. Except for permanent administration, library, auditorium, and power plant buildings, all structures			
10	are of temporary farm-type construction. Location of this college makes extensive student housing facilities a necessity, and completion			
11	of several new housing units in 1952-53 will permit attainment of enrollment capacity which was temporarily curtailed in			
12	1951-52 by repossession of the Camp San Luis Obispo housing unit by the Army.			
13	Two Southern California branches are maintained near San Dimas. The Voorhis unit specializes in citriculture, with frame and stucco			
14	dormitories and classrooms, and temporary farm-type structures. The Kellogg unit consists of 812 acres received as a restricted gift			
15	November 1, 1949 to provide expansion of instructional facilities in that area, and at present contains farm lands and an equerry.			
16	In order to hold title to certain Kellogg property, the State must, under lease provisions, start construction of at least \$500,000 in			
17	improvements prior to November 1, 1956. Initial development of this property is provided in 1952-53 from funds set aside by Chapter			
18	1516, Statutes of 1951.

1	<b>California Maritime Academy</b>			
2				
3				
4	<b>Analysis</b>			
5				
6	This school, located at Vallejo, will have an average enrollment of 200 students in 1952-53, which will be maximum capacity under			
7	present plans. Existing permanent facilities at this campus consist of a gymnasium and pool; all other facilities are temporary			
8	structures. Additional dormitory space is obtained by using berthing quarters on the training ship <i>Golden Bear</i> . The budget proposes			
9	for 1952-53 the construction of a classroom building and kitchen and mess hall building in addition to partial site development and			
10	provision for utilities.

## California School for the Blind

## Analysis

This school was established in 1858 for special education of blind children. Facilities are provided for 168 residential students including 12 deaf-blind students, with no increase in capacity anticipated in the near future. Buildings are generally old permanent structures, including classroom and administration buildings and dormitories except for a new deaf-blind dormitory-classroom building which was completed in 1950.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,  
AND EQUIPMENT

## Expenditures From Special Appropriations (COSF):

Renew steam distribution system	—	—	\$33,820
Furnishings for superintendent's residence	—	\$9	—
Buildings for deaf-blind children	\$400	306	—
Addition for boys' dormitory	28,225	614	—
Replace boiler plant	185,885	41,178	—
Miscellaneous urgent painting	900	—	—
TOTAL EXPENDITURES (Major Construction)	\$215,410	\$42,107	\$33,820

## California School for the Deaf, Berkeley

## Analysis

Established in 1858, this residential school for deaf children will provide general and vocational education to 452 residential and 40 day students in 1952-53. On a site now comprising approximately 113 acres, the school is housed in permanent reinforced concrete buildings, including an administration building, dining hall and bakery, classroom buildings and dormitories. The last of the new dormitories and vocational arts buildings will be completed during the current year. This budget proposes for 1952-53 the construction of a new gymnasium and swimming pool and an addition to the school bakery. The superintendent's and principal's residences are of very old frame construction. Replacement of the former is proposed.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,  
AND EQUIPMENT

## Expenditures From Budget Act Appropriation (COSF):

Gymnasium and swimming pool to provide facilities for physical education and recreation for an enrollment of approximately 500 students	-	-	\$486,000
Addition to bakery to augment the existing bakery by adding a basement and one floor to provide facilities necessitated by increased enrollment for vocational instruction and for production of bakery goods consumed by the school	-	-	68,000

**California School for the Deaf, Riverside****Analysis**

This school was authorized in 1947, and construction of facilities to accommodate 75 primary students, 75 intermediate students, and 75 advanced students is scheduled for partial completion by January 1953. Ultimate capacity is to be for 450 students. The site contains approximately 70 acres, with all buildings of one-story construction. The buildings will include administration, primary school, primary dormitory, intermediate-advanced school, intermediate boys and girls dormitory, advanced girls dormitory, advanced boys dormitory, dining rooms and kitchen, infirmary, social hall, field houses and swimming pool, superintendent's residence, and engineer's residence. Provision has been made to open the school in January, 1953, with an initial enrollment of 50 students.

1				
2	<b>Oakland Center, California Industries for the Blind</b>			
3				
4				
5	<b>Analysis</b>			
6				
7	This center was established September 22, 1951, by Chapter 1144 of Statutes of 1951. It will carry on with the manufacturing activities			
8	of the former Training Center for the Adult Blind which was established in 1885 and these activities provide sheltered employment			
9	to 140 factory workers, and training facilities for 50 additional workers are provided for in the opportunity work centers located			
10	at Oakland and San Jose. The present plant is being used to capacity and the department plans are based upon no increase. Actual			
11	construction of the factory trades building which was financed in 1946 and 1950 is expected to be completed during 1952-53.			
12				
13				
14	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
15	<b>AND EQUIPMENT</b>			
16				
17	<b>Expenditures From Special Appropriations (COSF):</b>			
18				
19	Factory trades building (additional cost)-----	\$242,000	—	\$50,000
20	Miscellaneous urgent painting-----	2,200	—	—
21	Replacement of boiler plant-----	14,342	—	—
22	Additional cost for automatic fire sprinkler system in broom			
23	factory -----	—	\$3,598	—
24				
25	<b>TOTAL EXPENDITURES (Major Construction)-----</b>	<b>\$258,542</b>	<b>\$3,598</b>	<b>\$50,000</b>
26				
27				
28	<b>MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
29	<b>AND EQUIPMENT</b>			
30				
31	Replacement of floors and floor coverings-----	—	—	\$2,256
32	Replace perimeter fence and repair retaining wall-----	—	—	4,380
33	Replace galvanized roof on warehouse-----	—	—	2,674
34	Increase capacity of drying room and install new double outdoor			
35	doors in broom factory (GF)-----	\$1,040	—	—
36	Pave roadway and walks (GF)-----	2,500	—	—
37	Modernization of electrical fixtures and wiring in salesroom general			
38	offices, administration building, boiler plant, broom factory ware-			
39	house, sewing building and carpenter shop-----	—	\$8,143	—
40	Install hoods, vents and ventilation fans in kitchen-----	—	4,506	—
41	Install 12,000 feet of shelving in workhouse-----	—	2,789	—
42	Improve access to fire escape in new dormitory-----	—	497	—
43	Repairs to structures and plumbing—administration building, old			
44	dormitory, married couples cottage, broom factory, lavatory			
45	building, sewing building-----	—	20,555	—
46	Repairs to water lines, steam mains and return system-----	—	7,668	—
47	Interior painting—broom factory, sewing building, kitchen base-			
48	ment; seal hardwood floors and stairs in old dormitory, admin-			
49	istration building, and remove rust and paint iron fence-----	—	8,594	—
50	Resurface walks and roads-----	—	2,500	—
51	Alterations of buildings for orientation center-----	—	10,000	—
52				
53	<b>TOTAL EXPENDITURES (Minor Construction)-----</b>	<b>\$3,540</b>	<b>\$65,252</b>	<b>\$9,310</b>
54				
55	<b>TOTALS, OAKLAND CENTER, CALIFORNIA INDUSTRIES</b>			
56	<b>FOR THE BLIND-----</b>	<b>\$262,082</b>	<b>\$68,850</b>	<b>\$59,310</b>
57	General Fund (GF)-----	3,540	—	—
58	Capital Outlay and Savings Fund (COSF)-----	258,542	68,850	59,310

10	Remodel air cooling in differential analyzer room-----	-	-	2,000
11	Construct three small dark rooms in basement—physics building	-	-	2,500
12	Extend storeroom—physics building-----	-	-	20,000
13	Extend heat treatment room—physics building-----	-	-	10,000
14	Install window guards—physics building basement-----	-	-	3,500
15	Fence athletic fields-----	-	-	9,000
16	Install asphalt tile floor covering in library stacks-----	-	-	5,000
17	Construct mail sorter—library-----	-	-	800
18	Install counter and control unit—business administration and	-	-	
19	economics building library-----	-	-	4,500
20	Replace discharging unit in library reserve book room-----	-	-	500
21	Replace tables in reading room—library-----	-	-	8,600
22				
23	Mt. Hamilton:			
24	Restucco south half of main building-----	-	-	17,000
25	San Francisco Campus:			
26	Replace fire alarm system—existing buildings-----	-	-	20,000
27	Install laundry water softener-----	-	-	15,000
28	Construct animal receiving facility—medical research building	-	-	20,000
29	Renovate medical center library including installation of sprin-	-	-	
30	kler system in stacks-----	-	-	10,500
31	Replace steam and electric meters and condensate return pump	-	-	
32	—outlying buildings-----	-	-	2,100
33	Santa Barbara Campus:			
34	Erosion control—riprap cover growth-----	-	-	10,000
35	Plant fast-growing shrubs, trees, alfalfa, around temporary	-	-	
36	buildings in areas to control dust and fire hazards-----	-	-	15,000
37	General:			
38	Miscellaneous repairs, improvements and equipment-----	-	\$1,000,000	-
39				
40	Expenditures From Special Appropriations (COSF):			
41				
42	Berkeley Campus:			
43	Mechanical engineering building—conversion of space-----	\$32,900	-	-
44	Botanical garden—replace lathhouse-----	3,600	-	-
45	Electrical engineering building—purchase new equipment and	-	-	-
46	rehabilitation of old equipment-----	15,000	-	-
47	Electrical utilities rehabilitation—second step-----	-	50,000	-
48	Hearst Gymnasium—renew water supply and drainage system	-	-	-
49	for pools-----	-	40,000	-
50	Life sciences building—waterproof exterior-----	-	75,000	-
51	Wheeler Hall—alterations for business administration, econom-	-	-	-
52	ics, political science, and sociology-----	-	50,000	-
53	South Hall—alterations for business administration, economics,	-	-	-
54	political science, and bureau of occupations-----	-	45,000	-
55	Temporary buildings—alterations due to changes in occupancy	-	-	-
56	resulting from completion of new buildings-----	-	25,000	-
57	Davis Campus:			
58	Electric utilities—rehabilitation-----	10,000	-	-
59	La Jolla Campus:			
60	Small buildings for storage of volatile liquids-----	-	5,000	-
61	Repairs to George H. Scripps Building-----	-	13,500	-
62	Building for radio station-----	-	6,000	-
63	Construct ramp for amphibious craft-----	-	10,500	-
64	Los Angeles Campus:			
65	Clark Observatory—relocation to campus-----	3,500	-	-
66	Chemistry—shop, laboratory, and safety equipment-----	25,000	-	-
67	Installation of facilities for geophysics in geology-chemistry	-	-	-
68	building-----	-	30,000	-
69	Physics Building roof—stairway reconstruction and laboratory	-	-	-
70	for meteorology-----	-	15,000	-
71	Royce Hall—elevator-----	-	35,000	-
72	Mt. Hamilton:			
73	Fire protection measures-----	-	13,500	-
74	Road to Kepler Spring-----	-	2,000	-
75	Miscellaneous minor improvements-----	-	500	-
76	San Francisco Campus:			
77	Medical School—equipment for animal quarters-----	25,000	-	-

## DEPARTMENT OF EMPLOYMENT

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2	Analysis			
3				
4	The requested appropriation will provide for the continuation of the building program started in 1948-49, when a study revealed that			
5	state-owned buildings are more economical than leased premises. Under this agency's proposed building program, all of the field			
6	operations consisting of disability insurance, field auditing, and local office staffs will be housed together, thereby enabling the de			
7	partment to service employers and the public more effectively and economically than in scattered locations which are now leased by			
8	this department. The sites for the department's buildings are selected after giving careful consideration to all local, physical and			
9	economical conditions of each community in which a building is to be constructed, including such points as proximity to employment			
10	centers, ease of access for both employers and workers, public transportation, and the topography, which has a bearing upon con-			
11	struction costs.			
12				
13				
14	REAL PROPERTY ACQUISITION			
15				
16	Purchase of Sites for Office Buildings to Replace Rented Premises:			
17	Hanford -----	-	-	\$13,000
18	Merced -----	-	-	9,000
19	Huntington Park -----	-	-	42,900
20	Richmond -----	-	-	24,000

## DEPARTMENT OF MENTAL HYGIENE

LINE	FACILITY	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1	<b>GENERAL ANALYSIS</b>			
2				
3				
4	The building program for the Department of Mental Hygiene, which was provided from the Postwar Employment Reserve and currently			
5	from the Capital Outlay and Savings Fund, is progressing with some structures completed and occupied, some now under construc-			
6	tion, and others still in the planning stage with the construction work not yet started. Funds previously allotted to the hospitals			
7	have cared for the elimination of some of the condemned structures, have reduced the overcrowding and provided some new service			
8	facilities, and built new patient buildings to partially meet the needs of the increasing population of the State.			
9	The proposed budget for 1952-53 will minimize the overcrowding in the mental hospitals and partially care for the required number of			
10	beds in the institutions for the mentally deficient. Major projects affecting capacity include a juvenile unit at Camarillo, replace-			
11	ment of ward capacity at Mendocino, Napa, Patton, Stockton and Sonoma, additional hospital capacity at Pacific Colony, addi-			
12	tional ward capacity at Porterville, and an addition to the tubercular ward at Napa.			
13	Recently a unit for tubercular cases was opened at Patton State Hospital for this type of mental patient in Southern California.			
14	New receiving and treatment buildings will be activated prior to June 30, 1953, at Camarillo, Napa and Stockton.			
15	Funds are included in the Departmental Administration budget for preparation of preliminary plans for new construction projects			
16	department-wide so that the scope of projects and more accurate cost estimates can be determined prior to proposed appropria-			
17	tions for working drawings and construction in future budgets.			
18	The De Witt State Hospital and Modesto State Hospital are institutions acquired from the Federal Government. Funds provided to			
19	date have been for essential minor construction, improvements, repairs and equipment to maintain the hospitals in operable condi-			
20	tion. At some future time these institutions should be replaced with smaller hospitals for mental patients only.			
21	The hospital at Atascadero, with a capacity of 1,084, and the institution for the mentally deficient at Porterville with a capacity of			
22	1,990, will be activated during 1953-54.			
23	Sites have been acquired for a new mental hospital in the San Fernando Valley and for an institution for the mentally deficient at Costa			
24	Mesa. Construction funds will be necessary in some subsequent budget.			
25	The following tables and explanations thereof provide information on the current budget requests and status of construction projects			
26	affecting patient capacity.

## DEPARTMENT OF MENTAL HYGIENE—Continued

## POPULATION AND CAPACITIES

POPULATIONS of the institutions as of June 30, 1950, and June 30, 1951, are shown in the following table, together with estimated populations and capacities from June 30, 1952 to June 30, 1958. The estimated population for mental hospitals after 1953 is estimated to increase 500 per year and 600 thereafter in view of the increasing population in the State. The populations of the institutions for the mentally deficient from 1954 to 1958 are based on resident population of the institutions equivalent to one-tenth of 1 percent of the general population of the State. It is estimated that 1 percent of a community is mentally deficient, and that one-tenth of 1 percent requires hospitalization.

BED CAPACITIES AND OVERCROWDING: The following table shows actual bed capacities as of June 30, 1950, and June 30, 1951, as well as estimated bed capacities through June 30, 1955, when it is contemplated that all structures for which construction appropriations are available will be completed and occupied.

## Psychiatric Hospital Clinic, Los Angeles

## Analysis

This clinic is to serve as a metropolitan center for clinical diagnosis and treatment for the Department of Mental Hygiene in Southern California and also to provide joint service for the medical school of U. C. L. A. for training and research similar to the Langley Porter Clinic operation. Financing for design, working drawings, and specifications for an initial major unit including hospital, outpatient clinic, administration, and other service facilities was made available in 1950-51. Future budgets will include requests for construction toward an ultimate bed capacity of 400.

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2				
3				
4				
5	Analysis			
6	Capacity on October 31, 1951, was 3,742 with no additional bed capacity to be completed during the period covered by the 1952-53			
7	budget. Major projects included in 1952-53 provide for purchase of right of way and two connecting lines from the San Francisco			
8	water supply to the domestic tanks at the main institution and the annex. Other major projects include an automotive compound,			
9	shops and motor pool, and an enclosed runway between the treatment building and the adjacent wards. Future budgets will pro-			
10	pose to replace the receiving and treatment building. Essential minor construction, improvements, repairs and equipment is re-			
11	quested for 1952-53.			
12

3	<b>Atascadero State Hospital</b>			
4	Analysis			
5				
6	This institution is planned for the maximum security unit of the department. A site has been acquired near Atascadero and construction			
7	is under way for a 1,084 bed capacity, which is estimated to be completed in September, 1953. The ultimate planned capacity at this			
8	time is 1,500. Funds for expansion to 1,500 will be included in a future budget request.

3	<b>DeWitt State Hospital</b>			
4	<b>Analysis</b>			
5	DeWitt was purchased from the Federal Government on June 25, 1946, and was subsequently made a permanent state hospital by legis-			
6	lative enactment. Capacity of the present temporary structures on October 31, 1951, was 2,878, with no capacity expansion budgeted			
7	in 1952-53. DeWitt presently houses both mentally ill and mentally defective patients. Future budgets will propose funds to even-			
8	tually replace the present temporary structures with a permanent 1,500 capacity hospital for the mentally ill. The 1952-53 budget			
9	provides funds only for essential minor construction, improvements, repairs, and equipment to maintain the hospital in an operable			
10	condition in the interim.

## Mendocino State Hospital

## Analysis

Capacity of this institution on October 31, 1951, was 2,397, with a decrease of 22 capacity to be effected in 1951-52 by three new ward buildings replacing the main building and two old wards. A decrease of 27 capacity will take place in September, 1954, due to the new receiving and treatment building replacing an obsolete unit and two wards. New ward capacity at the farm will add 46 ward beds and replace 54 beds in April, 1954, as proposed in the 1952-53 Budget. Essential minor construction, improvements, repair and equipment are included for the maintenance and improvement of the existing plant.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,  
AND EQUIPMENT

## Expenditures From Budget Act Appropriation:

Construct and equip residence for superintendent to replace deteriorated structure	-	-	\$37,425
Construct and equip ward building to replace Ward 16	-	-	531,050
Addition and improvements to boiler plant, including boiler shop building	\$121,148	-	-

## Expenditures From Special Appropriations and Reserves:

Sun porches for tubercular wards	20,660	-	-
Construct and equip employees' quarters building	154,300	\$11,500	-
Equipment for administration, receiving, and surgical building	-	80,000	-
Auditorium	-	6,500	-
Construct and equip kitchen, commissary, and feeding unit (partial)	-	8,150	-
Equipment for buildings to replace main building and Wards 10, D and E	97,742	34,500	-
Landscaping, paving, and sprinkler system, employees' building (partial)	-	1,216	-
Purchase and installation of two sewage pumps	2,466	134	-
Repairs and alterations of electrical and plumbing installations, six staff cottages	481	-	-
Chain link fencing for exercise yards, Wards I and K	-	169	-
Recondition and paint domestic water tank	-	532	-
Unexpended Balances Transferred From Architecture Revolving Fund:			
Completed Projects:			
Construct and equip three physicians' apartments	9,797	-9,900	-
Dairyman's cottage (additional cost)	-103	-	-
Additions to milk barn and two silos	-145	145	-
Prefabricated structures	-4,132	4,275	-
TOTAL EXPENDITURES (Major Construction)	\$402,214	\$137,221	\$568,475

1				
2				
3				
4				
5	Analysis			
6				
7	Capacity on October 31, 1951, was 4,032 with 714 additional capacity to be effected in 1952-53 through the opening of a new receiving			
8	and treatment building from presently appropriated funds. The 1952-53 Budget includes the following major projects which			
9	will add capacity in 1953-54: addition to tubercular ward (456 beds); ranch ward to replace dairy and poultry cottages (add 72			
10	beds, replace 54 beds). Essential minor construction, improvements, repairs, and equipment is requested for 1952-53.			
11

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2				
3				
4	<b>Norwalk State Hospital</b>			
5	<b>Analysis</b>			
6	The capacity on October 31, 1951 was 1,873 with 500 additional capacity anticipated in May, 1954, upon the completion of the receiving			
7	and treatment building. The major projects included in the 1952-53 Budget provide for the remodeling of the food service unit and			
8	a domestic water storage tank. Necessary minor construction, improvements, repairs and equipment are provided to maintain and			
9	improve the existing plant facilities.			
10				
11	<b>REAL PROPERTY ACQUISITION</b>			
12				
13	Purchase of additional land, approximately 20 acres, for site for ad-			
14	ditional hospital facilities -----	\$85,507	\$14,493	-
15				
16	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
17	<b>AND EQUIPMENT</b>			
18				
19	<b>Expenditures From Budget Act Appropriation:</b>			
20				
21	Modernize and enlarge food service unit to accommodate increased			
22	population -----	-	-	\$500,000
23	Domestic water development to relieve current shortage in supply	-	-	78,000
24	Construct and equip receiving and treatment building -----	-	\$3,125,000	-
25	Construct and equip kitchen for receiving and treatment building -----	-	175,000	-
26	Design, working drawings, and specifications for nurses' and stu-			
27	dents' quarters -----	\$3,000	-	-
28				
29	<b>Expenditures From Special Appropriations:</b>			
30

4	<b>Patton State Hospital</b>			
5	<b>Analysis</b>			
6	The capacity on October 31, 1951, was 3,633 and includes 488 new capacity due to the opening of the tubercular ward. A loss of 92 bed			
7	capacity will occur upon the razing of Ward 20 in June, 1952. The opening of the receiving and treatment building in September,			
8	1954, will add 303 new beds and replace 62 beds. The 1952-53 Budget provides for a new ward building to be completed in September,			
9	1954, which will add 18 beds and replace 132 in the condemned Ward 19. The other major project included in the 1952-53			
10	Budget provides for repairs and improvements to the kitchen building. Minor construction improvements, repairs, and equipment			
11	are provided to maintain and improve the existing plant facilities.			
12				
13	<b>REAL PROPERTY ACQUISITION</b>			
14				
15	Purchase of land for agricultural purposes, approximately 80 acres	\$453	\$7	—
16				
17				
18				
19	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>

1	<b>Stockton State Hospital</b>			
2				
3				
4	<b>Analysis</b>			
5				
6	The capacity on October 31, 1951, was 4,054, with 57 additional capacity scheduled during 1951-52 resulting from a new convalescent			
7	barracks replacing two old wards. In December, 1952, a new receiving and treatment building will replace a surgery ward and add			
8	434 additional capacity. The 1952-53 budget provides funds for a ward building of 100 capacity to replace temporary barracks			
9	and cottage C's combined capacity of 431 beds. A project to relieve congested conditions is provided by financing additions to cottage			
10	12 at the farm. Additional funds are provided for minor construction, improvements, repairs, and equipment to maintain and			
11	improve the existing plant.

## New Mental Hospital Near San Fernando

## Analysis

A site for a new mental hospital has been acquired in the San Fernando Valley in Southern California. Funds for preliminary plans and specifications necessary for the establishment of the new mental hospital were deferred by Section 2 of Chapter 1020, Statutes of 1951. Preliminary plan funds in the amount of \$300,000 are included in the departmental administration budget for 1952-53 which is sufficient for this hospital and numerous other projects in the other institutions. Subsequent capital outlay budgets will include requests for construction toward an eventual 2,000-bed hospital.

## DEPARTMENT OF MENTAL HYGIENE—Continued

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1	<b>Sonoma State Home</b>			
2				
3	<b>Analysis</b>			
4				
5	The capacity on October 31, 1951, was 2,671 and will be increased during 1953-54 by 120 additional beds upon completion of the nursing			
6	cottage, 32 additional beds upon completion of the addition to the hospital, 241 additional beds and 459 replacement beds upon			
7	completion of the seven ward buildings. Financing for two of the seven ward buildings and mechanical services and ground improve-			
8	ments for the new ward buildings are included in the 1952-53 Budget. Minor construction, improvements, repairs, and equipment			
9	funds are provided for the maintenance and improvement of the existing plant facilities.			
10				
11	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
12	<b>AND EQUIPMENT</b>			
13				
14	<b>Expenditures From Budget Act Appropriation:</b>			
15				
16	Mechanical services and ground improvements for six ward			
17	buildings -----	-	-	\$280,000
18	Construct and equip two ward buildings to replace old condemned			
19	buildings -----	-	-	992,410
20	Construct and equip six ward buildings -----	-	\$1,742,045	-
21	Construct and equip addition to hospital -----	-	394,445	-
22	Construct and equip commissary and feeding unit -----	\$5,651	908,917	-
23	Pro rata share—sanitary district -----	-	211,504	-
24				
25	<b>Expenditures From Special Appropriations:</b>			
26				
27	Occupational therapy room at Paxton Hall -----	116	9	-
28	Equipment for seven ward buildings and tubercular hospital -----	160,801	6,729	-
29	Equipment for new laundry -----	1,453	203	-
30	Equipment for two physicians' residences -----	568	-	-
31	Construct new incinerator (partial) -----	-	6,510	-
32	General repairs and replacements of water lines and rehabilitation			
33	of dishwashing facilities -----	1,249	-	-
34	Security facilities at McDougall cottage -----	9,766	-	-
35	Replace hot water tanks at tubercular hospital and Wright cottage			
36	Gutters, downspouts, and storm drains -----	1,154	-	-
37	Replacement of floors—dairy cottage, carpenter shop, and straw			
38	storage barn -----	1,259	-	-
39	Replace porch floor at Laurel cottage -----	718	-	-
40	Repairs to road, yard surface, and parking areas -----	4,238	376	-
41	Improvement to storm drainage system -----	550	-	-
42	Replacement of linoleum -----	511	-	-
43	General repairs and painting—dairy cottage -----	1,898	-	-
44	Replacement of four-inch mains in primary water system -----	1,220	-	-
45	Sewage effluent irrigation system -----	16,176	-	-
46	Repairs and improvements to school rooms -----	267	-	-
47	Installation of unit heaters at Walnut and Slater cottages -----	389	-	-
48	Wire protective enclosures for radiators -----	2,947	-	-
49	Replacement of cafeteria counters in main dining room -----	1,619	-	-
50	Repairs and improvements to ventilation system at auditorium -----	6,800	-	-
51	Unexpended Balances Transferred From Architecture Revolving			
52	Fund: -----			
53	Completed Projects: -----			
54	Preparation of plans—commissary building -----	—\$40,500	-	-
55	Preparation of plans—employees' apartment house -----	—5,500	-	-
56	Construction of slaughterhouse -----	—18	-	-
57	Construct laundry and warehouse buildings -----	—5,000	-	-
58				
59	<b>TOTAL EXPENDITURES (Major Construction) -----</b>	<b>\$170,079</b>	<b>\$3,270,738</b>	<b>\$1,272,410</b>
60				
61	<b>MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,</b>			
62	<b>AND EQUIPMENT</b>			
63				
64	<b>Expenditures From Budget Act Appropriation:</b>			
65				
66	Tree trimming, surgery and spraying (GF) -----	\$1,987	-	-
67	(COSF) -----	-	\$1,000	\$2,300
68	General repairs and painting of ward buildings -----	29,826	174	30,000
69	Riprap hill creek to prevent building undermining -----	-	1,750	3,500
70	Replacement window screening to allow for proper ventilation -----	-	1,000	1,875
71	Rehabilitate deteriorated rock and concrete walls -----	-	1,250	2,500

4				
5	Analysis			
6	The site for this institution was acquired in 1946. Construction is under way to provide 13 ward buildings with a capacity of 910 and a			
7	hospital building with a capacity of 100 with the completion date estimated as of July, 1953. The 1952-53 budget provides funds for			
8	seven additional ward buildings with a total capacity of 490 to be completed in March, 1954. The institution will house mental			
9	defective patients and assist in meeting the acute state-wide problem for patients of this type.			
10

## DEPARTMENT OF FISH AND GAME

	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
<b>General Analysis</b>				
The capital outlay program of the Department of Fish and Game provides facilities and installations required for administration of the department; enforcement of the provisions of the Fish and Game Code; management, development, and conservation of fish and game; and for research, study, and compilation of statistics on fish and game.				
<b>REAL PROPERTY ACQUISITION</b>				
Patrol and Law Enforcement:				
Purchase of site for warehouse at Blythe.....	-	\$1,000	-	
<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT</b>				
<b>Analysis</b>				
Construction of a stream improvement structure at the mouth of the Navarro River, Mendocino County, to permit free passage of fish during all seasons of the year is proposed.				
Marine Fisheries:				
Terminal Island—join and enlarge three main buildings.....	-	\$140,000	-	
Fish Conservation:				
Construct stream improvement structure at mouth of Navarro River .....	-	-	\$40,000	
<b>TOTAL EXPENDITURES (Major Construction) .....</b>	<b>-</b>	<b>\$140,000</b>	<b>\$40,000</b>	
<b>MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT</b>				
<b>Analysis</b>				
Minor construction projects provide for improvements and repairs to offices, hatcheries, game farms, game and waterfowl management areas, research vessels, and the purchase of additional radio equipment.				
Administration:				
Miscellaneous improvements to headquarters and district offices....	\$2,352	\$5,000	\$5,000	
Patrol and Law Enforcement:				
Purchase and installation of radio equipment.....	57,830	10,000	10,000	
Purchase of airplane.....	16,289	-	-	
Construct airplane workshop, storage building and equipment.....	8,718	-	-	
Construct airplane hangar, roadway and parking area.....	1,430	-	-	
Construct boathouse in Eureka area.....	-	600	-	
Construct warehouse at Blythe.....	-	1,500	-	
Construction and equipment of three patrol stations in the Colorado River area.....	-	18,050	-	
Marine Fisheries:				
Painting buildings at Terminal Island.....	-	4,000	-	
Alterations and improvements to laboratory at Terminal Island.....	-	1,240	-	
Alterations to statistical building at Terminal Island.....	-	1,400	4,500	
Construction and installation of fish screens and ladders—various locations .....	6,297	15,000	4,300	
Alterations and improvements to the research vessel "N. B. Scofield" .....	-	4,000	-	
Alterations and improvements to the research vessel "Yellowfin" .....	-	-	16,000	
Spawning bed and stream improvements.....	4,500	-	-	
Stream improvement, fish screen and ladder experimental work, and fish screen modernization in Central Valley area.....	-	17,000	-	
Improvements to buildings and premises at Elk Grove headquarters .....	-	1,000	-	
Fish Conservation:				
Hatcheries:				
Basin Creek:				
Construction of pipeline.....	-	-	1,200	
Central Valley:				
Sealing pond bottoms.....	-	3,000	-	
Hot Creek:				
Painting hatchery buildings.....	-	3,500	-	
Resurfacing roadways .....	-	6,000	-	
Installation of metal storage building.....	-	2,500	-	
Replacement of pond water trunk lines.....	-	10,000	-	
Moorehouse Springs:				
Improvements of roads.....	-	650	-	
Mt. Shasta:				
Construction of discharge flume.....	-	-	1,500

## Division of Beaches and Parks

## General Analysis

The acquisition of additional beach and inland park areas from funds appropriated by Chapter 1422, Statutes of 1945, is planned for 1952-53. These funds must be matched by an equal amount in money or property. In addition an amount of \$35,000 is provided for the acquisition of additional land adjacent to two existing state parks.

Major construction provides for new development of one state-owned beach park and one inland park; additional facilities and improvements at several existing parks and beaches; building restoration at Columbia Historic State Park; and continuation of the state-wide Riders' and Hikers' Trails System.

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2				
3				
4				
5				
6				
7	<b>Division of Forestry</b>			
8	<b>GENERAL ANALYSIS</b>			
9	The capital outlay program of the Division of Forestry comprises the purchase of land for state forests pursuant to Article 6 of Chapter 2 of Division 4 of the Public Resources Code; the acquisition, construction, and development of forest protection stations to provide fire prevention and suppression on lands having state-wide interest values; and the construction and development of one forestry work camp for inmates of the Youth Authority and the Department of Corrections.			
10				
11				
12				
13	<b>REAL PROPERTY ACQUISITION</b>			
14				
15	<b>Analysis</b>			
16				
17	The acquisition of 4,419 acres of forest land within and adjacent to the Mountain Home State Forest from the State Lands Commission is proposed for 1952-53. The State Lands Commission is acquiring these lands from the United States Forest Service in exchange for other state lands scattered throughout the national forests of California. In addition provision is made for the acquisition of sites for fire control stations in strategic locations where obtaining long term leases is not possible.			
18				
19				
20				
21				
22	<b>Purchase of Sites for Forest Protection Stations:</b>			
23				
24	District I:			
25	Humboldt County (COSF) -----	\$307	-	-

60	General Fund (GF) -----	451,578	-	400,000
61	Capital Outlay and Savings Fund (COSF) -----	10,239	-	37,550
62				
63				
64	<b>MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT</b>			
65				
66	<b>Analysis</b>			
67				
68	Major construction provides for essential development of fire protection stations replacing tent camps, rented buildings, and existing buildings not worthy of repair; the construction of a 60-man forestry work camp in San Diego County for the Department of Corrections; and engineering, planning and inspection services.			
69				
70

63		\$58,824,841	\$67,800,797	\$126,625,638	
64	Deduct: Repayment of Loan Advanced to San Francisco-Oakland Bay Bridge <sup>c</sup>	3,625,000	—	3,625,000	
65					
66	Totals, Expenditures Subject to Allocation Under Section 188, Streets and Highways Code	\$55,199,841 (45%)	\$67,800,797 (55%)	\$123,000,638 (100%)	
67					
68					
69					
70					
71					
72					
73	<sup>a</sup> In addition to the amounts expended for state highways, the following amounts are paid for or on behalf of local streets and highways:				
74	Expenditures upon city streets other than state highways (in accordance with Section 194, Streets and Highways Code)	1950-51 \$19,329,747	1951-52 \$20,878,940	1952-53 \$21,829,473	—
75	Disbursements to Counties for County Highway Construction:				
76	Federal funds	3,014,880	5,436,120	4,257,000	—
77	Contributions	3,998,527	2,629,245	—	—
78	<sup>b</sup> Chapter 5, Statutes 1933, requires that expenditures for this purpose be defrayed out of construction funds allocated to the Northern Counties group.				
79	<sup>c</sup> Section 30607, Streets and Highways Code, requires that all repayments of sums advanced for the construction of the San Francisco-Oakland Bay Bridge approaches be deposited in the funds available for the Northern Counties group.

13	Construction Engineering -----	6,700,000	6,769,000	69,000 <sup>5</sup>
14	Construction and Improvements, State Highways in Cities (Section 203, Streets and			
15	Highways Code) -----	—	1,568,984	1,568,984 <sup>4</sup>
16	Minor Improvement and Betterment:			
17	Northern Group of Counties -----	600,000	600,000	—
18	Southern Group of Counties -----	400,000	405,100	5,100 <sup>12</sup>
19	Rights of Way:			
20	Northern Group of Counties -----	9,531,000	14,542,216	5,011,216 <sup>5</sup>
21	Southern Group of Counties -----	13,325,000	17,940,487	4,615,487 <sup>5</sup>
22	Preliminary and Design Engineering -----	6,750,000	8,006,530	1,256,530 <sup>6</sup>
23	Aid to Joint Highway Districts -----	—	64,667	64,667 <sup>7</sup>
24	Emergency Damage Repairs -----	—	1,412,061	1,412,061 <sup>8</sup>
25	Contingencies -----	1,129,409	2,354,767	1,225,358 <sup>9</sup>
26	Equipment -----	—	2,719,907	2,719,907 <sup>10</sup>
27	Buildings and Plants -----	3,500,000	3,354,696	-145,304 <sup>11</sup>
28	Totals, Proposed Expenditures -----	\$141,990,981	\$169,966,553	\$27,975,572

<sup>1</sup> Variations between original and current estimates for these items are still only estimates with the greater portion of the fiscal year still to go and do not reflect any changes in policy. The increases are due to salary increases and increased cost of materials.

<sup>2</sup> Decreases in these items represent adjustments in accordance with the foreseeable expenditure program.

<sup>3</sup> A supplemental schedule follows detailing changes in proposed expenditures for major construction.

<sup>4</sup> Unexpended balance of funds made available by Section 203 of the Streets and Highways Code carried forward from the previous fiscal year.

<sup>5</sup> The right of way program has been expanded to provide the necessary rights of way in connection with the current and future construction programs.

<sup>6</sup> The program in connection with preliminary and design engineering has been expanded in order not to hinder prosecution of the right of way and construction programs.

<sup>7</sup> Obligations to Joint Highway Districts carried forward from the previous budget.

<sup>8</sup> Program of repair of highway damage caused by floods during early part of 1951 financed by an appropriation of \$1,000,000 from the Federal Government and state matching funds.

<sup>9</sup> The balance in the Reserve for Contingencies reflects revisions made in the budget increasing estimated revenues, incorporating the unobligated balances from the previous year, and adjusting other budgetary functions.

<sup>10</sup> The increase in the allotment for equipment is due in part to a carry over of an unexpended balance from the previous fiscal year and in part to the need for replacement of equipment as shown by a study of the ages of various units.

<sup>11</sup> The decrease in this item is due to a transfer to the equipment item for the purchase of nonrental equipment, offset in part by a reallocation of unobligated balances from the previous fiscal year.

<sup>12</sup> Increases due to receipt of contributions from other agencies on cooperative projects.

21	Preliminary and Design Engineering -----	5,700,000	6,250,000	7,957,833	1,707,833 <sup>9</sup>
22	Aid to Joint Highway Districts -----	—	217,253	150,333	—66,920 <sup>9</sup>
23	Emergency Damage Repairs -----	—	—	2,187,939	2,187,939 <sup>10</sup>
24	Contingencies -----	4,883,057	9,351,381	37,505	—9,313,876 <sup>11</sup>
25	Equipment -----	1,000,000	3,634,666	2,720,213	—914,453 <sup>12</sup>
26	Buildings and Plants -----	1,000,000	3,485,823	3,485,218	—605 <sup>4</sup>
27	Totals, Expenditures -----	\$126,771,092	\$160,987,146	\$160,070,576	—\$916,570

<sup>1</sup> Variations between actual and estimated expenditures for administration are due to salary increases, higher cost of supplies, and greater office housing costs.

<sup>2</sup> The increase in expenditures for maintenance over the estimated cost is due to general salary increases and the increased cost of materials.

<sup>3</sup> The smaller amount of expenditures for highway planning than anticipated is due to uncompleted projects carried forward to the ensuing budget and postponement of projects originally contemplated.

<sup>4</sup> Variation between actual and estimated expenditures for these items are normal and do not reflect any change in program.

<sup>5</sup> A supplemental schedule follows detailing differences in actual and estimated expenditures for major construction.

<sup>6</sup> It has not been possible to fully expend the remaining balance of funds made available by Section 203 of the Streets and Highways Code because plans for the work to be undertaken have not been forthcoming from the cities.

<sup>7</sup> The expenditures for minor improvements were lower than anticipated because demands for projects in this category in the southern group of counties were short of the estimates.

<sup>8</sup> The right of way and preliminary and design engineering programs were expanded in order not to hinder the prosecution of current and future construction programs.

<sup>9</sup> This decrease represents commitments to joint highway districts not paid during the year but carried forward to the ensuing budget.

<sup>10</sup> This is a new item representing a program for repair of highway damage caused by floods during the early part of 1951. The program was established in accordance with Section 188.1 of the Streets and Highways Code and is financed by an appropriation of \$1,000,000 from the Federal Government and State matching funds.

<sup>11</sup> The difference in the amount for contingencies represents the net decrease resulting from the various increases and decreases in other budget items.

<sup>12</sup> Expenditures for equipment fell short of the estimate because of delays in the receipt of equipment on order.

19							

**REASONS FOR REVISIONS**

- <sup>1</sup> Savings—budgeted funds in excess of project requirements.
- <sup>2</sup> Additional project to conform to prior agreements with local authorities.
- <sup>3</sup> Additional project added as a result of safety studies.
- <sup>4</sup> Replacement or repair of a failed or structurally deficient.
- <sup>5</sup> Additional funds required because of an increase in design standards and scope of project.
- <sup>6</sup> Transferred to 1950-51 Fiscal Year due to increased revenue and project savings in that year.
- <sup>7</sup> Two projects combined into one for performance under one contract.
- <sup>8</sup> Additional funds required because of increased construction costs.
- <sup>9</sup> Additional projects for installing truck scales to curtail damage being inflicted on highways by overloading.
- <sup>10</sup> Additional project of emergency nature to reduce traffic hazard and public inconvenience.
- <sup>11</sup> Additional project to provide State's share of project performed in cooperation with other agencies.
- <sup>12</sup> Deferred pending further investigation.
- <sup>13</sup> Road construction deferred to 1952-53 Fiscal Year in order to provide for replacement of critically deficient bridge.
- <sup>14</sup> Project carried forward from 1950-51 Fiscal Year.
- <sup>15</sup> Portions of project deleted pending further investigation.
- <sup>16</sup> Additional funds required due to discovery of unstable foundation conditions not known at time of preparing original estimate.
- <sup>17</sup> To place seal coats previously deleted from surfacing contracts.
- <sup>18</sup> Revisions required due to incomplete budget estimates.
- <sup>19</sup> Due to inability to obtain imported borrow from Sacramento-Yolo Port District as originally planned.
- <sup>20</sup> Additional funds required due to extension of project limits.

52								

**REASONS FOR REVISIONS**

- <sup>1</sup> Savings—funds in excess of project requirements.
- <sup>2</sup> Savings from day labor project transferred from 1949-50 Fiscal Year.
- <sup>3</sup> Additional project added as a result of safety studies.
- <sup>4</sup> Additional project to conform to agreements with local authorities.
- <sup>5</sup> Additional funds required because of increased construction costs.
- <sup>6</sup> Additional project required to correct or replace a structurally deficient or failed bridge.
- <sup>7</sup> Additional funds required because of revision in design standards or scope of work.
- <sup>8</sup> Project deferred to subsequent fiscal year in order to provide time to clear right of way.
- <sup>9</sup> Additional funds required because of winter storm damage.
- <sup>10</sup> Additional project to improve portions of deficient roadway or structure.
- <sup>11</sup> Additional project to eliminate a hazardous traffic condition.
- <sup>12</sup> Additional project to improve drainage.
- <sup>13</sup> Combination of budget items to facilitate construction.
- <sup>14</sup> Project deferred because of excessive bid prices.
- <sup>15</sup> Decrease due to redesign of project.
- <sup>16</sup> Additional project to reconstruct roadway in slide area.
- <sup>17</sup> Additional project to improve roadway.
- <sup>18</sup> Additional project to provide for preliminary day labor work in connection with project placed under contract in succeeding fiscal year.
- <sup>19</sup> Project deferred in order to combine with project in succeeding fiscal year.
- <sup>20</sup> Project required for cost of footings for future structure placed during channel lining by USED.
- <sup>21</sup> Project added because of critical traffic conditions.
- <sup>22</sup> Additional project to install traffic regulatory and safety devices on a contract completed from prior fiscal year funds.
- <sup>23</sup> Project deferred to finance more critical work.
- <sup>24</sup> Additional project to reduce damage to highways caused by overloads.
- <sup>25</sup> Budget estimate, based on preliminary investigation, was too high.

55	<sup>1</sup> With the concurrence of the Department of Finance revenue estimates for this item were adjusted as follows: gasoline tax, —\$338,299;			
56	motor vehicle fees, +\$6,163,754; transportation tax, +\$1,433,794; use fuel tax, +\$1,014,629.			
57	<sup>2</sup> Revenue from contributions cannot be estimated in advance and is taken into budget as received or agreed upon.			
58	<sup>3</sup> Revisions in federal aid shown adjust the estimated revenues to actual apportionments.			
59	<sup>4</sup> This item represents the amount estimated to be received from San Francisco-Oakland Bay Bridge tolls as partial reimbursement of the			
60	cost of the bridge approaches. Debt service requirements of the bridge have now been reduced to the point where it is estimated that			
61	the amount shown will be available for repayment during the fiscal year.			
62	<sup>a</sup> Contributions reported here consist of funds received or to be received other than State Highway Fund moneys, and the expenditure			
63	of these funds is reflected as an augmentation of the "Capital Outlay" section.

## DEPARTMENT OF VETERANS AFFAIRS

## Veterans' Home of California

## GENERAL ANALYSIS

Due to the advance in age of veterans of World War I and the great number of World War II veterans in California, the demand for hospitalization and domiciliary care will continue an upward population trend. The future maximum membership planned for the Veterans' Home is a bed capacity of 3,250, to include 550 hospital and receiving beds, 600 chronic and convalescent beds, and 2,100 domiciliary beds. The 1952-53 Budget request will provide total capacity of 2,337 in 1953-54. Other major projects in the 1952-53 Budget in addition to the convalescent and chronic barracks are an additional boiler, ground improvements, central warehouse, cemetery improvements, road extension, remodel and re-equip the clinical laboratory and clinic, and funds for preliminary plans and specifications for future budget projects.

## SUMMARY OF POPULATION AND CAPACITY

Type of Capacity	Actual June 30, 1951	Estimated June 30, 1952	Estimated June 30, 1953	Estimated June 30, 1954	Estimated June 30, 1955	Estimated June 30, 1956
Population-----	1,430	1,673	1,844	2,033	2,120	2,298
Bed Capacity:						
Domiciliary-----	1,114	1,368 <sup>a</sup>	1,566 <sup>a</sup>	1,566	1,566	1,566
Convalescent and chronic-----	204	204	204	408 <sup>b</sup>	408	612 <sup>d</sup>
Hospital and reception-----	350	363 <sup>a</sup>	363	363	463 <sup>c</sup>	463
Total Capacity-----	1,668	1,935	2,133	2,337	2,437	2,641 <sup>d</sup>

<sup>a</sup> Includes the following additional facilities currently authorized for construction:

Domiciliary Barracks—198 beds available in 1951-52.

Women Veterans' Building—56 beds available in 1951-52.

Hospital Receiving Ward—13 net additional beds in 1951-52.

Domiciliary Barracks—198 beds available in 1952-53.

<sup>b</sup> Includes the proposed projects in the 1952-53 Budget:

Convalescent and Chronic Barracks—204 beds available in 1953-54.

<sup>c</sup> Includes the following project for which financing was made available but deferred by Section 3.3, Budget Act of 1951:

West Wing of Hospital (100 capacity)

Chapter 127, Statutes of 1946

Chapter 145, Statutes of 1946, E51-275

\$218,276

413,133

\$631,409

<sup>d</sup> Includes a convalescent and chronic barrack for which further financing will be required in subsequent budgets.

-----------------------------	-------------------	----------------------	---------------------

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,  
AND EQUIPMENT

## Expenditures From Budget Act Appropriations:

Preliminary plans and specifications-----	-	-	\$30,000
Construct and equip convalescent and chronic barracks to provide facilities for increased membership (replacing Item 361.1 (a), Budget Act of 1951, \$862,000 deferred by Section 3.3)-----	-	-	1,054,650
Alterations to boiler house and installation of 500 H.P. boiler to provide service for new buildings-----	-	-	186,800
Extension of main road 4,450 feet, necessitated by erection of new buildings-----	-	-	69,100
Remodel and re-equip clinical laboratory and eye, ear, nose and throat clinic to provide adequate facilities-----	-	-	37,760
Construct central warehouse to provide adequate warehousing facilities (replacing Item 476, Budget Act of 1950, \$54,100, and balance in Chapter 127, Statutes of 1946, \$36,015 deferred by Section 3.4, Budget Act of 1951)-----	-	-	94,950
Complete improvements to existing cemetery-----	-	-	36,820
Ground improvements to area surrounding new buildings-----	-	-	47,800
Construct and equip women employees' quarters to provide adequate housing facilities for women employees (partial)-----	\$267,000	\$6,000	-
Construct and equip domiciliary barracks building to accommodate increased membership (partial)-----	133,204	60,000	-
Construct sidewalks-----	-	5,700	-
Install street lighting from main approach from state highway-----	-	15,000	-
Construct and equip recreation center and auditorium (ACF)-----	600,000	-	-
(COSF)-----	166,500	182,300	-
Extension underground electric system to service new buildings-----	70,000	-	-
Install steam service lines to service new buildings-----	73,000	-	-
Install domestic and fire water distribution system to service new buildings-----	30,000	-	-
Install sewer lines to service new buildings-----	18,000	-	-

# UNALLOCATED INCREASED STATE BUILDING PROGRAM AND MISCELLANEOUS REPAIRS AND IMPROVEMENTS

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53
1				
2	Analysis			
3				
4	The amount appropriated for increased costs of projects will be allocated to projects when the lowest bid on a project is in excess of			
5	the funds made available for the specific project. It is estimated that the balance will be allocated to meet the increased cost of			
6	those projects proposed to be undertaken during the 1951-52 Fiscal Year.			
7	The balance appropriated for major construction and miscellaneous repairs and improvements will be allocated for expenditure during			
8	the 1951-52 Fiscal Year.

# Detailed Budgets—Part III. Local Assistance Budget

## **SUBVENTIONS**

### FOR EDUCATION:

- Apportionments for Public Schools
- Vocational Education—Reimbursements to School Districts
- Child Care Centers
- Housing and Equipment for Education of Cerebral Palsied Children
- School Building Construction
- Contribution to Teachers' Retirement System
- School Lunch Program
- Free Textbooks
- Debt Service on Public School Building Bonds

### FOR PUBLIC HEALTH:

- Aid to Local Health Departments
- Assistance to Counties for Tuberculosis Sanatoria
- Assistance to Counties for Care of Crippled Children
- Assistance to Counties for Care of Children Suffering From Rheumatic Fever and Rheumatic Heart Disease
- Assistance to School Districts for the Treatment of Cerebral Palsied Children
- Assistance to Local Agencies for Mosquito and Gnat Control
- Assistance to Local Agencies for Hospital Construction

### FOR PUBLIC WORKS:

- County Roads and Highways
- Flood Control
- Sacramento Deep Water Channel
- Postwar Public Works Projects
- Veterans Housing

### FOR SOCIAL WELFARE:

- Old Age Security
- Aid to the Needy Blind
- Aid to Partially Self-Supporting Blind
- Aid for Institutional Care of Needy Aged and Blind
- Aid to Needy Children
- Local Inspection of Homes and Agencies Caring for Aged and Children
- Reimbursements to Counties for Administration and Care of Adoptions
- Transportation of Needy Children
- Aid for County Juvenile Homes and Camps

### FOR OTHER PURPOSES:

- Salaries and Superior Court Judges
- Contributions to Judges' Retirement Fund
- County Veterans Service Officers
- County Agricultural Commissioners
- Workmen's Compensation for Disaster Service Workers
- Aid to County Agricultural and Citrus Fairs

## **SHARED REVENUES**

### FOR GENERAL GOVERNMENT:

- Apportionment of Liquor License Fees
- Apportionment of Motor Vehicle License Fees (in lieu tax)

### FOR COUNTY ROADS:

- Apportionment of Motor Vehicle Fuel Taxes
- Apportionment of Motor Vehicle Registration and Weight Fees

### FOR COUNTY AIRPORTS:

- Apportionment of Motor Vehicle Fuel Taxes

### FOR CITY STREETS:

- Apportionment of Motor Vehicle Fuel Taxes

## SUBVENTIONS FOR EDUCATION

Payments to local governments from the General Fund for educational purposes in 1952-53 are estimated to increase \$34,485,938, or 12.9 percent over 1951-52. The primary increase is for additional support of public schools (\$12,000,000) and by rising enrollments (\$17,798,525), and growing requirements of the Teachers' Retirement System (\$2,132,440), partially offset by a slight decrease in free textbooks cost (\$195,289) resulting from a low period of textbook adoptions. In addition, school building construction costs are being met from a \$250,000,000 bond issue authorized by Article XVI, Section 15, of the Constitution (shown in statement of Public School Building Loan Fund condition contained in this section). Interest and redemption charges on this bond issue are included in this section instead of the State Operations section on Bond Interest and Redemption.

Subventions from state and federal funds are granted for the following educational purposes:

SUMMARY	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
<b>APPORTIONMENTS FOR PUBLIC SCHOOLS</b>				
General Fund -----	\$210,611,750	\$237,189,775	\$266,988,300	\$29,798,525
State School Fund -----	4,643,887	3,900,000	3,650,000	-250,000
Totals -----	\$215,255,637	\$241,089,775	\$270,638,300	\$29,548,525 (12.3%)
<b>VOCATIONAL EDUCATION—REIMBURSEMENTS TO SCHOOL DISTRICTS</b>

31				
32				
33				
34	<b>GENERAL ANALYSIS</b>			
35				
36	Article IX, Section 6 of the Constitution fixes a minimum payment of \$120 per pupil in average daily attendance during the preceding school year for public school support. Additional funds are provided under Sections 5153 and 5153.5 of the Education Code to defray the excess cost of educating physically handicapped and mentally retarded students. In 1950-51 the Legislature provided a flat \$3,350,000 to meet financial emergencies in districts experiencing critical growth problems, and in 1951-52 placed all growth on a current basis under Education Code Section 5153.3 (a). Transportation allowances have also been liberalized by \$1 per unit of attendance (in addition to amounts included in basic payments), plus excess cost of transporting physically handicapped students, under Education Code Sections 5153.3 (b), 7018.1, and 7018.2. In addition, basic apportionments have been strengthened by adding 15 percent to elementary district equalization balances (Education Code Section 5153.3 (c)), and by increasing high school district apportionments by a flat \$700,000 (Education Code Section 5153.3 (d)).			
37	During 1950-51, excess apportionments based on estimated growth were made to several districts totalling \$611,860, which was withheld from 1951-52 apportionments under authority of Education Code Sections 7109.4 (1950-51) and 7190 (1951-52). Underpayments of \$3,470 were also made to two districts in 1950-51, and later added to 1951-52 growth allowances. First-year cost of converting public school apportionments to a current basis is estimated to be \$15,379,570 during 1951-52.			
38	Payments in 1952-53 are based on an anticipated increase of 127,563 pupils in average daily attendance, or 7.2 percent over 1951-52. An additional transfer from the General Fund of \$12,000,000 is recommended for increased equalization aid.

53	<i>State School Fund.....</i>	<i>4,643,887</i>	<i>3,900,000</i>	<i>3,650,000</i>

a General support and supervision computed at \$114.92 per unit of attendance for kindergarten and elementary grades, plus \$3.41 per unit for additional equalization aid added by Education Code Section 5153.3(c); \$114.92 per unit of attendance for high school grades, plus \$700,000 added by Education Code Section 5153.3(d); and \$115 per unit of attendance for junior college grades.

b An additional transfer from the General Fund of \$12,000,000 is recommended for increased equalization aid.

c Allowances for transportation and reserve for emergencies computed at \$4,700,000 in 1950-51. In 1951-52 and 1952-53, reserve for emergencies is eliminated, and transportation computed at \$3 per unit of attendance in accordance with Education Code Sections 7011 and 7011.1. Additional allowance is also made in latter two years for excess cost of transporting physically handicapped students, not to exceed \$350 per unit of attendance, in accordance with Education Code Sections 7018.1 and 7018.2.

d Allowance for excess growth was \$3,350,000 for 1950-51, to meet emergency needs. In 1951-52, Article 11.6 of Chapter 15 of Division 3, Education Code, provided additional amounts to convert apportionment to current growth, estimated at 139,064 gross a.d.a. and \$15,379,570 in 1951-52, and 132,615 gross a.d.a. and \$15,361,500 in 1952-53 for all grades.

e Excess cost of educating physically handicapped children projected at \$365 per unit of attendance in 1952-53.

f Excess cost of educating mentally retarded minors computed at \$140 per unit of attendance in 1952-53, Chapter 1599, Statutes of 1951, increased maximum allowances for mentally retarded minors from \$100 to \$150 per unit of attendance, effective with 1952-53 apportionment. This chapter also added allowance for excess cost of severely mentally retarded minors not to exceed \$200 per unit of attendance, computed for the 1952-53 Fiscal Year at 180 a.d.a., and \$36,000.

g County service fund budget needs computed at \$3 per unit of attendance, in accordance with Education Code Section 7001.

h Partial salaries of county superintendents of schools computed at \$2,400 for each of the 58 counties, in accordance with Education Code Section 7003.

TOTAL EXPENDITURES, ALL FUNDS	\$1,128,273	\$1,000,204	\$1,204,182

## GENERAL ANALYSIS

In accepting federal acts for vocational education, the State has provided continuing appropriations to match in part federal grants in-aid contained in these acts. After deduction of state level supervision and teacher training costs, the remaining balances state and federal funds are distributed to public secondary school districts maintaining approved courses in vocational instruction in agriculture, homemaking, trades and industries, and distributive occupations.

Balance available in subsequent year .....	—14,100	—	—
TOTAL EXPENDITURES .....	\$197,607	\$14,100	—

## GENERAL ANALYSIS

For assistance to school districts and county superintendents of schools in providing necessary housing and equipment for the education of cerebral palsied children, but not to exceed one-half of the cost incurred in providing necessary housing and equipment. No funds are requested for this purpose in 1952-53.

## School Building Construction

## RECONCILIATION WITH APPROPRIATIONS

## General Fund

Prior Year Balance Available:			
Chapter 24, Statutes of 1948 .....	\$2,417,192	\$484,384	\$924,384
Balance available in subsequent year .....	—484,384	—924,384	—924,384
TOTAL EXPENDITURES .....	\$1,932,808	—\$440,000	—

## GENERAL ANALYSIS

Chapter 1575, Statutes of 1947, and Chapter 24, Statutes of 1948, provided a total of \$55,000,000 for school buildings in districts whose tax was within one-half cent of the legal maximum rate and whose bonded debt exceeded 95 percent of the amount permitted by law. It is anticipated that \$440,000 of savings from projects already allocated will be realized in the current year, leaving an available balance of \$924,384 in this chapter.

<sup>a</sup> Cost of administration of child care centers for 1952-53 is financed by separate Budget Act appropriation under State Operations—page 222.

<b>TOTAL EXPENDITURES, ALL FUNDS</b>	<b>\$1,700,084</b>	<b>\$4,951,125</b>	<b>\$8,330,250</b>

## GENERAL ANALYSIS

Article XVI, Section 15 of the Constitution and Chapter 922, Statutes of 1949, authorized a \$250,000,000 bond issue to provide funds to be allocated to school districts for construction of public school facilities, with the provision that the allocations would be repaid to the state contingent upon the financial ability of the school district determined by the relationship of the bonded indebtedness to the assessed valuation of the district.

The interest and redemption charges are initially paid by the General Fund. Any amounts in the Public School Building Loan Fund derived from premium and accrued interest on bonds sold, repayments from school districts, and interest earned on investment funds not yet allocated to school districts, are available for transfer to the General Fund. These transfers are accounted as offsets against the General Fund debt service charges.

## General Fund

Interest and Redemption on Public School Building Bonds Issued:			
\$50,000,000 Dated May 1, 1950:			
Interest	\$1,059,000	\$1,059,000	\$987,000
Redemption	—	1,600,000	1,600,000

## Contribution to Teachers' Retirement System

## RECONCILIATION WITH APPROPRIATIONS

## General Fund

Budget Act Appropriation:			
For transfer to Teachers' Permanent Fund .....	\$5,368,000	\$4,952,500	\$5,825,700
For transfer to Retirement Annuity Fund .....	11,282,000	11,437,060	12,696,300
TOTAL EXPENDITURES .....	\$16,650,000	\$16,389,560	\$18,522,000

## GENERAL ANALYSIS

The State Teachers' Retirement System by 1952-53 will contain 130,000 active members, with an additional retired roll of 13,000 members. Since July 1, 1944, members' contributions have been actuarially sound. State contributions (equal to one-half of retirement allowances) are appropriated on a cash need each year, rather than as allowances accrued prior to retirement.

Contribution to Permanent Fund:			
Benefit payments in current year .....	\$5,065,097	\$5,555,500	\$6,004,500
Surplus (+) or deficit (—) of benefit payments over contributions in prior year (Section 14565, Education Code) .....	—478,897	—781,800	—178,800
Totals .....	\$4,586,200	\$4,773,700	\$5,825,700
Surplus (—) or deficit (+) of benefit payments over contributions in current year forwarded to ensuing year (Section 14563, Education Code) .....	+781,800	+178,800	—
Net State's Contributions <sup>c</sup> (Section 14562, Education Code) ..	\$5,368,000	\$4,952,500	\$5,825,700
Contribution to Retirement Annuity Fund:			
Benefit payments in current year .....	\$10,357,712	\$12,369,285	\$12,812,587
Surplus (+) or deficit (—) of benefit payments over contributions in prior year (Section 14564, Education Code) .....	—124,224	—1,048,512	—116,287
Totals .....	\$10,233,488	\$11,320,773	\$12,696,300
Surplus (—) or deficit (+) of benefit payments over contributions in current year forwarded to ensuing year (Section 14564, Education Code) .....	+1,048,512	+116,287	—
Net State's Contribution <sup>d</sup> .....	\$11,282,000	\$11,437,060	\$12,696,300
TOTAL EXPENDITURES .....	\$16,650,000	\$16,389,560	\$18,522,000

<sup>a</sup> A bond fund. Neither receipts nor expenditures are included in the over-all budget totals.

<sup>b</sup> Reserved for emergency allocations and administrative expenses.

<sup>c</sup> The State's annual contribution to the Teachers' Retirement Fund is an amount, determined actuarially, equal to as much of the benefits to be paid therefrom during the year as is not provided by the contributions for service after July 1, 1944, of members receiving such benefits plus the contributions of employing agencies during the year.

<sup>d</sup> The State's annual contribution to the retirement Annuity Fund is an amount, determined actuarially, equal to:

(1) The benefits to be paid during the year on account of service prior to July 1, 1944, plus

(2) As much of the benefits to be paid during the year on account of service after July 1, 1944, as is not provided by the contributions of members receiving such benefits.

35				
36	<i>Number of Positions</i> -----	8.3	9	9
37				
38	Section 1151 of the Education Code requires the State Board of Education to adopt and provide one or more basic books in the prescribed			
39	courses of instruction in elementary schools for each student. Supplementary texts may also be furnished. 1951-52 was a peak year			
40	in adoptions and printing. An estimated 15 percent decline in printing will occur in 1952-53, but royalty costs will rise about 40 per-			
41	cent over the current year. This expenditure pattern results in a decrease of \$195,289, or 7 percent over 1951-52, caused primarily			
42	by adoption of only one new title, plus first printing of Mexico series, compared to extensive adoptions in the current year. Provi-			
43	sion is made for contractual services to complete preparation of the Mexican history series in the current year and to start on a			
44	series on conservation in 1952-53.			
45				
46	<sup>a</sup> Grants from the Federal Government and expenditures therefrom are not included in the over-all budget totals.

## GENERAL ANALYSIS

These federal and state funds are allocated to qualified health departments to provide effective public health services. State funds allocated to county health departments in accordance with Sections 1100-1156 of the Health and Safety Code, which provide that such health departments must comply with the minimum standards established by the State Board of Public Health.

The General Fund provision is based on a formula of 60 cents per capita or \$16,000, whichever is less, as the basic amount, plus a per capita amount of 0.20612 cent. The 1952-53 amount of \$3,094,044 is based on a January 1, 1953 population estimate of 11,385,000. The distribution will be based on this or a revised population estimate. The federal amount is distributed on the same basis as the state funds with the exception of small amounts allocated to special projects. No special projects were included in the 1950-51 to of \$692,000; however, there is a special project for \$6,000 budgeted in 1951-52. The distribution of federal funds by program is shown in the following schedule.

a Includes the items for Assistance to Counties for Care of Crippled Children, Assistance for Care of Children with Rheumatic Fever and Rheumatic Heart Disease and the item formerly shown in the support budget for Cerebral Palsy Care and Appliances, page 744, line 31.

b Included in item Assistance to Counties for Care of Crippled Children.

c There has been no true increase in this item. The apparent increase of \$302,694 is for the expenses of 74 therapists which have been transferred from the support budget, page 743, lines 67-72 and page 744, line 25.

d Neither receipts nor expenditures of federal grants-in-aid are included in the over-all budget totals.

38				
39	<b>GENERAL ANALYSIS</b>			
40				
41	These expenditures provide state grants-in-aid to counties, cities, and cities and counties for the treatment and care of persons suffering			
42	from tuberculosis. The funds are allocated in accordance with Division 4 of the Health and Safety Code which provides for a gradu-			
43	ated subsidy rate.			
44	The deficiency in 1950-51 resulted from an underestimation of the amount of construction of new facilities and the extent of utilization			
45	of existing facilities. There has been a general tendency towards a more complete utilization of facilities over the last few years.			
46	State subsidy of \$2.60 per patient day for the first 36,500 patient			
47	days of care, \$2.30 per patient day for the second 36,500 patient			
48	days and \$1.75 for all additional days per county, city, or city

## SUBVENTIONS FOR PUBLIC HEALTH—Continued

LINE	SUBVENTION EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	ESTIMATED 1952-53
1	<b>Assistance to Counties for Care of Crippled Children—Continued</b>			
2	<b>GENERAL ANALYSIS</b>			
3	This budget provides funds for a state program for handicapped children, as authorized by Sections 249-271 of the Health and Safety Code.			
4	The code provides that whenever the parent or guardian of the child is unable to finance necessary care, a designated agency of			
5	the county shall authorize the State to furnish such services. Further, it makes mandatory that each county appropriate not less			
6	than one-tenth mill on each dollar of assessed property valuation for the purpose of financing the program.			
7	This item represents a consolidation of three items in previous budgets: Assistance to Counties for Care of Crippled Children; Assist			
8	ance to Counties for Care of Children Suffering from Rheumatic Fever and Rheumatic Heart Disease; and an item from the sup			
9	port budget for the care of children suffering from cerebral palsy. During the past year, distribution of funds of the first two items			
10	have been governed by separate distribution formulas, established by administrative regulation. It is the intention, during the com			
11	ing year, to work with the proper legislative interim committees, the Conference of Local Health Officers, representatives of the			
12	counties concerned and the voluntary agencies providing care for crippled children, in the joint formulation of legislation neces			
13	sary to provide an adequate and equitable distribution plan.			
14	To provide a transition from the current formula and to prevent a repetition of the request for deficiencies which resulted from one o			
15	both of these formulas during past years, a lump sum appropriation of \$3,000,000 is proposed within which amount the total stat			
16	program for 1952-53 will be conducted. Ninety-two percent of the appropriation will be allocated to the individual counties by an			
17	administrative appraisal of need. The reserve fund of 8 percent would be distributed to cover emergency situations and to correc			
18	inequities in the original estimate of need.			
19	State funds will be made available to counties only after the county has expended the one-tenth mill required by law, or an amount equa			
20	to its 1951-52 expenditures, whichever is greater. All counties will be notified that allocations during this year should not be con			
21	sidered to establish a precedent.			
22	The estimated cost of the total crippled children's program is shown in the following table:			
23	Estimated Grand Total Program Cost-----	\$3,335,392	\$5,119,485	\$6,118,382
24	COUNTY CONTRIBUTIONS

<sup>b</sup> Shown in support budget, page 744, line 31.<sup>c</sup> Shown in support budget, page 743, lines 67-72 and page 744, line 25.<sup>d</sup> Includes \$86,832 for assistance to school districts for purchasing therapeutic services to cerebral palsied children and \$302,694 for salaries and operating expenses for 74 therapists employed by the department, formerly shown in the support budget page 743, lines 67-72 and page 744, line 25.

## SUBVENTIONS FOR PUBLIC HEALTH—Continued

LINE	SUBVENTION EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	ESTIMATED 1952-53
1	<b>Assistance to Counties for Care of Children Suffering From Rheumatic Fever</b>			
2	<b>and Rheumatic Heart Disease</b>			
3	<b>RECONCILIATION WITH APPROPRIATIONS</b>			
4	<b>General Fund</b>			
5	Budget Act appropriation-----	\$479,255	\$479,255	— a
6	Proposed deficiency appropriation-----	—	335,265	—
7	Total Available-----	\$479,255	\$814,520	— a
8	Unexpended balance, estimated savings-----	—1,697	—	—
9	<b>TOTAL EXPENDITURES, GENERAL FUND-----</b>	<b>\$477,558</b>	<b>\$814,520</b>	<b>— a</b>
10	<b>GENERAL ANALYSIS</b>			
11	This program was originally authorized by Chapter 1083, Statutes 1949, which provided services for physically handicapped children			
12	suffering from rheumatic heart disease. The diagnostic part of this program has been transferred to the support budget for 1952-53,			
13	page 744, line 30, and the subvention has been combined with the item for Assistance to Counties for Care of Crippled Children			
14	and is thus included in the \$3,000,000 proposed for that item for 1952-53.			
15	The deficiency of \$335,265 for the Fiscal Year 1951-52 resulted from increased costs and the more rapid development of programs than			
16	anticipated at the time that the original budget was constructed for 1951-52.			
17	Allocations to counties for the care of children suffering from rheu-			
18	matic fever and rheumatic heart disease-----			
19		\$477,558	\$814,520	— a
20	<b>Assistance to Local School Districts for the Furnishing of Therapeutic Services to Cerebral Palsied Children</b>

25	<b>TOTAL EXPENDITURES, GENERAL FUND-----</b>	<b>\$14,685</b>	<b>\$86,832</b>	<b>\$389,526 b</b>
26	<b>GENERAL ANALYSIS</b>			
27	This budget provides funds which will permit the department to enter into contracts with local school districts for the employment of			
28	therapists for classes for cerebral palsied children. The 1952-53 request includes \$86,832, or the same amount as provided in			
29	1951-52, for the employment of 27 therapists from subvended funds and an amount of \$302,694 for the expenses and employment			
30	of 74 therapists by the Department of Public Health. These positions were formerly shown in the support budget for the Bureau			
31	of Crippled Children's Services (page 743, lines 67-72). It is intended that all such personnel will be transferred to local agency pay			
32	rolls as soon as practicable.			
33	Assistance to school districts and costs to the State for the employ-			
34	ment of therapists-----			
35		\$14,685	\$86,832	\$389,526 b
36	<b>Assistance to Local Agencies for Mosquito and Gnat Control</b>			
37	<b>RECONCILIATION WITH APPROPRIATIONS</b>			
38	<b>General Fund</b>			
39	Budget Act appropriation-----	\$400,000	\$400,000	\$400,000
40	Unexpended balance, estimated savings-----	—633	—	—
41	<b>TOTAL EXPENDITURES, GENERAL FUND-----</b>	<b>\$399,367</b>	<b>\$400,000</b>	<b>\$400,000</b>
42	<b>GENERAL ANALYSIS</b>			
43	Section 2426 of the Health and Safety Code authorizes the Department of Public Health to enter in cooperative agreements with local			
44	districts or public agencies engaged in controlling of mosquitoes and gnats. The costs of this program are distributed between the			
45	support and subvention budgets.			
46	State operations-----	\$244,794	\$260,694	\$261,658
47	Subventions-----	399,367	400,000	400,000
48	Totals, State Funds-----	\$644,161	\$660,694	\$661,658
49	Local funds budgeted-----	\$1,226,427	\$1,558,400	\$1,558,400
50	Estimated Total Program-----	\$1,870,588	\$2,219,094	\$2,220,058

a Included in the basic crippled children item for 1952-53.

b This includes \$302,694 for salaries and operating expenses for 74 therapists formerly budgeted in the support budget, page 743, lines 67-72.

## SUBVENTIONS FOR PUBLIC HEALTH—Continued

LINE	SUBVENTION EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	ESTIMATED 1952-53
1	<b>Assistance to Local Agencies for Mosquito and Gnat Control—Continued</b>			
2	<b>GENERAL ANALYSIS—Continued</b>			
3	Approximately 62 percent of the subvention funds are distributed by formula and the balance is allocated for technical and administrative services, and special allocations as shown in the following table:			
4	Distributed by formula	\$246,067	\$245,850	— a
5	Technical and administrative	104,600	100,050	— a
6	Special allocations	48,700	54,100	— a
7	Total	\$399,367	\$400,000	\$400,000
8	Of the special allocations, \$26,600 was spent for special studies in 1950-51 and \$25,000 is so allocated in 1951-52. These funds were allocated to the following Mosquito Abatement Districts for these studies.			
9	Kern	\$4,000	\$6,100	—
10	Sutter-Yuba	12,500	8,900	—
11	Turlock	10,100	—	—
12	Fresno	—	10,000	—
13	Totals	\$26,600	\$25,000	—
14	Assistance to local agencies, not in excess of 50 percent of the cost in the work of controlling mosquitoes	\$399,367	\$400,000	\$400,000

## Assistance to Local Agencies for Hospital Construction

## RECONCILIATION WITH APPROPRIATIONS

## General Fund

Budget Act appropriation	\$4,000,000	—	\$1,000,000
Reappropriated from prior year balance	1,924,081	\$3,165,816	870,433
Totals Available	\$5,924,081	\$3,165,816	\$1,870,433

Unexpended balance, estimated savings	—1,254,700	—	—
TOTAL EXPENDITURES, GENERAL FUND	\$1,503,565	\$2,295,383	\$1,870,433

## Federal Funds

Grants for hospital construction	\$4,491,781	\$5,300,899	\$2,758,014
TOTAL EXPENDITURES, ALL FUNDS	\$5,995,346	\$7,596,282	\$4,628,447

## GENERAL ANALYSIS

This program is authorized by the California Hospital Survey and Construction Act (Sections 430-435.7 of the Health and Safety Code) which provides for state participation in the federal hospital construction program. Because of the dire shortage in hospital facilities, state funds are budgeted for 1952-53 to fulfill the matching requirements of the estimated federal contribution.

Assistance to local agencies in the construction of hospital and health center facilities, to be expended under the provisions of the California Hospital Survey and Construction Act—not more than one-third from state appropriations, not more than one-third from federal grants and the balance from local funds or other sources

General Fund	\$5,995,346	\$7,596,282	\$4,628,447
Federal Funds	1,503,565	2,295,383	1,870,433

7	<b>Old Age Security (Assistance)—Continued</b>			
8	<b>GENERAL ANALYSIS</b>			
9	This is a public assistance program financed by county, state, and federal governments. Assistance is provided to persons who do not			
10	have resources in sufficient amount to meet their needs and meet certain other requirements such as age, citizenship, residence, prop-			
11	erty, etc. Public Law 734 (H. R. 6000) as signed by the President increased the benefits under the Old-Age and Survivors Insur-			
12	ance System. This increase of benefits resulted in a decrease of the average monthly payment by the State.			
13	<i>Number of Cases</i>			
14	<i>At end of year</i> -----	274,490	275,600	277,400
15	<i>Average during year</i> -----	271,796	274,850	276,575

12				
13				
14	<b>GENERAL ANALYSIS</b>			
15				
16	This is a public assistance program in the form of financial help paid by the county and state governments to persons who, because of			
17	loss or impairment of sight, are unable to fully provide themselves with the necessities of life but are working on a plan for self			
18	support. This program is administered by county welfare departments and supervised by the State Department of Social Welfare.			
19	The Federal Government does not participate in this program. Decrease in number of cases from 1950-51 to 1951-52 was due			
20	to liberalization of the federal program for aid to needy blind by the allowance of up to \$50 per month income by recipients and			
21	the consequent transferring of some partially self-supporting blind cases to the needy blind program.			
22

## Aid to Needy Children (Assistance)

## RECONCILIATION WITH APPROPRIATIONS

## General Fund

Continuing appropriation for apportionment to counties for assistance to needy children, Section 1510, Welfare and Institutions Code

\$32,360,994      \$34,590,700      \$34,888,400

## Federal Aid Funds

Federal Grants:  
For aid to needy children

26,726,729      29,067,500      27,760,300

TOTAL EXPENDITURES

\$59,087,723      \$63,658,200      \$62,648,700

## GENERAL ANALYSIS

This is a public assistance program financed by county, state, and federal governments. The primary purpose of the program is to provide family security and financial assistance for needy children, including unborn children, who are deprived of parental support or care. The program is designed to keep children in a setting of their own family and to enable parents to continue responsibility for the family living plan. If it is not possible for a child to live with his own family, the program aims to provide the best substitute care in the home of a relative, in a foster home, or in a children's institution. This program is administered by county welfare departments and supervised by the State Department of Social Welfare. Public Law 734 (H. R. 6000) as signed by the President increased the federal share due to the participation in assistance for caretakers. This reduced the average monthly share by the State.

Number of Children  
At end of year      140,644      135,200      128,000  
Average during year      136,417      137,316      131,300  
Percent increase      52.4%      0.7%      -4.4%  
Average monthly payment      \$47.15      \$50.11      \$51.63

## Expenditures for Assistance

## County Administration of Assistance Programs

## RECONCILIATION WITH APPROPRIATIONS

## Federal Aid Funds

Federal Grants:  
For county administration      \$7,685,049      \$8,682,500      \$9,000,700

## GENERAL ANALYSIS

The cost of local administration of the aged, blind and children programs is borne by the county and the federal government. Federal funds for county administration are received by the State and forwarded to the counties on the basis of estimates submitted by the counties subject to adjustment upon receipt and audit of the counties' statements of expenditures.

Old Age Security:  
Total expenditures      \$8,370,349      \$9,564,600      \$10,122,600  
Less: County share—paid by counties      -4,121,637      -4,782,300      -5,061,300

Net Expenditures—Federal Funds      \$4,248,712      \$4,782,300      \$5,061,300

23	This provides for the reimbursement of expenses incurred by counties and cities in maintaining approved services for the licensing and inspection of agencies for child care and home finding, and agencies for the care of the aged in accordance with the provisions of Sections 1622 and 2302 of the Welfare and Institutions Code. This reimbursement is in the amount found necessary by the State Department of Social Welfare for proper and efficient administration, but not to exceed \$4 per month per license to June 30, 1952. Effective July 1, 1952, this reimbursement will not exceed in any fiscal year an amount averaging \$4 per month per license as provided by Chapter 1696, Statutes of 1951.

54				
55				
56	<b>GENERAL ANALYSIS</b>			
57				
58	The 1947 Session of the Legislature adopted various adoption laws which gave the State Department of Social Welfare power to license county adoption agencies to accept relinquishments and perform the home-finding and placement functions previously carried entirely by the private adoption agencies, and to investigate and report on petitions filed independently, previously the sole responsibility of the department. Licensed county agencies are reimbursed by the State for all the administrative costs of the adoption program, and up to \$200 on the average per child for the costs of caring for the child following relinquishment and prior to placement not collected from the adopting parents. Counties may collect from the adopting parents a fee equal to the cost to the county for the care of the child from the time of relinquishment until placement for adoption, but not to exceed \$200. It is estimated that, during the 1952-53 Fiscal Year, licensed counties will handle approximately 4,650 adoption cases (children) which will be subject to reimbursement. Of these children 2,520 will be independent cases involving county administrative expense on and the remaining 2,130 will be relinquishment cases involving county administrative expense: approximately 960 placements will involve cost of care. These estimates are based on the assumption that additional counties will be licensed as public adoption agencies. In the event that counties are not licensed as anticipated, provision has been made in the Budget Bill for transferring to the Department of Social Welfare support appropriation the amount necessary for the State to investigate and report on independent adoptions.

## GENERAL ANALYSIS

Under the provisions of Sections 950 through 960 of the Welfare Institutions Code, the board of supervisors of any county may establish juvenile homes, ranches or camps. Wards are committed by the juvenile courts to these facilities in lieu of commitment to the Youth Authority.

Certain standards prescribed by the Youth Authority must be met by the counties before they are entitled to receive any state funds. Reimbursements to counties are made for one-half of operating costs but not in excess of \$80 per month per child. There is no limit as to the number of camps for which any one county may be reimbursed.

## Salaries of Superior Court Judges

Under the provisions of Section 79 of the Code of Civil Procedure, the State contributes \$7,500 per year towards the salary of each judge of the superior courts. During the 1951-52 Fiscal Year, the State's contribution was increased from \$5,750 to \$7,500. The amount budgeted is to provide this amount for each of the 207 judges authorized by existing law.

4	<b>County Veterans Service Officers</b>			
5	In accordance with the provisions of Sections 970-973 of the Military and Veterans Code, the State reimburses the counties for part of			
6	the cost of county services maintained for assistance to veterans. Reimbursements are made on the following basis:			
7	Service officer—95 percent of salary or \$75 per month, whichever is the lesser.			
8	First assistant—80 percent of salary.			
9	All other employees—50 percent of salary.			
10	Operating expenses—95 percent or \$50 per month, whichever is the lesser.			
11	Expenditures are approximately 45 percent state and 55 percent county. All counties except Alameda, Alpine, Los Angeles, and San			
12	Francisco have established county service officers.			
13	The 1951-52 increase of \$20,127 is based upon current county budgets and includes normal salary adjustments for county personnel.			
14	The 1952-53 increase of approximately 2½ percent anticipates a more moderate increase.

## SHARED REVENUES

LINE	EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
1	The State collects revenues from liquor license fees, motor vehicle license and registration fees and motor vehicle fuel tax, all or a portion				
2	of which are passed on to cities and counties. A total of \$148,019,480 will be apportioned during the 1952-53 Fiscal Year, of which				
3	\$59,018,044 will go to cities and \$89,001,436 will go to counties. The comparable total during the 1951-52 Fiscal Year is \$144,068,059.				
4	Moneys received from the Federal Government from flood control, forest reserve and grazing lands are passed on to the counties in which				
5	such lands are located.				
6					
7					
8					
9					
10	<b>For General Government</b>				
11	Apportionment of Liquor License Fees:

# Detailed Budgets Part IV. Appendix

## Treasury Funds Not Included in Budget Totals

---

### I UTILITY FUNDS

#### DEPARTMENT OF EDUCATION:

College Auxiliary Enterprise Fund

#### DEPARTMENT OF INDUSTRIAL RELATIONS:

Compensation Insurance Fund

#### BOARD OF STATE HARBOR COMMISSIONERS FOR SAN FRANCISCO HARBOR:

San Francisco Harbor Improvement Fund

#### VETERANS AFFAIRS:

Veterans' Farm and Home Building Fund of 1943

### II WORKING REVOLVING FUNDS

#### DEPARTMENT OF CORRECTIONS:

Correctional Industries Revolving Fund

Inmate Welfare Fund

#### DEPARTMENT OF EDUCATION:

Surplus Educational Property Revolving Fund

Workshops for the Blind Manufacturing Fund

#### DEPARTMENT OF FINANCE:

Printing Fund

Purchasing Revolving Fund

#### PUBLIC HEALTH:

Water Pollution Control Fund

#### DEPARTMENT OF NATURAL RESOURCES:

Soil Conservation Equipment Revolving Fund

#### DEPARTMENT OF PROFESSIONAL AND VOCATIONAL STANDARDS:

Special Deposit Fund—Business and Professions Building Account

#### DEPARTMENT OF PUBLIC WORKS:

Architecture Revolving Fund

Water Resources Revolving Fund

### III TRUST, FEDERAL, AND OTHER FUNDS

#### DEPARTMENT OF AGRICULTURE:

State Dairy Products Trust Fund

#### DEPARTMENT OF EMPLOYMENT:

Unemployment Administration Fund

Unemployment Fund

#### DEPARTMENT OF FINANCE:

Impounded Tide and Submerged Lands Revenue Account

#### RETIREMENT FUNDS:

Judges' Retirement Fund

State Employees' Retirement Fund

Legislators' Retirement Fund

Teachers' Permanent Fund

Retirement Annuity Fund

Teachers' Annuity Deposit Fund

### IV SUNDRY OTHER FUNDS (See Explanations)

## Department of Education

## STATE COLLEGE HOUSING FACILITIES

LINE	EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
1	During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Diego, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the Eightieth Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure.				
2	On August 1, 1949, Chapter 1485, Statutes of 1949 (Education Code Sections 20355-20357), established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges, and fees are paid into this fund, and are appropriated therefrom to the Department of Education for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. The facilities provide housing for veterans or other students at established rates. The units available at each college are listed below:				
3	Chico State College-----	57 family dwelling units			
4		66 dormitory units (140 individuals)			
5	Fresno State College-----	52 family dwelling units			
6		47 dormitory units (73 individuals)			
7	Humboldt State College-----	30 family dwelling units			
8		73 dormitory units (143 individuals)			
9	San Diego State College <sup>a</sup> -----	10 trailers			
10	San Francisco State College-----	84 family dwelling units			
11		14 dormitory units (29 individuals)			
12	San Jose State College-----	148 family dwelling units			
13		371 family dwelling units			
14	Total -----	200 dormitory units			
15		10 trailers			
16					
17	SUMMARY				
18	College Auxiliary Enterprise Fund <sup>b</sup>				
19	Support—Housing Facilities:				
20	Chico State College-----	\$31,149	\$48,201	\$37,612	—\$10,589

26	Totals, Support-----	\$168,257	\$193,086	\$175,532	—\$17,554
27	Pro rata general administrative charges-----	2,101	1,673	1,700	27
28	Contributions to State Employees' Retirement Fund-----	4,135	5,372	5,484	112
29	TOTAL EXPENDITURES-----	\$174,493	\$200,131	\$182,716	—\$17,415 (—8.7%)

## RECONCILIATION WITH APPROPRIATIONS

## College Auxiliary Enterprise Fund

Continuing appropriation for maintenance, repair, and operation of student housing facilities prescribed by Education Code Section 20356-----	\$168,257	\$193,086	\$175,532
---	-----------	-----------	-----------

## GENERAL ANALYSIS

Number of positions-----	20.5	21.4	21.2
--------------------------	------	------	------

No change in level of activity of state college housing facilities is anticipated during 1952-53.

- <sup>a</sup> The City of San Diego also sponsors a 400-family dwelling unit project available to veterans attending San Diego State College.
- <sup>b</sup> From July 1, 1948, to October 31, 1948, revenues were deposited in and expenditures made from a Treasury Special Deposit Fund by agreement with the Federal Public Housing Authority. Beginning November 1, 1948, revenues were remitted to the State General Fund and operations were financed from the support appropriations of the individual colleges. The College Auxiliary Enterprise Fund was established August 1, 1949, with the provision that prior revenue and expenditure transactions be transferred to such fund.

## Department of Industrial Relations

## COMPENSATION INSURANCE FUND

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer employers insurance protection at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees.

The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

## BOARD OF STATE HARBOR COMMISSIONERS, SAN FRANCISCO—Continued

LINE	EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52		
1	GENERAL ANALYSIS						
2							
3							
4	Number of positions -----	481.8	482.6	483.2	0.6		
5							
6	The 1952-53 Fiscal Year Budget recommends increases on port maintenance work for the following: pier and wharf substructures, pier						
7	and wharf sheds, sewers, traffic signals, and dredges. Funds were appropriated in 1951-52 for repairs to pier and wharf substructures						
8	and for dredges, but these funds will not be used for this purpose as it is expected that the work will not be accomplished						
9	until 1952-53. A portion of these 1951-52 savings will be used for increased port operation costs, and the balance will be unexpended. A reduction in 1952-53 port operation costs is due to public liability insurance having been prepaid in 1951-52.

## Department of Veterans Affairs

## DIVISION OF FARM AND HOME PURCHASES

The California Veterans Farm and Home Purchase Plan, originally created by the Legislature in 1921, permits the State Department of Veterans Affairs to assist a qualified California veteran of any war to acquire suitable farm or home property. Funds for the purchase of property are obtained through state bond issues. The amount advanced by the State for purchase of a farm or home is repaid by the veteran, at a low rate of interest, through uniform monthly payments over a period of years. Title is acquired by the State at the time of purchase and is transferred to the veteran upon completion of his purchase contract.

18	Average monthly purchases	672	600	600	-
19					

## GENERAL ANALYSIS

The total amount to be invested each month is approximately \$4,250,000, which will fully utilize the remaining bonds authorized by the Veterans Bond Act of 1949 during the 1951-52 Fiscal Year. Additional funds will be required from a bond issue yet to be authorized by the electorate in order to permit the continuance of an interrupted purchasing program for qualified veterans. Chapter 1086, Statutes of 1951, will provide for an issue of \$150,000,000 upon the adoption by the people approving, adopting, legalizing, making fully effective the Veterans Bond Act of 1951.

The level of average monthly purchases follows: 664 in 1949-50, 672 in 1950-51, 641 for seven months in 1951-52, and the budget level is based upon an average of 600 for 1951-52 and 1952-53. In view of recent legislation increasing the maximum home loan from \$7,500 to \$8,500 the volume of purchases is anticipated to be maintained due principally to refinancing veterans homes and farm formerly purchased under the GI Bill and F. H. A.

## Support

Total expenditures for support in 1952-53 amount to \$1,391,461, an increase of \$55,783, or 4.2 percent. No change in the number of property purchases is anticipated.

**SALARIES AND WAGES:** No additional positions are provided. Increased salary savings partially offset the increased cost of the authorized positions.

**OPERATING EXPENSES:** An increase of \$31,137 is due to the following factors: Increased rental rate cost for space in the Sacramento office \$15,478, increased postage for cost of additional accounts, and the balance of increase due to price changes.

**EQUIPMENT:** The amount of \$31,255 is an increase of \$587 over 1951-52. It includes replacement equipment in the amount of \$17,447 or 6.5 percent of equipment investment, and \$13,808 additional equipment.

## Other Current Expense

Net bond interest expense \$4,438,498

Veteran bonds, authorized by the electorate, issued and sold have provided the funds that are used by the State to acquire properties for resale to the veterans who contract to purchase the property on a moderate amortization basis. The installment payments furnish the funds for debt service on the State's veteran bonds and expenses of operation. The program is self-liquidating without cost to the State.

Bond interest expense on the outstanding bonds for 1952-53 is estimated to cost \$4,438,498, an increase of \$625,611 over the 1951-52 Fiscal Year. This includes the additional bond interest due semiannually for two issues of \$25,000,000 each estimated to be sold in 1952-53 (subject to approval by the electorate).

Employees' retirement \$71,150

Contributions to the State Employees' Retirement System reflects an extension of the agencies experience rate of the 1950-51 Fiscal Year.

## Department of Corrections

CORRECTIONAL INDUSTRIES REVOLVING FUND  
PROGRAM

The Correctional Industries Revolving Fund was created by Chapter 84, Statutes 1945, to constitute a permanent revolving fund in the sum of not less than \$730,000 to be used to meet the operating expenses (including equipment) necessary in the work program of the Department of Corrections in the prisons and institutions under its jurisdiction. Moneys received from the rendering of services or the sale of products in the prisons and institutions are paid to the State Treasurer monthly for credit to the fund.

The Correctional Industries Commission, consisting of the Director of Corrections and six members appointed by the Governor, was created by Chapter 1137, Statutes 1947. Two members represent organized labor, two represent industry, one represents agriculture, and one represents the general public. Under the statute it is empowered to recommend productive industrial and agricultural enterprises in the prisons and institutions and determine the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise involving a gross annual production of more than \$25,000 value but less than \$225,000 value and authorize or prohibit such activity. Work programs are under way in all institutions except the Medical Facility.

Activities range from farm and ranch operations at the California Institution for Men at Chino and the California State Prisons at Soledad, Folsom and San Quentin, to large industrial operations such as the license plate factory at the California State Prison at Folsom. Operation of the largest activity, the jute mill at the California State Prison at San Quentin, was halted when the entire mill was destroyed by fire on April 19, 1951. At this time, it is not anticipated that this industry will be re-established.

Industrial enterprises are planned for the State Prison at Soledad; however, they have not as yet materialized sufficiently for inclusion in this budget.

Approximately 2,000 inmates will be employed during the 1952-53 Fiscal Year by the Correctional Industries. Destruction of the jute mill took employment away from a maximum of 800 men for whom new work activities will have to be provided.

A majority of the inmates employed are paid, in accordance with their experience and skills, on a sliding scale up to 10 cents per hour for productive work as provided by Chapter 940, Statutes of 1949.

The rehabilitation of imprisoned men through the medium of useful and productive work began at the California State Prison at San Quentin. After the introduction of various diversified work projects the remaining number of currently idle inmates indicates a pressing need for additional industrial work programs.

As part of the long range plan to develop the Correctional Industries activities to provide useful employment for the anticipated increase in number of inmates, two new enterprises have been approved by the Correctional Industries Commission. They are the furniture refinishing projects for the California State Prison at San Quentin and the California State Prison at Folsom. The project at San Quentin went into operation on July 1, 1951, while the one for the California State Prison at Folsom will be activated as soon as the projected building for this enterprise is completed. A new, enlarged cannery building at Folsom is now nearing completion. New modern equipment will be installed in time to process the pack for the 1952 canning season. An enterprise for the rebuilding and repair of war surplus equipment has also been activated at the California State Prison at Folsom. Items reworked are all types of institution kitchen equipment and typewriters for state agencies. At the California State Prison at San Quentin, new equipment will be purchased and installed in the new foundry building upon its completion.

As of July 1, 1951, all of the ranch functions at California State Prison at Soledad were transferred to, and are now operated by Correctional Industries. The ranch operations at the California State Prisons at San Quentin and Folsom were transferred to the Correctional Industries as of January 1, 1952.

Notable progress has been made in the existing industries. The quantity and quality of clothing produced at the California State Prison at San Quentin and the California Institution for Women at Tehachapi, has improved tremendously. A newly designed line of office desks is now in production at the California State Prison at San Quentin and will be available for sale currently.

Funds have been approved and allocated for the construction of industrial and warehouse buildings at the California State Prison at Soledad.

**Actual and Estimated Cash Position**

**Correctional Industries Revolving Fund in State Treasury**

	TRANSACTIONS	BALANCE IN CASH STATE AND TREASURY
Actual Balance June 30, 1950-----		\$1,078,242
Actual Receipts (July 1, 1950 to June 30, 1951)-----	\$2,943,565	
Actual Disbursements (July 1, 1950 to June 30, 1951)-----	3,345,945	—402,380 a
Actual Balance June 30, 1951-----		\$675,862
Estimated Receipts (July 1, 1951 to June 30, 1952)-----	\$3,212,862	
Estimated Disbursements (July 1, 1951 to June 30, 1952)-----	2,541,240	671,622
Estimated Balance June 30, 1952-----		\$1,347,484
Estimated Receipts (July 1, 1952 to June 30, 1953)-----	\$2,946,450	
Estimated Disbursements (July 1, 1952 to June 30, 1953)-----	3,311,881	—365,431 b
Estimated Balance June 30, 1953-----		\$982,053

a The excess of disbursements over receipts is primarily due to the expansion of existing industries and creation of new industries with revenue not realized until succeeding years.

b The excess of disbursements over receipts is primarily due to providing initial inventories and equipment for new industries at Folsom, San Quention, and Soledad, replacing two license plate presses at Folsom, and moving and equipment installation costs for moving the sewing project from Tehachapi to the new institution at Corona.

## Department of Corrections

## INMATE WELFARE FUND

The Inmate Welfare Fund is a fund in the State Treasury and constitutes a trust held by the Director of Corrections for the benefit, education, and welfare of all inmates of institutions and prisons under the jurisdiction of the Department of Corrections. Included in the fund are the net proceeds from the operation of canteens and hobby shops, the money and property of prisoners who escape and are not apprehended or who die without leaving heirs.

## GENERAL ANALYSIS

Changes in expenditures are related to population changes. The major exception to this is the State Prison at Folsom, where the large increase is due to charging handicraft purchases for resale to the Inmate Welfare Fund rather than directly to the inmate trust accounts.

Some decrease in the fund balance is anticipated in this budget to provide for some long deferred equipment purchases and general improvement in service. The balance will not be allowed to decrease below approximately 4 percent of annual expenditures. Operating losses at the Medical Facility and Deuel Vocational Institution will probably continue until the institutions move to new facilities and their populations are increased.

1	INSTITUTION FOR MEN, CHINO						
2	Analysis						
3							
4	The increase of \$1,248 is due to an increase in operating expenses of \$2,354 for increased population, an equipment decrease of \$3,992,						
5	and an increase in salaries and wages primarily due to the following proposed new position:						
6	Senior account clerk						\$3,138
7	Required to handle increased work load due to one new camp and the new guidance center, the cost partially						
8	offset by the abolishment of an intermediate clerk (intermittent).						
9

## Department of Education

## STATE EDUCATIONAL AGENCY FOR SURPLUS PROPERTY

Surplus property of all federal agencies, as well as surplus foods, is made available to schools through the Surplus Educational Property Revolving Fund, and all expenses of procuring, handling and distributing such food and equipment are paid from this fund. Operating costs are recovered by nominal service charges to school districts, based upon a percentage of the fair value of the commodities distributed.

Any excess service and handling charges are refunded to the participating school districts after the close of each fiscal year.

Reserves are maintained in the fund sufficient to meet any unliquidated obligations, plus an amount sufficient to repay a \$100,000 working capital advance from the General Fund.

## GENERAL ANALYSIS

Number of positions ..... 95.3 84 79 —5

The State Educational Agency for Surplus Property will continue operations in the budget year at the same level of activities as for 1951-52. The flexibility of agency financing allows for adjustments demanded by changing international conditions, as evidenced by the sharp cutback in the 1951-52 Fiscal Year caused by impact of the Korean conflict on military surplus property distribution.

## Department of Education

## WORKSHOPS FOR THE BLIND MANUFACTURING FUND PROGRAM

The California Industries for the Blind operates three production centers, at Oakland, Los Angeles, and San Diego. The Workshops for the Blind Manufacturing Fund is the revolving fund utilized by the California Industries for the Blind in its program of employment of blind and physically handicapped workers. The fund was created by Chapter 943, Statutes of 1949, by consolidating the assets and liabilities of the then existing Industrial Home for the Adult Blind Manufacturing Fund, the Los Angeles Industrial Workshop Manufacturing Fund, and the San Diego Industrial Workshop Manufacturing Fund. This fund constitutes a permanent revolving fund used to meet the expenses necessary to purchase the materials and production equipment, payment of wages and salaries and other expenses incident to the program of the California Industries for the Blind in the State Department of Education. Moneys received from the sale of products manufactured in the production centers are paid into the State Treasury monthly for credit to the fund.

Activities in the production centers are many and varied, and include such items as manufacture of brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, leather goods, and the fabrication and assembly of many products on a subcontract basis.

This program provides some training and work experience for persons who are placed in gainful employment outside the production centers, and there is coordination with the Bureau of Vocational Rehabilitation of the Department of Education for this purpose. The production center program is not to be considered, however, as one of the sequential steps for the placement of blind persons in private industry.

Approximately 450 blind and handicapped individuals will be employed during the 1952-53 Fiscal Year by the production centers for the blind. The 1949 Legislature appointed a Joint Interim Committee on the State Program for the Adult Blind. That committee filed its report on March 12, 1951, and part of its recommendations were embodied in Senate Bill No. 1576, now known as Chapter 1144, Statutes of 1951. The Department of Education, as well as other state departments, worked in cooperation with this committee in developing a long-range and well-rounded program of proper administrative control of these production centers in accord with the recommendations of the committee and has also made recommendations for augmentation of the revolving fund in order that the recommendations of the committee and has also made recommendations for augmentation of the revolving fund in order that additional employment may be given to blind and handicapped persons for the adult blind of the State.

Workshops for the Blind Manufacturing Fund

## Department of Finance

## PRINTING DIVISION

The Printing Division operates the State Printing Plant. The division does all of the printing for the various state agencies. Two of the larger activities are the printing required by the Legislature and the publication of textbooks for free distribution to the schools. The division is supported by charges made for printing services.

Office at Sacramento

## Department of Finance

## PURCHASING REVOLVING FUND OPERATIONS

Budget provides for the overhead of central stores in Sacramento, San Francisco, and Los Angeles, as well as the overhead of the state garages in Sacramento, San Francisco, and Los Angeles. These operations are financed by sales of materials to other agencies. A function of Radio Maintenance was transferred from support of the Division of Communications, Department of Finance, as of January 1, 1951, and is financed by charges to other agencies for the service.

LINE	EXPENDITURES	ACTUAL 1950-51	ESTIMATED 1951-52	PROPOSED 1952-53	CHANGE FROM 1951-52
1	<b>SUMMARY</b>				
2					
3					
4	<b>Purchase Revolving Fund</b>

14					
15	<b>GENERAL ANALYSIS</b>				
16					
17					
18	<i>Number of positions</i> -----	<i>61.4</i>	<i>85</i>	<i>88.5</i>	<i>3.5</i>
19	The operations of central stores and radio maintenance are budgeted to continue at the same level as in 1951-52. Expenditures of the				
20	state garages show an increase resulting from a general increase in motor vehicle pool activities resulting in greater upkeep costs				
21	and replacement of worn out vehicles. A new preventive maintenance shop in Los Angeles is also proposed.				
22					
23					
24					
25	<b>SUPPORT EXPENDITURES</b>	<b>NO. OF POSITIONS</b>		<b>ACTUAL</b>	<b>ESTIMATED</b>

27		<b>(Filled)</b>	<b>(Auth.)</b>		<b>1952-53</b>
28			<b>52-53</b>		
29			<b>(Auth.)</b>		
30	<b>CENTRAL STORES</b>				
31	<b>Analysis</b>				
32	The over-all increase of \$6,056 results from the following:				
33					
34	<b>SALARIES AND WAGES:</b> A decrease of \$804 caused by the transfer of one position to the state garage in Los Angeles.				
35					
36	<b>OPERATING EXPENSES:</b> The increase of \$1,262 is made up of \$1,000 for repairs to equipment; \$150 for traveling to San Francisco				
37	and Los Angeles for inspection of warehouses; the balance represents increased general administrative charges.				
38					
39	<b>EQUIPMENT:</b> The amount of \$6,918 provides for one Kardex cabinet, \$272; one packing counter, \$500; one packing table, \$150;				
40	additional pallets and pallet roller, \$1,281; two shelving units, \$104; an electric fork truck, \$4,411; and miscellaneous items, \$100.

24	<b>STATE GARAGES</b>						
25							
26	<b>Analysis</b>						
27							
28	The over-all increase of \$69,929 results from the following :						
29							
30	<b>SALARIES AND WAGES:</b> Reflects an increase of \$5,045 for full year employment of eight intermittent garage attendants who						
31	will work one-quarter time in order to park vehicles on the roof of the new state garage; \$3,745 for full-year employment of person-						
32	nel assigned to the new state garage and the following new positions: one garage attendant, \$2,640, San Francisco, which is						
33	necessary due to expansion of the vehicle pool facilities in that location, and two automobile mechanics, \$7,440, to staff the pro-						
34	posed maintenance shop in Los Angeles.						
35							
36	<b>OPERATING EXPENSES:</b> Show an increase of approximately \$30,000, due primarily to a \$29,000 increase for the upkeep of pooled						
37	vehicles. It is estimated that the motor vehicle pool will increase approximately 300 percent within the next 18 months.						
38							
39	<b>EQUIPMENT:</b> Includes provision for replacement of one typewriter, \$150; a jeep hoist for \$350; necessary tools and equipment for						
40	the proposed Los Angeles maintenance shop, \$3,350; and replacement of 20 automobiles, \$20,000.

## SOIL CONSERVATION EQUIPMENT REVOLVING FUND

The Soil Conservation Equipment Revolving Fund created by Chapter 1032, Statutes 1949, as amended by Chapter 1646, Statutes 1951 provides for the acquisition of soil conservation machinery and equipment and the rental thereof to soil conservation districts. The fund consists of \$1,000,000 appropriated thereto and all money received through rentals and reimbursements for administrative expense.

<sup>a</sup> In accordance with the provisions of Sections 400 to 404 of the Business and Professions Code, the Business and Professions Building was constructed and is being operated by the Department of Professional and Vocational Standards as a self-sustaining enterprise. Out of the rentals received from state agencies occupying space in the building and fees paid by users of its parking facilities, are defrayed the cost of operating and maintaining the building. The remaining receipts are apportioned back to the agencies contributing to the cost of the building in proportion to their respective investments. Since the major receipts of this fund have been included as expenditures for rent in the budgets of the respective agencies occupying the building, its transactions are not carried into the budget totals.

## Department of Public Works

## DIVISION OF ARCHITECTURE REVOLVING FUND

1 Authorized by Section 14030 of the Government Code, the Division of Architecture Revolving Fund provides the Division of  
 2 Architecture with a working revolving fund from which to pay the cost of architectural services and construction for state  
 3 agencies. The resources of such fund consist entirely of transfers, subject to the approval of the Director of Finance, from  
 4 appropriations for construction and improvements made to the several agencies. Expenditures are reported in the budgets  
 5 of the agencies to which the appropriations were made. Any unexpended balance remaining after completion of a project is  
 6 returned to the appropriation and fund of origin.

## EXPLANATION OF ESTIMATED ACTIVITIES

11 The activities of the Division of Architecture are expected to continue at the present maximum effort level to fulfill the State's most  
 12 urgent construction requirements as rapidly as possible. This maximum effort will reflect an increasing expenditure program  
 13 during each of the 1951-52 and 1952-53 years. Detail of projects by agency for these years is to be found in the Capital Outlay  
 14 Budget.

### ANALYSIS OF CASH FLOW THROUGH THE DIVISION OF ARCHITECTURE REVOLVING FUND FOR THE PERIOD JULY 1, 1951 TO JUNE 30, 1953

19 Balance as of June 30, 1951 \_\_\_\_\_ \$121,999,550

21 Estimated Amounts to be Transferred to Revolving Fund: <sup>a</sup>

<i>Program</i>	<i>1951-52</i>	<i>1952-53</i>	
24 Agriculture _____	\$230,207	\$577,331	
25 Corrections _____	6,293,467	8,641,900	
26 Youth Authority _____	4,695,185	7,242,500	
27 Education _____	8,322,414	16,029,794	
28 Employment _____	944,000	919,300	
29 Finance _____	1,390,000	4,628,996	
30 State Agricultural Society _____	—41,924	75,000	
31 Sixth District Agricultural Association _____	—100,000	—	
32 District Fairs _____	1,000,000	650,000	
33 Highway Patrol _____	119,798	172,205	
34 Motor Vehicle _____	550,000	124,385	
35 Mental Hygiene _____	18,000,000	18,000,000	
36 Military Affairs _____	—352,447	781,790	
37 Fish and Game _____	1,168,200	1,500,000	
38 Natural Resources _____	274,984	297,270	
39 Public Health _____	1,062,264	—	
40 Veterans Affairs _____	340,000	1,558,000	
41 Public Works _____	3,354,696	3,500,000	
42 Unallocated Increased Costs _____	12,443,190	12,000,000	
	\$59,694,034	\$76,698,471	
		59,694,034	\$136,392,505
47 Total Program for 1951-52, 1952-53 period _____			\$258,392,055

48 Estimated Cash Balance June 30, 1953:

49 Estimate of cash carry over balance representing lag between con-		
50 tracts in force and actual cash payment which may not be		
51 made until the subsequent year on a project progress or com-		
52 pletion basis _____		\$75,310,140
53 Estimated cash disbursements for 1951-52 and 1952-53 period _____		183,081,915
54 1951-52 (41%) _____		75,063,587
55 1952-53 (59%) _____		108,018,328

57 <sup>a</sup> Represents amounts of capital outlay projects set forth in the 1952-53 Budget estimated to be constructed by the Division of Architecture  
 58 in accordance with the requirements of the State Contract Act. The amounts exclude most equipment, minor construction projects  
 59 and repair work planned to be performed under supervision of the agency. Moneys in excess of the immediate requirements of the  
 60 division are invested, the income accruing as revenue to the General Fund.

62 SALARIES AND WAGES: To accomplish this program the Division of Architecture employs personnel in the technical and crafts-  
 63 man classes as needed. The salaries of these employees are paid from project funds and such expenditures are reported as a portion  
 64 of the project cost. The average number of persons employed during the 1950-51 Fiscal Year was 803 and it is estimated that  
 65 approximately the same number will be employed during the current and subsequent fiscal periods.

## LEGAL CITATIONS

67 The functions of the Division of Architecture are defined by Part 5, Division 3 of the Government Code and the following are the more  
 68 significant provisions:

69 Section 14100. "The State Architect has general charge, under the department, of the erection of all state buildings \* \* \*"

72 Section 14255. "Whenever provision is made by law for any project the project shall be under the sole charge and direct control of the  
 73 Department of Public Works." A project is defined by Section 14254 as any construction or improvement of any state structure  
 74 or improvement which will exceed \$2,000 in cost.

75 Section 14256. If the total cost of the project will not exceed \$20,000 the State Architect may, with the approval of the Director of  
 76 Finance, authorize the agency concerned to carry out the project directly.

77 Sections 14270 to 14275 require full and complete plans and estimates prior to entering into any contract for a project; requires work  
 78 on all projects be done under contract awarded to the lowest, responsible bidder except in the event it is found that such procedure  
 79 is not in the best interest of the State; and prohibits awarding a contract in excess of the estimate.

80 Sections 14290 to 14402 prescribe in detail the contract procedure to be followed; including advertising for bids, qualification of bidders,  
 81 award of contracts, and payment.

<sup>a</sup> These amounts are not included in over-all budget totals, since expenditures from state appropriations are reported in the budget schedules of the agencies to which the appropriations are made.

## DEPARTMENT OF AGRICULTURE

## California Dairy Industry Advisory Board

California Dairy Industry Advisory Board provides the means for the dairy industry to develop, maintain, and expand markets for California dairy products. The cost of this program is defrayed entirely from fees paid by producers and handlers of dairy products.

## DEPARTMENT OF EMPLOYMENT

The Department of Employment administers the state employment service, the unemployment insurance and disability insurance systems, and acts as agent for the United States Veterans Administration in operating the veterans' readjustment allowance program of the Servicemen's Readjustment Act. The department also administers, on behalf of the Department of Finance, the program of old age and survivors insurance coverage for political subdivisions within the State. The cost of administering the employment service, the unemployment insurance system and the Veterans Administration programs is financed almost entirely from federal funds. The cost of administering the disability insurance system is paid out of the Unemployment Compensation Disability Fund, which is derived from contributions by covered employees. The administrative costs of the old age and survivors insurance program are derived from the subject subdivisions by assessment.

## GENERAL ANALYSIS

Number of positions----- 4,467.2 4,236.5 4,449.6

- The expenditures from the Unemployment Administration Fund are those financed by federal grants, the amounts being allocated by the Bureau of Employment Security of the United States Department of Labor. The amounts allocated to a particular state are dependent upon work load and the over-all amount appropriated by Congress for grants to states for employment service and unemployment insurance operations. The amount estimated for 1952-53 represents the department's estimate of probable grants based upon estimated work loads multiplied by unit times approved by the Bureau of Employment Security for 1951-52.
- The Department of Employment has requested the Bureau of Employment Security for six new positions for the Auditing Section-Central Office, 43 new positions for the Auditing Section-Field Offices, and 141 additional new positions in the Local Offices to provide for a more adequate program. This requested increase is not reflected in this budget as it appears unlikely that the national appropriation will permit the granting of additional funds for such purposes.
- The Disability Insurance Program is financed out of the Unemployment Compensation Disability Fund in the State Treasury and is subject to state control as contrasted with other activities of the Department of Employment, which are financed from federal funds, and therefore subject to considerable federal control. Disability insurance provides benefit payments to covered employees who are out of work because of sickness or nonindustrial injuries. The 1951 Legislature passed several amendments to the act, which became effective January, 1952, and bear directly upon work load estimates and unit times for the last half of the 1951-52 Fiscal Year. This change in work load has been reflected in this budget for 1951-52 and extended through 1952-53.
- The amount requested for support from the Department of Employment Contingent Fund is to provide for one-half of the cost of operation of the Division of Development and Stabilization of Employment. This division works with the local communities in the promotion and development of employment programs. The other half of the amount required for support of this division is paid from federal grants.

g Exclusive of capital outlay expenditures. See capital outlay budget for Employment.

1	DIVISION OF ADMINISTRATIVE SERVICES—Continued						
2	Area Business Management Units						
3	Analysis						
4	The Area Business Management Units advise the area and field office managers on fiscal and personnel management procedures; develop						
5	proposals for maintenance of equipment and changes in field office premises and improvements in physical facilities; negotiate with						
6	lessors on terms of leases; secure bids from contractors; determine equipment needs for the area; authorize public utility installa-						
7	tions, maintain personnel roster records for all positions in the area and process personnel documents; interview, select and assign						
8	eligible applicants for clerical positions.						
9	The internal auditors in the Area Business Management Units audit financial operations and records in all field offices; verify cash						
10	balances; determine whether prescribed security measures are observed for the safety of cash; ascertain that prescribed local office						
11	cash payment procedures are being followed and examine overpayment collection accounts and receipts.

51	Administrative Analysis Section						
52							
53	Analysis						
54							
55	The Administrative Analysis Section has as its primary functions the assistance of management in coordinating intersectional operations						
56	and in analyzing the efficiency and effectiveness of designated operations and organizational units. These functions are carried out						
57	through coordination and development of procedural plans affecting more than one section or division; control of the system of man-						
58	uals, notices, and forms; and by the making of administrative analyses and recommendations concerning departmental methods, pro-						
59	cedures, organizations, and administrative practices.						
60	The section also acts as consultants to management on methods of operation, form design, manual preparation, and principles of organi-						
61	zation.

16	DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS						
17	General Administration						
18	Analysis						
19	The Department of Employment is administered by the Director of Employment. He is appointed by the Governor, subject to the approval of the Senate, from the membership of the California Employment Stabilization Commission. He is appointed for an indefinite term and serves at the pleasure of the Governor. He is responsible for all phases of the administration of the California Unemployment Insurance Act, except certain quasi-judicial and quasi-legislative functions which are the responsibilities of the commission and the Appeals Board respectively. He acts as Chairman of the California Employment Stabilization Commission.						
20	The director appoints a deputy director to assist him in directing the activities of the department. The deputy director coordinates the activities of the department and makes policy and administrative determinations on matters not requiring the personal attention of the director. He acts for the director in his absence.

58	San Francisco Bay Manpower Area Office						
59							
60	Analysis						
61							
62	Manpower Area offices are line organizations functioning as the administrative arm of, and reporting to, the Office of the Assistant Chief,						
63	Division of Public Employment Offices and Benefit Payments. They supervise the activities of local offices in accordance with depart-						
64	mental and divisional policies, methods and standards. In addition, the Manpower Area offices organize, administer, and provide lead-						
65	ership and guidance to the activities of the manpower area labor-management and inter-agency manpower committees.						
66

66							

<sup>k</sup> This amount represents collections for two years consisting of the 1950 and 1951 calendar year assessments. This is due to a change in method of billing whereby the assessments are made prior to June 30th instead of subsequent. The 1952-53 estimated amount is for only one year.

<sup>l</sup> As of June 30, 1951 the Unemployment Trust Fund includes \$103,243,115.85 principal and \$10,987,890.99 interest which is available for either Unemployment Insurance Payments or Disability Insurance Payments.

**SUMMARY AND  
RECONCILIATION WITH APPROPRIATIONS**

**Special Deposit Fund**

**GENERAL ANALYSIS**

Under a stipulation approved by the United States Supreme Court all of the revenue derived from marginal sea areas are impounded pending final determination of the litigation. Funds impounded between June 23, 1947, and September 30, 1950, are deposited in the State Treasury. Funds impounded after September 30, 1950, are deposited in the United States Treasury.

The renewal stipulation of August 21, 1950, provided for reimbursement of the State for their expenses in administration and supervision of leases involving the marginal sea areas from funds impounded prior to October 1, 1950, at the rate of \$12,000 a month. This amount was increased to \$14,000 per month by the renewal stipulation approved September 24, 1951.

It is estimated that on June 30, 1953, there will be \$27,483,473 impounded in the State Treasury and \$28,769,557 impounded in the United States Treasury. A more detailed analysis of the revenue and expenditures follows.

**Support Expenditure Detail**

## JUDGES' RETIREMENT SYSTEM

The Judges' Retirement Fund receives contributions from the State in the amount of 2½ percent of the salaries of justices of the Supreme Court and of the district courts of appeal, and judges of the superior courts, and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund. There are now 392 members contributing to the retirement fund.

## BOARD OF ADMINISTRATION

## STATE EMPLOYEES' RETIREMENT SYSTEM—LEGISLATORS' RETIREMENT SYSTEM

The State Employees' Retirement Fund and the Legislators' Retirement Fund are trust funds maintained by the State for accumulation of contributions from the State and employee members to be used for payment of death and retirement benefits. In addition to state employees the system is available to other public agencies under a contractual arrangement.

## TEACHERS' RETIREMENT FUNDS

LINE	FUND CONDITION	ACTUAL 1950-51	ESTIMATED 1951-52	ESTIMATED 1952-53	
1	The State Teachers' Retirement System is composed of approximately 130,000 active accounts. Approximately 13,000 members will receive retirement benefits during 1952-53. The present system became operative July 1, 1944.				
3	Three major funds constitute the State Teachers' Retirement System. They are the Teachers' Permanent Fund, the Retirement Fund, and the Annuity Deposit Fund.				
5	The Teachers' Permanent Fund receives its revenues from members' contributions, contributions from the local school district, interest from invested surplus, and yearly appropriations by the State from the General Fund. Retirement benefits from this fund are \$600 per year.				
8	The Retirement Annuity Fund receives its revenue from members' contributions, interest from invested surplus, and yearly appropriations by the State from the General Fund. Retirement benefits from this fund are computed on the basis of the members' total contributions. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System payments.				
11	The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935 and July 1, 1944, together with the interest earned thereon. Members who have contributed to this fund receive an annuity at the time of their retirement based upon the amount deposited by the member to the Annuity Deposit Fund.				
16	TEACHERS' PERMANENT FUND <sup>a</sup>				
18	Estimated unbudgeted surplus, July 1	\$72,907,794	\$79,297,654	\$85,151,760

77	Estimated Unbudgeted Surplus, June 30	\$3,456,192	\$3,429,692	\$3,405,892	
79	<sup>a</sup> A trust fund. Neither revenues nor expenditures are included in the over-all budget totals.				

**EXPLANATION OF SUNDRY OTHER FUNDS***(For fund balances see Schedule 6)*

**BALLOT PAPER REVOLVING FUND:** Created to provide funds for the purchase of paper stock for printing ballots for state elections. The fund is reimbursed from the sale of the stock to the several counties.

**OLD AGE AND SURVIVORS INSURANCE REVOLVING FUND:** A revolving fund for administration of public employees and employer's contributions to old age and survivors insurance programs.

**PAY ROLL REVOLVING FUND:** A revolving fund to provide for the central pay roll system.

**TOLL BRIDGE AUTHORITY REVOLVING FUND:** The fund was created to pay necessary expenses of the Toll Bridge Authority under the direction of the Department of Public Works in building, purchasing, or acquiring toll bridges and approaches thereto. The fund is replenished as specific toll bridges are acquired and construction funds or toll revenues become available. No activity contemplated.

**INDIA BASIN SINKING FUND:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

**SACRAMENTO STATE BUILDING INTEREST AND SINKING FUND:** Moneys are transferred from the General Fund and interest is earned on the investment of these moneys to provide for the payment of interest and redemption of the Sacramento State Building Bonds of 1913.

**SAN FRANCISCO SEAWALL SINKING FUND NO. 2:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

**SAN FRANCISCO SEAWALL SINKING FUND NO. 3:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

**SAN FRANCISCO SEAWALL SINKING FUND NO. 4:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

**CALIFORNIA STATE PARK FUND OF 1927:** No further expenditure to be made from this Bond Fund.

**SAN FRANCISCO SEAWALL NO. 3 (Bond Fund):** No further expenditure to be made from this Bond Fund.

**SAN FRANCISCO SEAWALL NO. 4 (Bond Fund):** All the authorized bonds have not been sold to date. No estimate has been made of the probable future sale of these bonds nor the construction of the projects from the proceeds of the sale.

<p><b>SACRAMENTO-SAN JOAQUIN DRAINAGE DISTRICT FUND NO. 1:</b></p> <p><b>SACRAMENTO-SAN JOAQUIN DRAINAGE DISTRICT FUND NO. 3:</b></p>	}	<p>These assessment funds are no longer active, inasmuch as the Sacramento-San Joaquin flood control project for which these funds were collected has been made an obligation of the General Fund and the Flood Control Fund of 1946.</p>
---	---	---

**ABANDONED PROPERTY FUND:** Consists of amounts paid to the State by banks, building and loan associations, savings unions, and credit unions from accounts remaining inactive for 20 years or more. Proceeds from the investment of the fund are paid into the School Fund and used for the support of the common schools.

**AGRICULTURE BUILDING FUND, DEPARTMENT OF:** Moneys are transferred from the Department of Agriculture Fund to this fund on a loan basis to provide funds for construction of a building. Rentals will be paid into the fund and will be returned to the Department of Agriculture Fund.

**MONTAGUE WATER CONSERVATION DISTRICT CONDEMNATION FUND:** There remains a balance of \$48 from a deposit of \$29,054 under court order in 1932. The district condemned land in Siskiyou County and was required to make the deposit in order to obtain possession of the land.

**PUBLIC BUILDING RECONSTRUCTION FUND:** Contains the unexpended remainder of federal funds advanced to the State for replacement and reconstruction of public buildings destroyed by earthquakes since January, 1933. The fund is reimbursed for any amounts advanced and returned to the Federal Government. There is no current activity in this fund.

**SAN FRANCISCO-OAKLAND BAY BRIDGE CONSTRUCTION FUND:** Consists of the remainder of the proceeds received from the sale of the revenue bonds sold for the building of the San Francisco-Oakland Bay Bridge.

**SCHOOL LAND FUND:** A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.

**SCHOOL LAND DEPOSIT FUND:** Consists of deposits made by applicants for purchase of school lands. Balance consists of applications not yet acted upon. There is no current activity in this fund.

**SPECIAL DEPOSIT FUND:** Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. There is impounded oil royalties held pending final decision of ownership of marginal sea lands. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.

**STATE PARK CONTINGENT FUND:** Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions or administration of the State park system. The amounts received are disbursed in accordance with the provisions of the donations.

**SURPLUS MONEY INVESTMENT FUND:** Moneys in the various special funds which are not currently needed are declared surplus and transferred to this fund where they are available for investment. The money is returned to the special funds when needed. The interest received is shown as revenue for the General Fund, Fish and Game Preservation Fund, Motor Vehicle Fund, and Motor Vehicle Fuel Fund.

As the transactions of this fund involve the purchase and sale of securities as well as receipts of surplus moneys and disbursement of interest earned, no estimate is made of the volume of such transactions.

**TAX DEED LAND RENTAL TRUST FUND:** Receipts are derived from leases made by the State Controller covering property deeded to State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.

**TEACHERS' RETIREMENT DISBURSEMENT FUND:** This is a fund used for the convenience of accounting for disbursements for teachers' retirement benefit payments. Moneys are transferred to this fund from the Teachers' Permanent Fund and the Teachers' Retirement Annuity Fund.

**TORRENS TITLE ASSURANCE FUND:** Fund contains unexpended balance of fees and investment income of  $\frac{1}{10}$  of 1 percent of assessed value of land and improvements insured under the Torrens Title Assurance Act. An outstanding judgment against the fund exceeds the assets of the fund. There is no current activity in the fund.

**TREASURY TRUST DEPOSITS:** Provides for the State Treasurer's central banking system.

**UNCLAIMED PROPERTY FUND:** This fund accounts for all unclaimed moneys held by the State.
